

EXHIBIT 8: USER MANUAL –AMENDMENT 1

High Performance UHF fixed reader

The following new paragraph will be added to the user's manual of the Model IP3271 at the next printing and will be applicable to:

- FCC ID Number VHY3271-1
- FCC ID Number VHY3271-2
- FCC ID Number VHY3271-3

Warning: Exposure To Radio Frequency (RF) Radiation

- The radiated output of this device is below the FCC radio frequency exposure limits. Nevertheless, the device should be used in such a manner that the potential for human contact during normal operation is minimized.
- The end user must avoid any extended human RF exposure directly in front of the UHF Reader, up to a distance of 30 cm, when unit is switched on.
- When servicing the equipment and selecting a location for the antennas, it is important to note that a minimum distance of 30 cm is required between personnel and the IPICO antennas to comply with the radio frequency exposure limit.
- The antenna used for this transmitter must be installed to provide a separation distance of at least 30 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
- The following safety precautions should be observed:
 - Do not touch or move the antenna while the unit is transmitting or receiving.
 - Do not hold any component containing the radio such that the antenna is very close or touching any exposed parts of the body, especially the face or eyes, while transmitting.
 - Do not operate the radio or attempt to transmit data unless the antenna is connected; this behaviour may cause damage to the radio.
