Safety Precautions

On Battery

- Charge the battery only in temperature that ranges from 0 to 35 degree Celsius.
- Do not charge reader if the battery is found damaged or leaking.

On Operation

- Never subject reader to extremes of light, temperature, moisture or vibration.
- Do not use or store reader in a location subject:

A.Extreme high temperature, such as in a sun-heated car。

B. Direct sunlight.

C.High humidity or places with corrosive substances.

D.Sub-zero condition, especially during winter.

On Micro SD card

- After inserted a MicroSD card, if the reader

has no response, please take out and insert again.

- Do not remove Micro SD card or turn off reader during data writing or reading to prevent damage to data and to the reader.
- Make sure the Micro SD card is unlocked before writing or deleting data in the card.
- Backup your files and data before formatting the Micro SD card. Please format the Micro SD card in FAT.

CE The symbol means that the unit complies with European safety and electrical interference directives.

Importing DRM Contents

The Reader supports Adobe DRM contents. Adobe Digital Editions (ADE) is required.

On computer

Installing Adobe Digital Editions (ADE)

- The ADE installer is preloaded into the Reader.
- Connect the Reader to PC via the supplied USB cable and open the reader as removable disk. Go to [My Computer], double click on the reader's disk to open.
- Make sure your computer is connected to internet
- Double click on the [digitaleditions_172] file to open the installer.
- Alternatively, you can download the installer from

http://www.adobe.com/products/digitaleditions/#fp .

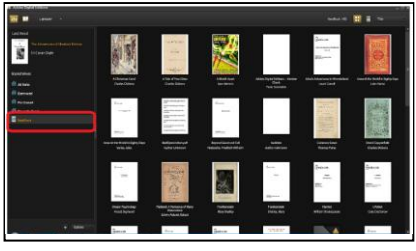
- For first time user, you will need to get a free adobe ID from adobe website. click on the [get an Adobe ID online] link as illustrated:

- Enter your email address and complete the online form as per instructed.

Authorizing PC and Reader

- Upon registration, return to the ADE window. Enter the username and password to activate your Adobe account.
- After activation, connect the Reader to PC. ADE will detect the Reader and you are prompted to authorize device.
- After authorization, you will be able to find the Reader recognized in ADE as below.

Contents inside the Reader will be displayed on the right hand windows.



- You can now start downloading or buying ebooks from online Ebook stores supporting Adobe DRM.
- Purchased or downloaded ebooks will be stored in [My Digital Editions] in [My Documents].

Transferring DRM ebooks to Reader

- From ADE menu, click on [All Items] on the left hand column
- Items in [My Digital Editions] will be listed down in right window.

- Select the desired item(s) to be transferred, <Shift> + <Left click> to select multiple files.
- Drag and drop the selected item(s) into the Reader's Drive located on the last

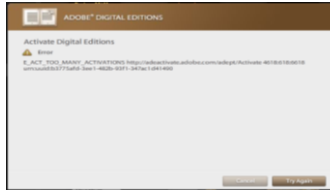
row of the left side column as illustrated below.

Notes For using ADE

Each ADE ID supports only 6 devices, this includes the master device (the reader) and the slave device (Micro SD card).

When the reader is restored to default settings, ALL DRM activation record and data (including DRM books purchased) will be erased from the reader. You are required to authorize the device with your ADE ID again.

When the number of authorized device has exceeded the allowable amount, you will come across the following error message:



To request for extension and reset of your ADE ID, go to http://www.adobe.com/support/digitaleditions/ → [Submit a web case]. You are required to key in your ADE ID info.

On the reader

- Upon registration, from the homescreen, tap **ADE** to enter online ebook store specified by the user.
- Start downloading or buying ebooks from online Ebook stores supporting Adobe DRM.
- Purchased or downloaded ebooks will be stored in the BK7005 ebook reader.

Note: If you use the reader for the first time, please enter the adobe ID and the password to enter the store.

Limitations with NTFS file system:

- Books in the card are not recognized by ADE when connected to PC.
- Direct copy of files from internal memory to card is not supported.

Managing third party applications

This unit support third party applications (such as MSN, etc.), you can install or uninstall applications for the system.

Download and install the application

1、Download the desired application .

2、Copy the downloaded application to the unit (note: The system only supports XXX.APK format).

3、Disconnect this unit from the computer.

4、On the homescreen or Main menu, tap **Settings→Application→unknown source**.

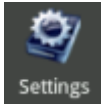
5. Find the directory where the application is installed to tap to start the installation.

