5Contacts

Contacts [icon] enables you to save and manage such information as phone numbers and addresses of your contacts. You can save such information in your phone or your SIM card. You can also assign eight frequently-used numbers to speed dialing keys for your convenience.

Making Calls from the Contacts

You can make a voice/video call with a contact selected from the contacts list.

1 In the **Contacts** [icon] screen, press the left/right scroll key to select **Phone** [icon] or **SIM** [icon].

2 Select a contact and select **Options** > **Call**. Then, you can select **Voice Call** or **Video Call** to make a call. Alternatively, you can select **Edit before call** to edit the number before making the call.

Searching for a Contact

You can find a contact from the contacts list easily and quickly by using this function on both the **Phone** screen and the **SIM** screen.

1 In the **Contacts** [icon] screen, press the left/right scroll key to select **Phone** [icon] or **SIM** [icon].

2 Select **Options** > **Search**.

3 Select **Options** > **Search**, and then enter the contact name you are searching for. The contact will be displayed.

Note The search result will include all matched contacts from both the phone and SIM memories, no matter from which screen (Phone or SIM) you start searching.

You can also use quick search in the **Phone** or **SIM** screen:

1 In the **Contacts** [icon] screen, press the left/right scroll key to select **Phone** [icon] or **SIM** [icon].

2 Enter a string (one or more letters or numbers) contained in the contact name you are searching for (which is displayed at the bottom of the screen). Then the contacts whose names contain this string will be displayed.

You can also find a contact by entering the initials of the first name and the last name of the contact. For example, to find a contact named "Alice Green", enter the initials "ag". This contact will be displayed in the candidate list.

Other Operations

In the **Contacts** screen, press the left/right scroll key to select **Phone** or **SIM**. Then select **Options** for the following options.

Options	Description
Create Message	To send a message, MMS or Email to the selected contact.
New	To create a new contact.

Options	Description
Send contact	To send a contact to other devices supporting SMS or Bluetooth.
Copy to SIM/Copy to phone	To Copy one or more contacts from your phone to the SIM card or from your SIM card to the phone.
Speed dial Number	To assign often-used numbers to speed dialing keys "2" to "9".
My business card	To save your own information to a Business Card. You can send the information by SMS or Bluetooth.
Backup contacts	To back up your contacts from your phone to a memory card or from your memory card to your phone.
Delete	To delete the selected contact.
Mark/Unmark	To mark/unmark a record or all records in your phone and SIM card.
Memory status	To view the memory status of both your phone and SIM card.
Settings	To sort the contacts in the phone and the SIM card or to set an alert before saving.

5

Contacts

Groups

You can rename a group, add group members, and delete a group.

Adding/Deleting Group Members

You can add a member to a group in your phone or delete a member from it.

1 In the **Contacts** 📇 screen, press the left/right scroll key to select **Groups**.

2 Select a group and press ⬜ to view the details.

3 Select **Option** > **Add**. Select a contact and press ⬜. The member you added will be displayed in the group member list.

To delete a group member, select a member from the group member list, and then select **Options** > **Delete**.

Managing a Group

1 In the **Contacts** 📇 screen, press the left/right scroll key to select **Groups**.

2 Select a group and select **Options** for the following options.

• Detail: to view the details of a group.

• Create: to send a text message or MMS to all members of a group.

• Rename: to change the name of a group.

• Delete: to delete a group and all members of the group.

Note You cannot rename or delete any group preset in your phone.

6 Call Log

The recently dialed calls, received calls and missed calls are saved automatically. This makes it easier to refer to these calls.

Making Calls from Call Log

1 Select **Call Log** in the main menu and then press the left/right scroll key to switch between **All calls**, **Missed**, **Received** and **Dialed**.

2 Press the up/down scroll key to select a record. Press to make a voice call or press to make a video call.

Other Operations

Press the left/right scroll key to select **All calls**,

Missed, **Received** or **Dialed**. Then select **Options** for the following options.

Options	Description
Edit before call	To edit the number before making a call.
Create Message	To send a SMS or MMS.
Save number	To save the numbers of the selected record to the phone, the SIM card, or an existing contact.
Call	To make a voice call or a video call.
Display mode	You can select **Normal** to display all records or select **Simple** to ignore the repeated records.
Delete	To delete the selected record.
Mark/ Unmark	To mark/unmark a record or all records.
Calls status	To display the information on voice calls, video calls and data services.
	In the voice call, video call and data page, you can select **Reset** to clear all records.

