CHAPTER Introduction

Thank you for purchase Pideo (Audio / Video Digital Recording System)

1-1 Introduction

Pideo's core concept is that you can enjoy video from a personal computer (PC + VIDEO). It is a "Digital Multimedia Converter System" that enables you to convert analog signals to digitals signals from such devices as video player, camcorder, and TV. It also allows you to enjoy the video in real-time and gives you the convenience of storing the video with Pideo. Pideo is connected to a PC by using a USB port, and by utilizing our software, it is quite easy to connect and use it with convenience and speed.

-2 Package

- Pideo (USB Type)
