K977 User's manual

Precautions

This manual includes important information on safety precautions and corrects usage of this product. To prevent any accident, please make sure that you have read this manual carefully before you use this product.

● Do not keep this product in a place with a high temperature, humidity or too much dust. Especially that does not place this product in a car with all windows closed in summer, and keep out of direct sunlight.

● Avoid dropping or shocking this product heavily and avoid shaking the display violently, otherwise, the display may be damaged or cannot play correctly.

● Please choose a suitable volume. Avoid excessively high volume when using a headset. If you feel any ear noise, please decrease the volume or stop using.

● Do not break the connection suddenly when this player is conducting formatting, uploading or downloading operations, otherwise there may be program errors.

● This company will not undertake any responsibility for any memory loss due to product damage, repairing or other reasons.

● Do not disassemble this product by yourself and do not clean the surface of this product with alcohol, thinner or benzene.

● Do not use this product in a place where the using of electronic device is prohibited, such as on a plane.

● Do not use this product while driving a car or walking on a street, otherwise traffic accident may occur.

※ This company reserves the right to make any improvement on this product. No further notice will be provided on any variation on the specification and design of this product!

★ (This product has no water-proof function)

HOW TO USE

Turn on/off

To turn on/off the machine, press the POWER button for 3 seconds. To turn off ,select "Power off" and confirm it.

Enable/disable screen

Once the machine is turned on, short press POWER button to turn off the screen, and you will save energy. To turn on the screen, press POWER again

Note: The screen is locked when the screen is off, to unlock the screen, pull the lock icon from left to right.

Operation of the touch screen

There are three ways to operate the screen of your tablet:

1. Touch & hold: Touch & hold an item on the screen by touching it and not lifting your finger until an action occurs

2. Drag: Touch& hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reach the target position. For example, you can drag to reposition shortcuts on the Home screen.

3. Swipe or slide: Quickly move your finger across the surface of the screen, without pausing when you first touch (so don't drag something instead). For example, you can slide a Home screen left or right to view the other Home screens.

4. Pinch: In some apps(such as Maps, Brower, and Gallery),you can zoom in and out by placing two fingers on the screen at once and pinching them together(to zoom out) or spreading them apart(to zoom in)

Note: To avoid scratching or crushing, do not place objects on the touch screen surface.

STORAGE&MICROSD

The device comes with 8GB of internal storage. You can expand this storage space by using a MicroSD Memory card up to maximum size of 32GB,it's also a great way to transfer files to and from your device.

To add a Micro SD card carefully insert it into the MicroSD cards slot with the label facing the same way as the screen. You'll feel a light "click" which means the card is locked in place.

To remove it simply push the card inwards slightly until you feel a light "click". Then release the card, allowing it to " pop out" and you can gently remove it.

Note: MicroSD card not included.

TRANSFERING FILES

Once the machine is turned on, the following screen will be displayed on your tablet

(1) Connecting the device to a computer with the supplied USB cable

(2) Once the connection is down, a mobile phone icon will appear on your computer. Now you can copy files from the PC to the internal memory or the memory card.

HOME SCREEN

Desk top-Overview

Google search   Applications

Return Home Recent   Application run   Time Wifi

(1) Return: opens the previous screen you were working in, even if it was in a different app. Once you back up to the Home screen, you can't go back any further in your history.

(2) Home: opens Home. If you're viewing a left or right Home screen, opens the central Home screen.

(3) Recent apps: opens a list of thumbnail images of apps you've worked with recently. To open an app, touch it. To remove a thumbnail from the list, wipe it to the right.

The extend home screen

The home screen consists five separate screens for positioning the shortcuts, widgets, etc. Slight your finger from left or right to go to the extended screen.

Customizing Home Screen Items

(1) To add a Home screen item (shortcut, widgets, etc.) You can tap the application icon to display all the applications or widgets, then hold your tap on the item to place it on the home page. (Note: If current Home screen has no enough room for a shortcut or widgets, you will be prompted that is no more room)

(2) To move a Home screen item, hold your finger onto it to highlight it, then drag it to the desired location and release it.

(3) To remove a Home screen item, hold your finger onto it to highlight it, then drag it to the recycle

bin and then release your finger.

Changing the Wallpaper

Tap the setting icon on the Home screen to open the setting menu and set your desired

wallpaper in the display submenu.

Display all the applications and widgets

The device has many useful pre-installed application / widgets, You can tap the Application Tab

to display them.

ACCESSING INTERNET

Make Wi-Fi connection

The device connects to the internet using a wireless broadband connections. You can connect using a home network, or when you're out and about using the many free hotspots that you can find in coffee shops, libraries etc.