7 Messaging

Text Messages

The maximum content for a single text message is 160 English letters. If the characters you entered exceed this limit, the text is divided into two or more continuous messages when it is sent.

Creating a text Message

1 Select **Messaging** > **Write SMS** from the main menu.

2 In the message editing screen, select **Options**:

- Insert number: You can insert a phone number saved on the phone or the SIM card.

- Common phrases: You can use this option to speed up the text entry.

- T9 Switch: enable or disable T9 input method.

- Input mode: You may select one of the input methods to enter the message contents.

- Input language: You can select an input language for this message.

3 After editing the message, press to access the "Edit numbers" screen.

- Enter the phone number, and then select **Options** > **Send** or press to send the message.

- Select **Options** > **Group** or **Contacts** to choose a number and send the message.

- Select **Options** > **Save to drafts** to save the message.

SMS Mailboxes

The phone provides three mailboxes for SMS, namely, Inbox , Sent and Drafts .

◆ **Inbox**

You can save the received messages in **Inbox**.

Icons in Inbox

Icon	Description
	a read message in the phone memory

Icon	Description
	an unread message in the phone memory
	a read message on the SIM card memory
	an unread message on the SIM card memory
	a read message report
	an unread message report

Viewing Messages in Inbox

1 Select **Messaging** > **SMS** > **Inbox**.

2 Press the up/down scroll key to view the messages and then press ⬜ to view the details.

3 Reply or call back.

- Press ⬜ to reply with a text message.

- Press 📞 to call back by a voice call or press
  📹 to call back with a video call.

You can select **Options** for the following operations.

- Reply: To reply the message.
- Forward: To forward the message.
- Edit before call: To edit the number.
- Save number: To save the numbers retrieved from an SMS to phone or SIM memory or an existing entry in the contacts.
- Extract URL: To extract URL address from an SMS for browsing web pages or stream media.
- Save Email address: To retrieve email address from an SMS and save it.
- Copy to SIM: To back up the SMS to SIM memory.
- Call: To make a voice call or a video call.
- Delete: To delete the message.

◆ **Sent**

Sent is used to save the messages that have been sent.

Icons in Sent

: A text message that has been sent and saved to the phone.

■ Text Messages

: A text message that has been sent and saved to the SIM card.

Viewing Messages in the Sent

1 Select **Messaging** > **SMS** > **Sent**.

2 Press the up/down scroll key to select a message and press to view the details.

3 Forward or make a call.

- Press to forward a text message.

- Press to make a voice call or press to make a video call.

You may select **Options** to do the same operations as those of SMS Inbox.

◆ Drafts

The Draft box is used to save the messages you created and saved and those which failed to send.

Icons in Drafts

: A text message saved to the phone.

: A text message saved to the SIM card.

Viewing and Editing Messages in the Drafts

1 Select **Messaging** > **SMS** > **Drafts**.

2 Press the up/down scroll key to select a message and press to edit it.

SMS Settings

You can change the SMS settings by performing the following steps.

1 Select **Messaging** > **Settings** > **SMS** from the main menu.

2 Set the parameters related to messages:

- Message center: You can set your mobile phone to retrieve the message center number from the SIM card or the phone. If you have deleted the information by accident, contact your service provider.

- Valid period: The time a message is kept in the message center after it is sent.

- Auto save: You can set whether a message will be saved automatically to **Sent** when it is sent.

- Save to: To set the position for saving newly created messages, received messages, and sent messages.

- Signature: To set whether your signature will be sent along with the message. You can edit the signature while creating a new message.

- Status report: You can set it to On or Off. If you set it to On, the network will send you the information on whether the message has reached the recipient.

- Concatenated SMS: You can set it to On or Off. If you set it to Off, you cannot edit and send messages longer than the limits of a single SMS.

Multimedia Messages

You can send messages attached with images, text and music under this mode.

Creating a Multimedia Message

1 Select **Messaging** > **Write MMS** from the main menu.

2 Select **To**, **Cc** and **Bcc**.

- Select an entry from the recipients list, and then press ▢ or select **Options** > **Edit** to enter a phone number.

