Adjustment Method

Factory Adjustable

Additional Parts/Procedures

Not Adjustable

See all adjustment types for customer's vehicle and if additional kit is required.

Tools and Kits

View all tools and aftermarket kits needed for customer's vehicle.

...mers...

Electronic Steering Reset

Know immediately if electronic steering reset is required and how to do it.
Alignment Type

Identify if a vehicle requires a 4-wheel or thrust-angle alignment.

TPMSpecs®

Review vehicle-specific TPMS procedures and follow easy-to-understand instructions

Point & Click Inspection

Use detailed images and diagrams to explain needed repairs to worn or damaged suspension components.

Adjustment Videos

Explain service procedures with videos, animations and images that illustrate specific adjustments.
⊕HunterNet™ *for Your Customers*

Use HunterNet™ to communicate inspection results and maintain customer data.

✔ Email notifications of needed service or completed work

✔ Forward results to other businesses to validate warranties or insurance claims

✔ Allow customers to view alignment or inspection results online

✔ Links to videos that help explain needed service

✔ Save pre- and post-alignment records

✔ Save Quick Check® results

✔ Recall historical results

Send before and after results to the customer.

Customers can review clear, easy-to-read inspection results on their phones or tablets.

⊕HunterNet™ *for Managers*

Using HunterNet™ work management tools, shop managers can track alignment and Quick Check® statistics and generate reports.
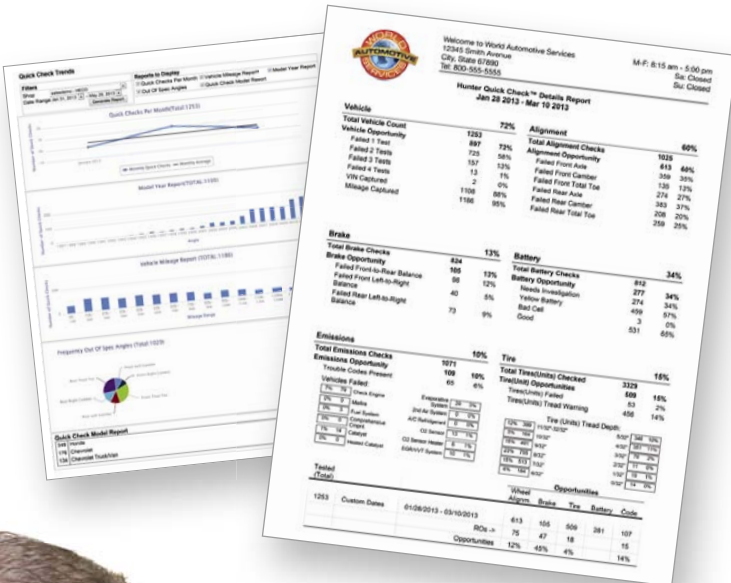

✔ Breakdown "repair opportunities found" vs. "repair orders generated" by the week, month, year or lifetime

✔ Analyze Quick Check results and failure rates for specific test types

✔ Analyze alignment activity

✔ Store alignment records to create customer history

Access data from anywhere with an internet connection — easy-to-read on smartphones or tablets.

✔ View results for the day, week or month

✔ View total vehicle count quickly

✔ Display failure rate for specific test types
