Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Introduction

Bluetooth headset is a lightweight wireless device utilizing Bluetooth® wireless technology. The headset contains a microphone and a receiver. It provides hands-free communication using mobile phones, and the power is provided by a Lithium Ion rechargeable battery.

Any device that you want to use with this Bluetooth® headset must be compatible with Bluetooth® technology version 1.1 or above. The device must also support the same profiles as the headset.

Package Contents

- 1. One Bluetooth headset.
- 2. One adaptor 4. One neck strap
- 3. One user guide
- 5. One ear hook

Wearing preference

Left Side

- 1. The headset can be worn on both sides. Just plug the ear hook from the preferred side on the headset, and put the receiver in the ear.
- The ear hook is slightly flexible so that you can adjust it to fit the contour of your ear. The angle and depth are also adjustable for wearing comfort.

Bluetooth® Headset Features

- Charging port
- Talk/Volume Down button
- Talk/Volume Up button
- 4. LED indication
- 5. Microphone
- 6. Ear hook
- 7. Ear hook socket (Back of the headset)
- Speaker (Back of the headset)

Preparing to use your *Bluetooth* headset

Charging and battery time

It is our recommendation to charge the headset for 8 hours before first use.

- Connect the adaptor to an electrical outlet.
- Open the charging port cover and then plug the adaptor's connector into the charging
- While charging, the blue LED light will stay solid on; after charging is completed, the LED will flash once every 5 seconds. Then unplug the adaptor's connector from the headset and disconnect the adaptor from the electrical outlet. Close the charging port cover.
- D. Charging time is about 2.5-4 hours.

Pairing procedure

Before using your headset for the first time, you must pair it with a Bluetooth mobile phone or audio gateway.

- With your headset turned off, press and hold the Talk/Volume Up button for 7 seconds until the blue LED flashes rapidly, indicating that the headset is in pairing mode
- Use your phone's menu to search for Bluetooth® audio devices. The phone should indicate it has found the "HH221" headset. Select this.

- When asked for a passkey, enter: "1234". Your phone will confirm that pairing has been successful
- If pairing does not occur as expected, turn off both the phone and the headset and wait 10 seconds before repeating steps A - C

Turning your headset ON and OFF

- To switch your headset ON, press the Talk/Volume Up button for about 5 seconds until the blue LED turns solid on. Press briefly once more to link your headset to vour mobile phone.
- To switch your headset OFF, press the Talk/Volume Up button for 3 seconds until the LED flashes, and then the headset will turn off.

Answering a call

If there is an incoming call, a ring tone will sound in your headset; you can press either the Talk/Volume Up or Talk/ Volume Down button on headset to answer the call.

If your cell phone supports auto-answering, the headset will take the incoming call automatically and you don't need to press any button.

Making a call with the headset by voice dialing

If your Bluetooth phone supports voice dial, you can use this feature with the headset. Please refer to your phone's user guide for more information on voice dial.

- Voice dial function on your phone must be turned on and voice tags must be stored.
- 2. On the headset, press either the Talk/Volume Up or Talk/Volume Down button once.
- A short tone will prompt you and you can speak the "voice tag" that was stored in the phone's voice dial phone book.
- The phone automatically dials the contact you've selected, and you can see the details of the call on the phone display.
- 5. When connected, you can communicate normally using the headset.

Making a call from the mobile phone keypad

- Dial the phone number using the keypad on the mobile phone.
- 2. To send the call, press the phone's SEND/CALL key.
- 3. The call will then be transferred automatically to the headset when connection is made.

Ending a call from the headset

To end a call, press and hold the Talk/Volume Up button for 5 seconds. Or you can end the call from the keypad on the phone. When the other party hangs up the phone, the call ends automatically.

Rejecting an incoming call

To reject an incoming call, press and hold the Talk/Volume Up button for 5 seconds on the headset.

Note: This function only works on Bluetooth® phones that support Hands-free profile.

Call transfer

When in conversation, you may transfer voice from headset to phone. Press the Talk/Volume Down button for 5 seconds to make the transfer. For some mobile phones, you can short press the Talk/Volume Down button the transfer back to the headset.

Note: This function only works on Bluetooth® phones that support Hands-free profile

Last number redial

When the headset is in standby condition (not in conversation), click the Talk/Volume Up button twice within 1 second, and your phone will redial the last number that you called.

Note: This function only works on Bluetooth® phones that support Hands-free profile

Receiver volume control

The headset has 7 pre-set volume levels. To increase the volume, press the Talk/Volume Up button; to decrease the volume, press the Talk/Volume Down button.

You may also use phone's volume up/down buttons to adjust the headset volume.

Battery status and Low battery alert

Battery status:

Each time you turn on the headset, the LED will show the battery status. If the battery is in normal condition, blue LED will be solid on for 5 seconds; if the battery is low, it will flash for 5 seconds.

Low battery warning:

The headset battery needs recharging when you hear a warning tone from the headset every 20 seconds. Once the low battery warning starts, there will be a 5-minute talk time left.

Storage of headset

- 1. Always store the headset safely.
- Avoid storage at high temperatures (above 60°C/134°F) such as in a hot vehicle or in direct sunlight. (Storage at high temperature can degrade performance and reduce battery life.)
- 3. Do not expose the headset or any of its supplied parts to rain or other liquids.

Bluetooth® headset specification

Bluetooth® Ver.1.2 compliant

Distance 30 Feet (10 meters)
Weight 13.15 grams
Typical standby time up to 110 hours
Typical talk time up to 4 hours

Typical re-charge time 2½ - 4 hrs (8 hrs before

first use)

Battery type Li-ion rechargeable

battery

NOTE: Talk time and standby time are varied according to different mobile phones.

Federal Communications Commission (FCC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device. pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception. which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Notice: Any changes or modification not expressly approved by the party responsible could void the user's authority to operate the device.