- Select a position from the recipients list, select **Options** > **Contact** or **Group**, and then select phone numbers.

3 Select **Back** to return to the **Edit MMS** screen, select **Subject** to enter text as subject, and then press ▢.

4 Select **Content** to edit the pages.

(1) Select 📝 to access the text entry field, and then edit text.

■ Multimedia Messages

(2) Select 🖼 to enter the image-editing field and then you can select images or video files in **My Files**.

(3) Select ▶ to enter the music-editing field and then you can select audio files in **My Files**.

(4) Access the field indicated by 📷 and press the left/right scroll key to select one from different pages if there are more pages.

(5) Access the field indicated by 🚫 and press the left/right scroll key to adjust the playing time of the current page.

5 Return to the **Edit MMS** screen, and select **Options** > **send** to send the multimedia message.

| Note | If the video file is chosen in the image-editing field, you cannot edit the music-editing field any more. |

MMS Mailboxes

Your mobile phone provides four mailboxes for MMS, namely, Inbox 📬 , Drafts 📝 , Sent 📤 and Templates 📋 .

◆ Inbox
Inbox is used to save the multimedia messages you have received.

Icons in Inbox

Icon	Description
📩	a read message
📨	an unread message
📩	a read notice or delivery report for MMS
📨	an unread notice or delivery report for MMS

Viewing Messages in Inbox

1 Select a multimedia message to view its contents.

2 During the playing, you can select **Stop** to stop playing.

3 Select **Options** for the following operations.

- Reply SMS: to reply a SMS to the SMS sender.

- Reply MMS: to reply a MMS to the MMS sender.

- Forward: to forward the MMS.

- Edit before call: to edit the number before making a call.

- Next page: to play the next page.

- Previous page: to play the previous page.

- Rewind: to return to the first page.

- Object list: After entering the content list of this message, you may select an item and select **Save** to save the message to a corresponding directory of the folder.

- Save number: To save the numbers retrieved from MMS to phone or SIM memory or an existing entry in the contacts.

- Extract URL: To extract URL address from MMS for browsing web pages or stream media.

- Save Email address: To retrieve email address from MMS and save.

◆ **Drafts**

Drafts is used to save the multimedia messages you created and saved and those which failed to be sent.

Icons in Drafts

📧 : A multimedia message saved after you created it or a multimedia message failed to be sent.

Viewing and Editing Messages in Drafts

1 Access **Drafts** and select a multimedia message.

2 Press 🔲 to access the editing screen.

■ Multimedia Messages

3 You can edit the message. The operations are the same as those for creating a multimedia message.

◆ Sent

The **Sent** is used to save the multimedia messages that have been sent successfully.

Icons in Sent

📧 : A multimedia message has been sent.

Viewing Messages in Sent

1 Select a multimedia message to view its contents.

2 During playing an MMS, you can select **Stop** to stop playing.

3 During playing, you may select **Options** to do the same operations as those of MMS Inbox. Refer to "Messaging/MMS/MMS Mailboxes" on page 26.

◆ Templates

To send messages quickly, you can save commonly used multimedia messages as templates.

◆ Folders

You can categorize your multimedia messages into different folders.

You can access **Folders** from the four tabs of **Inbox**, **Drafts**, **Sent** or **Templates**.

Let us take the example of entering the **Inbox** screen.

Select **MMS** > **Inbox**. Then select **Options** > **Folders**. You can perform the following operations.

• **Rename**: to rename a folder.

• **Select**: to access a folder.

MMS Settings

Select **Messaging** > **Settings** > **MMS**, and then you can set parameters related to multimedia messages. It contains the following submenus.

◆ Sending

This option is used to set parameters related to sending multimedia messages.

- **Valid period**: The time for a multimedia message stored in the message center after it is sent.

- **Delivery report**: You have two alternatives, **On** and **Off**. With this mode enabled (**On**), the network will report on successfully sending a multimedia message.

- **Reading report**: To set whether to accept a read report.

- **Send limit**: To set the size limit of a multimedia message to be sent.

- **Save on send**: To set whether a multimedia message to the sent folder after it has been sent.

- **Sender visibility**: To set whether the sender information will be displayed when a multimedia message is sent.

