USB port on the player (USB2.0/Device)

Type "A"

Type "B"

2 **Turn on the player, open the protective cover of the USB port, and connect the USB cable. "CONNECTED" icon will appear on the LCD screen of the player.**

CONNECTED

3 **After installing iRiver Music Manager from the CD and connecting the player to your PC, "Found New Hardware" screen is displayed.**

4 **Select "Install the software automatically (Recommended)" and**

Operate the software

5 If a "Hardware Installation" warning message appears, click "Continue Anyway". (Windows XP)
The iRiver software driver will not cause any damage to your computer.

6 Windows XP and Windows 2000 will display a "Device Attached" icon.

Note Windows may ask to install a driver for the PMP. Please follow the provided driver installation guide on the following page.

7 Once installed, open Windows Explorer and an additional drive should be listed called "PMP-100".

Complete the driver installation after installing the PMP Manager software.

Operate the software

3 Installing the device driver manually (Windows98 SE only]

1 If the player is not recognized by the PC, an "Add new hardware wizard" window is opened. Click the "Next"

2 Click the "Search for the best device driver (recommended)" and click the "Next" button.

3 Click 'the specify a location' option and click the "Browse" button.

4 Select the installation folder that includes the iRiverH.inf file
(C:\Program Files\iRiver\PMP100\drivers) and click the "OK" button.

Operate the software

5 When the folder is located, click the "Next" button.

6 Click the "Next" button.

**7** Click the "Finish" button to finish the installation.

Operate the software
4 To copy/delete files/folders

1 The player will show up as a new drive in Windows Explorer.

2 To copy files/folders
Click and Drag files from the PC to the player.

3 To delete files/folders
To delete files or folders from the player, select the files (folders) to be deleted and press "Delete" on the keyboard. Click "Yes" when asked to confirm the delete.

Note • When the player is attached to a computer for an extended period of time, be sure to plug in the AC adapter.
⚠ Low batteries can prevent the proper functioning of the player.

Operate the software
⑤ Safely Removing the player from the PC

1 Click the "Safely removing device" icon in the PC tray.

2 Click "Stop iRiver PMP-100-Driver(X)" or "Safely Remove TOSHIBA MK1—3GAL USB Disk – Drive(X:)". (Where X is the drive letter assigned to the PMP)

3 Click the Confirm button in the hardware safe removal window

4 Disconnect the USB cable between the player and host PC.
The following message is displayed in the LCD screen.

DISCONNECTING

Note • The tray icon may be hidden in some Windows XP operating system settings. Click the "Display hidden icon" to view the hidden icon.

⚠ • Hardware safe removal may not be available while using some applications such as Windows Explorer or Windows Media Player. Please close all applications using the player before the hardware safe removal process.

• In some Windows XP operation system settings, hardware safe removal is temporarily unavailable due to some internal system communication. Please wait and try again.
Turning on/off the player

① Turning on the player

1 Connect the remote control or earphones.

2 Put the HOLD switch to "LCD"

TV—↑↑—LCD
HOLD

3 Press the POWER button to turn on the player.

Note • The following icons are displayed to indicate HOLD status.
M : The HOLD function is set in both the player and the remote controller.
R : The HOLD function is set in the player.
B : The HOLD function is set in the remote controller.

• When stopped or in recording standby mode, the player automatically turns off according to the setting of "STOP POWER OFF" on the Setup.
