

FCC WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

INPHIC 2.4G WIRELESS MOUSE

High Precision / Light Art

P-M1

The package contains the following accessories:

- 1 x Rechargeable wireless mouse.
- 1 x USB receiver.
- 1 x Micro USB to USB charging cable.
- Product brochures and warranty cards.

<http://www.inphic.cn>

How to use your wireless mouse (2 steps):

First, insert the USB receiver into the computer USB port.

Second, turn on the power switch at the reverse side of the mouse. When the mouse pointer appears on the computer screen, move your wireless optical mouse to check it works.

Special Note: The mouse has noiseless clicks, and its infrared light is not visible. The typical red light can not be seen.

This product is environmentally friendly and energy-saving.

Wireless working distance: 10 meters (unless interference is around, which may lead to distance shortening.)

Precautions:

Please, stay away from strong interference sources, such as: microwaves and strong magnetic fields.

After relatively long use, clean or wipe with innocuous cleaning products that can't harm its surfaces. Do not pour any sort of liquid, nor put the mouse into any container holding liquid.

Features:

- Dazzling design, very appealing apple fashion streamlined style;
- Advanced 2.4G wireless transmission technology, stable and efficient; A new generation and design concept of low-power technology, get rid of recharging troublesome;
- With Mini Nano receiver, take it away any time you need to;
- Simple and practical, it meets your daily needs for your office and home;

Technical Details:

- Product Type: P-M1
- Resolution: 1000 /1200 / 1600DPI adjustable
- Voltage: 5V
- Current: ≤ 10mA
- Tracing System: Optical
- Max. acceleration: 14 inches / second
- Radio frequency (receiver-mouse): 2402-2480MHz
- USB interface: 1.1 / 2.0
- Operating system: Windows and MAC OS
