6 Connect a device to your HG532f

You can connect a device to your gateway using either the Ethernet cable or Wi-Fi.
Ethernet cable:
• Connect one end of the yellow Ethernet cable to the Ethernet LAN port on your computer.
• Connect the other end of the yellow Ethernet cable to one of the yellow Ethernet LAN ports on the back of your HG532f.
Wi-Fi:
• Ensure that the WLAN LED light on your HG532f is green. If it does not appear green, press the WLAN on/off button on the side of the device for one second or more.
• Use the SSID and password to connect your Wi-Fi-enabled device to the HG532f. The default SSID and password are displayed on the belly label of your HG532f.
Laptop

HG532f

PC

7 Configure your HG532f

Launch an Internet browser (Google Chrome, Firefox, Internet Explorer, Safari, and etc.) on your connected device.
In the URL web address field of the browser, enter 10.0.0.2 and press enter or click Go.
Huawei login screen will display. Enter admin for the user name and admin as the password.
Please follow the instructions of the configuration wizard that starts automatically.