◆ Receiving

This option is used to set parameters related to retrieval of multimedia messages.

- **Send delivery report**: You have two alternatives, On and Off. When this mode is enabled (On), the network sends a report to the sender indicating that you have received the message.

- **Send read report**: To set whether to send a read report.

- **Receiving limit**: To set the size limit of a multimedia message that you can receive.

- **Auto receive**: To set whether the phone automatically receives multimedia messages or not.

Settings such as "Network Access Point" and "WAP gateway" are all preset for your convenience.

7
Messaging

Email

Your mobile phone provides four mailboxes for email, namely, Inbox 📧, Drafts 📝, Outbox 📧 and Sent 📧.

Creating an Email

1 Select **Messaging** > **New Email** from the main menu.

2 Select Recipients 📧 and press 🔲.

- Select one record in the recipients list and then press 🔲 to enter an email address.
- Select **Options** > **Contact**/**Group**/**History** to select an email address.

3 In the email editing screen, select **subject** 📝 and press 🔲 to edit the contents.

4 In the email editing screen, select the **Content** text box and press 🔲 to edit the content.

5 In the email editing screen, select **Attachment** to attach picture, music, video, or eBook.

6 In the email editing screen, select **Options** to save or send the email. The saved emails are in the Messaging/Email/Drafts.

Mailboxes

Your mobile phone provides four mailboxes for Emails, namely, Inbox 📧, Drafts 📝, Sent 📧 and Outbox 📧.

◆ Inbox

All Emails received are saved in the inbox.

Icons in Inbox

📧: A read email.

📧 : An unread email.

Viewing and Editing Emails in Inbox

1 Select an email and press 🔲 to view the content. If only the title of this email is received, the

30

phone prompts whether to download other information of the email.

2 In the details screen, select **Options** > **Reply** to reply the sender.

Other Options for Inbox

1 Access **Inbox** of email.

2 Select **Options** for the following operations.

- View: to view the selected email.
- Select: to mark the selected emails in the inbox.
- Reply: to reply to the selected email.
- Forward: to forward the selected email.
- Move to folder: to move the selected email to a specified folder.
- My folders: to categorize your emails in different folders.
- Sync inbox: to synchronise emails from server.
- Sort: to sort your emails according to date, sender or topic.

- Delete: to delete the selected email.
- Unmark all: to unmark all emails in the inbox.
- Mark all: to mark all emails in the inbox.

◆ **Drafts**

The saved new emails are saved in the drafts.

Icons in Drafts

: Emails to be sent.

Viewing and Editing Emails in Drafts

1 Select the desired email in the drafts and press to enter the editing screen.

2 Edit the related information. For details, perform the same operations as those in creating an email.

Other operations in Drafts

1 Enter **Drafts** of email.

2 Select **Options** for the following operations.

- Edit: to edit the selected emails in the drafts.

■ **Email**

- Select: to mark the selected emails in the drafts.
- Write Email: to create a new email.
- Move to folder: to move the selected email to a specified folder.
- My folders: to categorize your emails in different folders.
- Sort: to sort your emails according to date, sender or topic.
- Delete: to delete the selected email.
- Unmark all: to unmark all selected emails in the drafts.
- Mark all: to mark all emails in the drafts.

◆ **Sent**

The emails sent to server are saved in the sent box.

Icon for Sent

 : A sent email.

Viewing and Editing Emails in Sent

1 Select an email and press to enter the editing screen.

2 Edit the related information. For details, perform the same operations as in creating an email.

Other Options in Sent

1 Enter **Sent** of email.

2 Select **Options** for the following operations.

- View: to view the selected email.
- Select: to mark the selected emails in the sent.
- Forward: to forward the selected email.
- Delete: to delete the selected email.
- Move to: to move the selected email to a specified folder.
- My folders: to categorize your emails in different folders.
- Sort: to sort your emails according to date, sender or topic.

- Unmark all: to unmark all selected emails in the sent.
- Mark all: to mark all emails in the sent.

◆ Outbox

Those emails which failed to send are retained in the outbox.

Icon for Outbox

: Emails failed to send.

Viewing and Editing Emails in Outbox

1 Select an email and press to enter the editing screen.

2 Edit the related information. For details, perform the same operations as in creating an email.

Other Operations in Outbox

1 Enter **Outbox** of email.

2 Select **Options** for the following operations:

- Edit: to edit the selected email.

