11. After Staff allocate the room, User will receive push message and can see the room status is changed as room number.

<New Reservation Request > - *[This process should be done by Hotel Staff](#)*

In this webpage, Hotel staff can send Mobile key request via email.

1. Go to <https://hotel.imgate.co.kr/staff/login>.
2. Sign in with account

The screenshot shows the ImGATE system interface. At the top, there's a header with the ImGATE logo and a 'Home' link. Below the header, there's a 'New Booking' section with a form. The form has three input fields: 'Guest Email', 'Check-in / Check-out date' (with a calendar icon), and 'Room Type' (with a dropdown arrow). A red button labeled 'Create New Booking' is positioned to the right of the form. A hand icon is pointing at this button. Below the form, there's a table with the following columns: 'PMS NO.', 'Guest Email', 'Room Type', 'Checkin / Checkout', and 'Status'. The table contains two rows of data. The first row shows a 'Single' room type with a check-in date of 12/26/2016 and a check-out date of 12/30/2016, with a status of 'User Confirmed'. The second row shows a 'Deluxe' room type with a check-in date of 09/12/2016 and a check-out date of 01/01/2017, with a status of 'Room Allocated'. At the bottom of the page, there's a copyright notice: '© ImGATE'.

PMS NO.	Guest Email	Room Type	Checkin / Checkout	Status
-		Single	12/26/2016 - 12/30/2016	User Confirmed
-		Deluxe	09/12/2016 - 01/01/2017	Room Allocated

<Allocate the room> - [This process should be done by Hotel Staff](#)

1. Type "Guest Email", "Check-in, Check-out date", "Room Type". (if guest already made a booking through application, staff doesn't have to type it. Just refresh the page by push F5 from the keyboard.)
2. Then click "Create New Booking". Then you can see the list was added below.

<Allocate the room> - [This process should be done by Hotel Staff](#)

1. If Guest already made a booking, just click “User Confirmed” of green button to allocate the room.
Then web page will be changed as next page.

The screenshot displays the ImGATE system interface. At the top, the 'ImGATE' logo is visible. Below it, the 'Booking Detail' section shows a red box around the 'Status: User Confirmed' field. Other fields include 'PMS NO:', 'Guest Email:', 'Room Type: Single', 'Checkin: 12/26/2016', and 'Checkout: 12/29/2016'. The 'Booking Change' section has a date range of '2016/12/26 - 2016/12/29' and a 'Single' room type. A 'Change Booking Detail' button is present. Below this, a list of rooms is shown, including 1234 (Deluxe), 101 (Single), 102 (Single), 201 (Double), 202 (Double), 301 (Deluxe), 302 (Deluxe), 401 (Suite), and 402 (Suite). A red hand icon points to room 401. At the bottom right, an 'Allocate Room' button is highlighted with a red hand icon.

<Allocate the room> - [This process should be done by Hotel Staff](#)

2. Click the room number you want, then click “Allocate Room”.
3. Status on the red box will be changed as “Room Allocated”
4. Guest will receive Push message through application.
5. Guest tag the phone to the LCD.

Room Allocated

ImGATE Manual

-RF card

<How to use RF card to open the door>

1. STAFF: Check room number to allocate for Guest.
2. STAFF: Using PC program, write allocated room in RF card.
3. STAFF: Give to Guest.
4. Guest: Go to reserved room and tag the RF card to door lock.
5. Guest: Get inside.

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
