1 ALP-XP850 Xpedition Speaker
1 Power Adaptor with cord
1 DC Power Adapter

WARNING

This lightning flash with arrowhead symbol,within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage”within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

Warning:To reduce the risk of electric shock,do not remove cover(or back) no user-serviceable parts inside.Refer servicing to qualified service personnel.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance(servicing) instructions in the literature accompanying the appliance.

IMPORTANT SAFETY INSTRUCTIONS

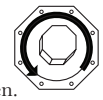
1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Clean only with dry cloth.
6) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
7) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
8) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
9) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10) Only use attachments/accessories specified by the manufacturer.
11) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

12) Unplug this apparatus during lightning storms or when unused for long periods of time.
13) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
14) Grounding or Polarization – This product may be equipped with a polarized alternating-current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.
15) The MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
16) ⧈: CLASS II apparatus with double insulation, and no protective earth provided.
17) " USE OF ANY CONTROLS, ADJUSTMENTS, OR PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE."
18) Invisible laser radiation when open. DO NOT STARE INTO BEAM.
19) To reduce the risk of electrical shock, do not open the unit. There are no user replaceable parts inside. Please refer servicing to a qualified Altec Lansing service technician. Do not attempt to return this equipment to your dealer.
20) Do not open the device or attempt to disassemble the internal parts or modify them in any way. The device contains no user- serviceable parts. If it should appear to be malfunctioning, discontinue use immediately and have it inspected by qualified Altec Lansing service personnel.
21) Replacement Parts: When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electrical shock, or other hazards.

Responsible Party Name:
Innovative Concepts & Designs
Company address:
107 Trumbull St-F8 2nd Floor
Elizabeth, NJ, 07206 USA
FCC ID: 2AE6GALP-XP850
FCC Compliance Statement
This device complies with Part 15 of the FCC Rules. The operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These equipment generates uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and then on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment to a different outlet so that the equipment and receiver are on different branch circuits.
• Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Power On



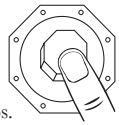
• Turn the *Volume* knob to 0.
· Apague completamente el volumen.
• Press the POWER button. As soon as it's on, you'll hear "Welcome to Altec Lansing".
· Enciende el boton "POWER". Cuando esté encendido oirás "Welcome to Altec Lansing".

• Be sure to charge the battery fully before first use.
· Asegúrese de cargar la batería completamente antes de usar la bocina por primera vez.

Lighting

The Xpedition has lights built into the front of the speaker.
La Bocina tiene luces delanteras.

• Press the "Light" button to switch between the 5 built-in light modes.
· Presione el botón "Light" para elegir uno de los 5 modos de iluminación.
• To change the color of the current light mode, press and hold the *Volume* knob for 2 seconds.



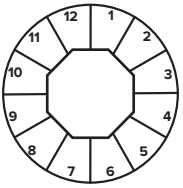
· Para cambiar el color del modo de luz actual, mantenga pulsado el boton "Volume" durante 2 segundos.
• Turning the knob will change the color of the lights. There are 12 color combinations including random. You will automatically exit color change mode by not using any control for 2 seconds.
· Girar el boton "Volume" cambiará el color de las luces. Hay 12 combinaciones de colores incluyendo al azar. Saldrá automáticamente del modo de cambio de color al no utilizar ningún control durante 2 segundos.
• To turn the strobes ON or OFF, press the Strobe button.
· Para encender o apagar los flashes, presione el botón "Strobe".
• If you are sensitive to flashing lights, please be sure to turn the strobes OFF when using the speaker.
· Si es sensible a las luces intermitentes, asegúrese de apagar las luces estroboscópicas cuando use la bocina.

Lighting Modes and Color Control

The Xpedition has multi-color lighting built into the front of the unit. There are 3 main light areas-speakers, rings and the strobes. Pressing the "Ligths" button directly above the Volume knob cycles through the 5 different lighting modes:

• ***Mode 1:*** Speakers and rings are always a different color. Lights randomly change color combinations unless user selects a specific combination (then lights remain on user selected combination). Strobes flash at 170 BPM.
• ***Mode 2:*** Strobe flashes at 170 BPM. Speakers and rings are always different colors. Lights change color to the beat of the music. If user selects a combination, lights stay that color and flash to the music.
• ***Mode 3:*** Strobe flashes at 170 BPM. Lights pulse to the beat of the music, with speaker and ring lit the same color. User can change light color.
• ***Mode 4:*** Speakers and rings are always the same color. Lights randomly change color combinations unless user selects a specific color (then lights remain on user selected color). Strobes flash at 170 BPM.

Lighting Color Chart

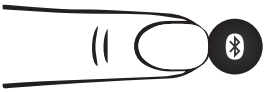


1. Red
2. Lavendar
3. Royal Blue
4. White
5. Green
6. Light Blue
7. Lime
8. Sky Blue
9. Yellow
10. Purple
11. Turquoise
12. Random

• ***Mode 5:*** All lights off.

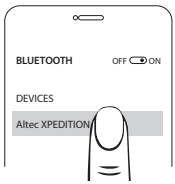
Bluetooth Pairing

This allows you to pair a portable device to the Xpedition to play your favorite streaming music.
Esto le permite emparejar un dispositivo portátil a la bocina para reproducir su música favorita.
• Press the Bluetooth button for 2 seconds. Button will start blinking blue.
• Presiona el boton "Bluetooth" en la Bocina. El boton encenderá una luz azul parpanderante.



