## REGULATORY INFORMATION

If a BLE Transceiver IABR12 is used in this product the following information applies:

### FCC (USA – Federal Communications Commission)

This device complies with part 15 of the FCC rules. Operation of this device is subject to the following conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

### IC (Canada – Industry Canada)

This device complies with ICES-003 of Industry Canada rules. Operation of this device is subject to the following conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

### Avis de conformité à la réglementation d'Industrie Canada

Cet appareil est conforme à la norme NMB-003 du Industrie Canada. L'utilisation de ce dispositif est autorisée seulement aux deux conditions suivantes :

1. il ne doit pas produire de brouillage.
2. l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.

PRELIMINARY

# PRELIMINARY

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**IMPORTANT:** This product emits radio frequency energy but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.

**CAUTION!:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: The console contains FCC ID: OMCIABR12.
