4. Attentions

4.1, Please full charge your watch for no less than 2 hours. Magnetic charger is used, please make sure the connecting is good.

4.2, Please use the original charger cable ;

4.3, It will be alerting if you leave your watch or your phone alone over a distance when the Bluetooth is being connected.

4.4, Bluetooth connecting may break by accident, normally it can automatically connect again, if not (after several minutes), please connect the Bluetooth manually.

5. Upload the data of pedometer/sleeping/heart rate to Fundo Wear

5.1 Download and install Fundo Wear App (see 3.1)

(Scan the QR code with the QR code scanner of your phone)

5.2 Save and share the data of pedometer/sleeping/heart rate

5.2.1, Register an account of Fundo Wear and log in. (You can also use your Facebook/Twitter account to log in) Then define your weight, height, age etc. in Fundo Wear, to calculate the correct motion data and offer you the suitable instructions.

5.2.2, Make sure your watch and your phone have been fully connected via Bluetooth.

5.2.3, You can sync the data of pedometer/sleeping/heart rate through Fundo Wear.

5.2.4, You can share the data to Facebook or Twitter.

5.2.5, You can visit the website of Fundo Wear for more details and any updated.

5.2.6, Fundo Wear website : www.fundo.cc

Notes :

Solve the problem that the data of pedometer/sleeping/heart rate cannot be uploaded to Fundo Wear :

1. Only one related "Fundo Wear" App can be installed in your phone.
2. You must log in your Fundo Wear first.
3. Make sure your watch and your phone have been fully connected already.
4. Sleep monitor and Pedometer cannot be working at the same time.
5. Steps for uploading the data manually : Start pedometer-Stop pedometer- Fundo Wear- sync data
6. If the data still cannot be uploaded to Fundo Wear, please restart your watch and your phone, and try the steps above again.

6. Common trouble shooting ways

In case there's a problem during the using of your watch, please solve it accordingly by the following ways. If the problem still exists, please contact your seller or designated maintenance personnel.

6.1、 Cannot turn on

It is possible the battery is used up. Please recharge and start again.

6.2、 Turn itself off

It is possible the battery is used up. Please recharge and start again.

6.3、 Short battery life

1. Not full charging battery, please make sure the enough time for charging your battery. (No less than 2 hours).
2. SIM card was used under the poor connection.

6.4、 Cannot be charged

1. Check whether the battery can be used. The performance of battery will be reduced after several years using.
2. Check whether the charger is workable, change another one.
3. Check whether all the connecting is good.

6.5 Not showing caller's name

1. If there is no contacts synchronization of your phone when you connected your phone and your watch via Bluetooth, please admit the contacts synchronization while you are connecting your phone and your watch again.

6.6 Bad sound quality of calling

FCC RF EXPOSURE INFORMATION:

WARNING!! Read this information before using your phone

In August 1986 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards. Use only the supplied or an approved antenna. Unauthorized antennas modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

The design of your phone complies with the FCC guidelines (and those standards).

Use only the supplied or an approved replacement antenna.

RF Exposure Information:

This device was tested for face up operations with the device kept 0.1cm from the body. This product is compliance to FCC RF Exposure requirements and refers to FCC website <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm> search for FCC ID: RQQHLT-D15KWM to gain further information include SAR Values.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user' s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Do not use the device with the environment which below minimum -10°C or over maximum 50°C , the device may not work.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.