6、After finishing the installation, you will see the Applications on the Main menu.

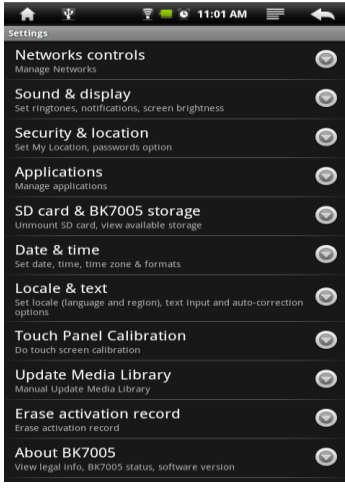
Uninstall application

1.Tap the Main menu, then tap **Settings→manage application**.

2. Select the application you desire to uninstall, then tap **Uninstall**.



From Home screen or Main menu, choose Setting, then tap the desired items to be configured to start the Setting.



Networks controls

The Wi-Fi settings allows you manage networks,such as turn Wi-Fi on and join Wi-Fi networks.

Turn on Wi-Fi: From Home screen or Main menu choose Wi-Fi.

Join a Wi-Fi network: From the detected network list, select a network,If necessary, enter a password and tap Connect button.

If more than one previously used network is in range,

BK7005 joins the one last used.When BK7005 is connected to a Wi-Fi network, the Wi-Fi icon at the top of the screen shows connection strength.

Sound and display

Customize the sound /display settings.

Sound settings: Silent mode, Notification volume, Media volume, Notification ringtone, Micro SD card notifications, motor switch.

Display settings: Orientation, Animation, Brightness, Screen timeout.

Security and location

Set your location sources and passwords option.

Applications

Manage the application installed on the unit, Including unkown source applications, installed applications, application development.

Micro SD card & BK7005 storage

View the momory status of Micro SD card and MID,format Micro SD card memory and restore the settings to factory value.

Date& Time

Set date,time, time zone and display format.
Note: Time zone setting is needed to calculate the expiry duration for book borrowing / returning.

Locale and text

Set region and language, text input and auto-correction options.

Touch Panel Calibration

Allow you to do touch screen calibration. Use your finger to carefully press and hold on the center of target briefly. Repeat as the target around the

screen to calibrate touch screen.

Update Media Library

Update media library manually.

Erase activation record

Erase all the activation records. you can use this function if you want to re-authorize the device.

About BK7005

Display the information about BK7005, such as legal info.,product status, software version and so on.

Chapter 4 Troubleshooting

If the reader does not function as it is expected, please try the following steps.

The Reader is not responding or can't be turned on.

- Reset the reader by pressing the reset button at the bottom. The reader will be forced shutdown if it is on and you are required to restart the reader again.
- Battery has been fully depleted. Please charge the reader via USB or USB AC Adapter.

Battery Life seems short

- The operating temperature is below 5°C. this is due to the characteristics of battery and not a malfunction
- The battery is not used for prolonged period. Please recharge the battery of the reader again
- The battery is not fully charged. Please charge the reader for 4 hours.
- The battery needs to be replaced. Please consult the authorized dealer for service.

The reader cannot be operated during USB connection

- The reader cannot be operated while it is connected to PC.
- Eject the reader from computer to resume operation.
- To use the reader while charging, click on the [Safely Remove Hardware] button located on the left lower corner to disconnect data connection with computer. After the reader is safely removed, computer will only charge the reader and you can now resume normal operation.

Touch screen problem

If the touchscreen does not respond, use the "calibrate the touch screen" function to calibrate the screen.

Maintenance

- If reader does get wet, turn off reader immediately. Wait for reader to dry completely before turning on again.
- Clean the screen with a soft cloth; be careful not to wipe it with anything abrasive. When carrying your reader in bag, keep reader in the protecting case supplied to avoid scratches
- If reader needs service, please consult the authorized dealer through the contact information provided in the warranty card. Faulty service may void the warranty.

Disposal and Recycling Information

Your Reader must be disposed of properly according to local laws and regulations.

Because this product contains a battery, the product must be disposed of separately from household waste. When your reader reaches its end of life, contact your local authorities to learn about recycling options.
Battery Replacement:
The rechargeable battery in it should be replaced only byan authorized service provider.

This symbol on the product or in the instruction means that your electrical or electric equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU,For more information, please contact the local authority or your retailer where you purchased the product.

FCC COMPLIANCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued complies, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

- This device complies with Part 15 of the FCC Rules. Operation to the following tow conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- FCC Radiation Exposure Statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without RF striction.