- Select: to mark the selected emails in the outbox.
- Send: to send the selected email.
- Move to folder: to move the selected email to a specified folder.
- My folders: to categorize your emails in different folders.
- Sort: to sort your Emails according to date, sender or topic.
- Delete: to delete the selected email.
- Unmark all: to unmark all selected emails in the outbox.
- Mark all: to mark all emails in the outbox.

◆ My Folders

You can categorize your emails in different folders.

You can enter **My Folders** from the inbox, drafts, outbox and the sent box.

Here's an example, using the folder of the inbox:

Select **Email** > **Inbox**. Then select **Options** > **My Folder**s for the following operations.

■ **Email**

- Rename: to rename the folder.
- Select: to enter one folder.

Email Settings

Select **Messaging** > **Settings** > **Email** to set the following items.

◆ **Accounts**

1 Select **Options** > **Add account** and enter the account name. Press ⬜ to access the **General settings** screen.

2 The related account information contains: Account name, From name, From address, Protocol, Incoming server, User name, Password, and Outgoing mail server.

3 Select **Options** > **Advanced settings** to enter the **Advanced Settings** screen.

4 Return to the **Account** screen. Select **Options** > **Activate** to activate this account.

5 To delete an account, select an account and then select **Options** > **Delete account**.

Note For the account settings, contact your service provider.

◆ **Common Options**

- Reply with history: to reply with history.
- Save sent Email: to save sent emails to the sent box.
- Sending limit: to set the size of email.
- Receiving limit: to set the limit of the received email. If the size of the email exceeds the limit, only the title of the email will be received. If **Only header** is selected, only the title of the email will be received.
- Network Access Point: This option is used to select information about the profile to be adopted when you send emails. For more information, consult your service provider.

After finishing all settings, press **Back**.

◆ **Memory Status**

The memory in use of **Inbox**, **Drafts**, **Outbox**, **Sent**, **My folders** and **Total** are displayed.

Push Inbox

The Push Inbox is used to save the Push messages you have received.

You can enable or disable Wap Push via the Internet Settings. For more information, please refer to "Internet Settings" on page 48.

Viewing Push Messages

In the **Push Inbox**, select a Push message, and then press ⬛ to view the details of the Push message.

◆ **Icon for Push Inbox**

• ✉️ : A read Push message.

• ✉️ : An unread Push message.

◆ **Other Operations for the Push Inbox**

• Load: To start the WAP browser and connect a URL specified by the Push message.

• Delete: To delete the selected messages.

• Unmark all: To unmark all Push messages.

• Mark all: To mark all the Push messages.

Push Inbox Settings

Select **Messaging** > **Settings** > **Push messages** to set the Push inbox.

◆ **Push Message Setting**

You can set the acceptable push messages.

◆ **Enable Push SL**

You can enable or disable the push SL function by selecting **On** or **Off**.

Broadcast Inbox

The broadcast messages are saved in the broadcast inbox. You can set the broadcast message.

7

Messaging

35

■ **Voice Mail Number**

Select **Messaging** > **Setting** > **Broadcast** to set the following items.

- Service: to enable or disable this service.

- Subscription: to subscribe to broadcast channels or cancel the subscription.

- Language: to select the language of the broadcast.

- Silent alert: to specify whether a silent alert occurs when there is a new broadcast message.

- Auto delete: to set whether to auto delete earlier messages when the broadcast inbox memory is full.

Voice Mail Number

To use the voice mail services, you need to apply to your network operator. After setting the correct number provided by your network operator, if you press and hold ⌨ in standby mode, the phone will dial out the voice mail number automatically.

Common Phrases

Your mobile phone has been preset with some commonly used phrases, sending messages while answering a call and auto replying. You can select **Messaging** > **Settings** > **Common phrases** to edit them if you want.

8 Music

Music enables you to manage your music files easily and conveniently.

My Music

You can play various music files, including those supplied with the phone, recorded by using the phone, downloaded from the Internet, and attached to email. You can also enjoy the online audio files.

Function Options During Playing

During playing the music file, select **Options** for the following operations.

- Nowplaying: To access the current playlist.
