Bluetooth link button

Note 1 : Please change batteries immediately when the cordless keyboard battery low indicator light up.

Note 2 : Please remove batteries from your cordless keyboard when not using for a long period of time.

Hardware Installation

1. Request Bluetooth function in your computer.

1.1 Built-in Bluetooth or Bluetooth adapter

Before linking, please ensure your computer or device equipped with built-in Bluetooth function, please make sure Bluetooth driver and application program are installed and work.

1.2 Run Bluetooth application program in your computer.

Setting the application program in linking status or search status.
(Please refer to your Bluetooth adapter instruction manual, it is different in Playstation 3 / iPad / iPhone / Mac, etc.)

2. Set up the Keyboard batteries

Put provided batteries (2 x AA alkaline batteries) into keyboard's batteries store in the back. (Follow the polarity signs in the battery compartment.)

3. IRK01BN Bluetooth keyboard pairing

- 3-1. Switch the keyboard "On", by On/Off button in the back of keyboard
- 3-2. Press the connect button to link, the connector LED light will be twinkling.
- 3-3. Now the keyboard is in pairing mode and waiting for connecting with your device.
- 3-4. Bluetooth keyboard has maximum 10 minutes to run the pairing. If time exceeded, you will have to restart the pairing steps.

4. Your computer will start to contact with the Keyboard.

Once linked, a sign will be appeared in your Bluetooth application program. (Some of Bluetooth adapter will ask pairing code while linking, please follow its instructions)

5. Ready to use

Troubleshooting

What do I do if the Bluetooth keyboard does not work?

- Make sure the batteries are correctly installed into your keyboard. (The positive (+) and negative (-) ends of each battery must match the polarity signs in the battery housing)
- Make sure the batteries power qualities are good for use.
- Please change batteries immediately when the battery low indicator light up.
- Make sure the ID Setting process is well completed and restart pairing steps.
- Make sure the Bluetooth keyboard is in pairing mode while pairing with your device.
- Bluetooth adapter and keyboard both have different time-limited to run the pairing.

If time exceeded, you will have to refresh the linking steps.

- a. For IRK01B Bluetooth keyboard time limit is 10 minutes
- b. For Bluetooth adapter time limit, please refer to its manual.

Warning :

- Please remove batteries from your cordless keyboard when not using for a long period of time.
- Please avoid metal object close to or in between the device.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