To connect to Wi-Fi please follow these simple instructions:

(1) Tap the **Setting** icon

(2) Slide the Wi-Fi button to the right so it's in the "ON" position

(3) The device will scan the area and display a list of all available Wi-Fi hotspots. Choose a network from the list, then tap "connect" to connect. If the hotspot is "password protected" you need to get the password from your Internet Service Provider, or from your network administrator

Note:

1. The available network list is constantly refreshed automatically

2. When the Wi-Fi is enabled, the device will connect automatically to your configured networks when they are in range.

3. If the unit reports " no connection" or " connection failed"…the most common cause of this is that the Password was typed incorrectly. To try again, select your WIFI name, press **Forget**；turn the

WIFI off and on, to start the procedure again.
4. Once you have connection the first time, you not need to go through this procedure again as all settings and connections are now written to the unit's software.

Using 3G dongle

Besides Wi-Fi connection, you can access internet by 3G dongle. Before using 3G dongle, you need to disconnect Wi-Fi network and make sure the setting " Mobile data" is checked.Connect a 3G dongle (not provided with the product) to the device through the USB host cable(not provided), and then the 3G network is enabled with 3G network icon appearing at the bottom right of the screen. You can surf on the Internet freely now

Note:
1. The 3G Dongle and the USB Host cable are not included in the accessories of the product, thus user have to purchase them from the market.
2. When using 3G Dongle, you need to disconnect WiFi network.
3. This product supports a 3G Dongle of most brands or types on the market, but considering the compatibility of different types, you are still suggested to buy one only when you have tested it OK

BLUETOOTH SETTING

- Bluetooth on/off: Slide the Bluetooth button to the left or right.
- Rename the Bluetooth: Touch the icon to rename it.
- Detectability: Bluetooth device nearby can detect the Tabet,you can tap the name to disconnect the detectability.
- Search bluetooth device: Click " **SEARCH DEVICES**" to search bluetooth device within 10m.
- Pair and connection: After detecting the bluetooth service, input the PIN code to pair and connect.

(1) In the mailbox, you can slide your finger up and down to scroll through the email list.

(2) Tap on an email to open it.

(3) Holding your tap on the email, then click it, you can reply, forward or delete the email

OTHER APPLICATIONS

Some useful small apps have been preinstalled in this device, such as Calculator, Calendar, Sound

Recorder, Playstore etc.. They are easy to use, thus no detailed instructions are necessary for these

apps. Please always follow the actual operation of your device.

MANAGING APPS

You can manage your applications of the device easily.
There are number of useful apps pre-installed in the device as it is produced at the factory, and you can copy some from other resources, download or purchase them over the internet.

Download or purchase applications

With your device, you can visit an apps store or E-market website that provides you plenty of free apps to download. For those apps that are not free, you will have to pay for them if you want to have them.

Install applications

You can install applications following these steps:

(1) Open the Explorer application, then find the app you want to install.

(2) Tap the app you want to install to start installation. However, for the sake of security, the device

may prompt you that there is possibility of attack risk if you install and run some apps whose sources are not guaranteed. In this case, you shall turn to the Settings menu and select Security to check the "Unknown sources" before you go on with the installation.

(3)   Once the installation is completed, you can find the icon of the app in the apps screen. It is ready for running.

Uninstall applications

(1)   Tap the Settings shortcut in the Home Screen to display setting menus.

(2)   Select "Apps".

(3)   Tab on the application that you want to uninstall.

(4)   Tab on "Uninstall" to uninstall the application.

(5)   You can simply tap and hold on an app icon to jump to the Home Screen, then drag it to the dustbin icon to uninstall it.

Note:

(1) You cannot uninstall the pre-installed applications, but you can deactivate or stop them

(2) Make sure all apps you have copied or downloaded to your device are in the .apk format.

(3) Some applications developed for Android mobile might not run properly in the device. Please consult the respective software developer for further information.

MANAGING TASKS

The device can handle multiple tasks at the same time. For example, you can view photos while listening to music. Multitasking is helpful but inefficient if too many tasks are running. In order to save system memory and enhance system performance, you can end some tasks that you don't use at the moment.

(1) Tap the to show applications that you used recently.

(2) Hold your tap on the application that you want to stop, and then select "Remove from list".

(3) Besides, you can open the Setting menu and select Apps to manage the tasks

TROUBLE SHOOTING

Reset the device

(1) In the event that the device freezes, you can force the device to shut down by pressing and holding the Power button for a few seconds.

(2) If the Power button does not reset your device, use the " pinhole reset" button, located in right side of the device

SPECIFICATIONS

FCC STATEMENT
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
