

1. Buttons and Connections

2. Charging with InCharge Home BT

2.1 Charging an iPod / iPad / iPhone

- When you plug InCharge Home BT into the Wall outlet, The LED will **NOT** turn on.
- When a USB Device is plugged into the USB socket, up to 2.1A of power will be supplied immediately.

3. Connecting to Bluetooth

3.1 Connecting to InCharge Home BT via Bluetooth

- Hold down the 'sync' button for 2 seconds, this will allow the Bluetooth device to be discovered.
- The LED will begin to slowly Flash Blue.
- Then, the User selects "InCharge Home BT" from the Bluetooth List on their device. If the device requires a pairing code, use "0000".
- Once the device has successfully paired, there will be an audible 'beep' sent to the stereo and the LED will stop flashing and stay solid blue.
- If the unit is not paired after five minutes, the LED will turn off.
- InCharge Home BT will remember the device that it is paired with, and link to it each time that InCharge Home BT is powered on and/or the device is in range.

4. Playing Audio over Bluetooth

4.1 Playing wireless Audio over Bluetooth

- The user must have their radio set to AUX and the 3.5mm cable properly connected.
- Use the audio device to control playback features such as play or pause.

5. Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
