warning

---

Translation machine is authenticated by the form of qualified low power frequency electrical appliances, and without permission or users shall not change the battery company, a firm, increase the features of electric power or change the original design. This product is not suitable for children under 14 years of age. Please use it with your parents.

Before the signal is used, please do not affect the safety of the flight and interfere with the legal communication. When it is found that there is interference, it should be discontinued immediately until there is no interference.

Failure to comply with safety instructions may result in fire, electric shock, injury or damage to the translation machine or other property. Please read the safety instructions before using any problems or maintenance.

Exemption clause

---

Please read the product description carefully before using:

- this product is not responsible for translation results

, do not put the product placement in 55 ° to 10 ° ~ outside the temperature range of use

- this product is not waterproof, do not put the product into the water
- children over 14 years of age should be used under adult supervision

#### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following

two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