• If your phone is NFC compatible, press the Bluetooth button and tap your phone against the NFC logo on the Xpedition to pair (NFC must be turned on in your portable device settings).
• Si su teléfono es compatible con NFC, toque su teléfono contra el logotipo de NFC en la bocina para emparejar (NFC debe estar activado en la configuración del dispositivo portátil).
Note: **The N-Mark is a trademark or registered trademark of NFC Forum, Inc. in the United States and in other countries.**

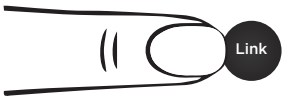
• To pair with Bluetooth, open Bluetooth settings on your mobile device and look in the device list for "Altec Xpedition". Select it and complete the pairing process.
• Para sincronizar "Bluetooth", abra la configuración "Bluetooth" de su dispositivo móvil y busque en la lista de dispositivos "Altec Xpedition". Seleccione y complete el proceso de emparejamiento.



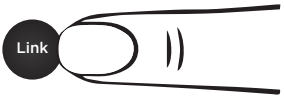
• Once pairing is complete, the Bluetooth button will light solid blue, and you will be able to enjoy streaming music from your mobile device. Pressing and holding the BT button for 4 seconds will drop the current connection.
• Cuando se haya completado el apareamiento, el boton "Bluetooth" encenderá una luz azul, ahora estara listo para reproducir musica.
Al presionar y mantener presionado el botón BT durante 4 segundos, se desconectará la conexión actual.

Bluetooth Linking

The Xpedition has the ability to link wirelessly with another Xpedition to create a stereo pair.
La bocina "Xpedition" tiene la capacidad de conectarse a otra bocina "Xpedition".
• Select which of the speakers you want to control the music. On that speaker, press the "Link" button. The button will blink to tell you it's in search mode.
• Presione el botón "Link" en la bocina de que quieras que sea la fuente. El botón parpadeará para indicarle que está en modo de búsqueda.



• Now press the "Link" button on the other Xpedition speaker.
• Ahora presione el botón "Link" en la otra bocina "Xpedition".

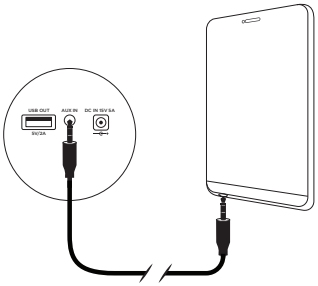


• When the 2 speakers have paired, the Link button will light solid. Any music sent to the "master" speaker will play on both speakers.
• Cuando las dos bocinas estén emparejados, el botón "Link" se encenderá de forma sólida. Cualquier música enviada al bocina fuente se reproducirá en ambos bocinas.

Note: **Many environmental factors can affect the range of Bluetooth devices. To achieve the best performance possible, place your product in the middle of the room and make sure it's not blocked by walls, furniture, or other obstructions.**

AUX Input

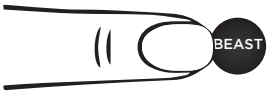
• The AUX input on the Xpedition allows you to connect a wired external source.
· La entrada AUX en la bocina le permite conectar una fuente externa con cable.



• When a device is connected to the *AUX IN* jack, you will not be able to hear the Bluetooth source.
· Cuando un dispositivo esté conectado a la toma AUX IN, no podrá escuchar la fuente Bluetooth.
Note: **The *AUX IN* is located behind the waterproof cover on the back of the Xpedition.**
El AUX IN se encuentra detrás de la cubierta impermeable en la parte posterior de la bocina.

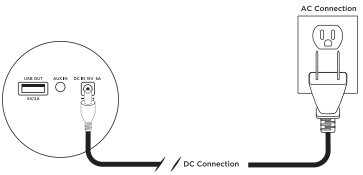
Beast Mode

• Pressing the "Beast" button will increase low frequency response and give your music deeper bass.
· Al presionar el botón “Beast”, aumentará la respuesta de las bajas frecuencias y le dará a su música graves más profundos.

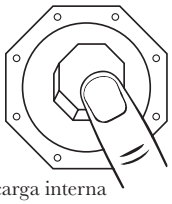


Recharge Your Speaker

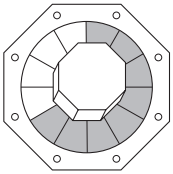
On DC Power:
• The Xpedition is capable of operating and charging from a DC power source, like your car’s battery.
· La bocina es capaz de operar y cargar desde una fuente de alimentación de DC, como la batería de su automóvil.
• The power supply should provide 15VDC @ up to 5 A (maximum).
· La fuente de alimentación debe proporcionar 15VDC @ hasta 5A (máximo).



Check Battery Status



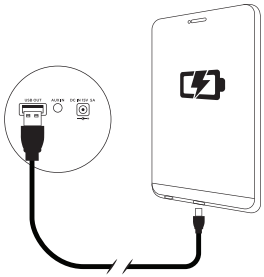
• You can check the internal battery charging level on the Xpedition by pressing the *Volume* knob for less than 1 second.
· Puede comprobar el nivel de carga interna de la batería de la bocina presionando el boton ”Volume” durante menos de 1 segundo.
• The LED ring around the *Volume* knob will light, indicating the amount of charge left in the unit (each of the 12 segments represents approximately 8.3%)
· El anillo LED alrededor del boton “Volume” se encenderá, indicando la cantidad de carga restante en la Bocina (cada uno de los 12 segmentos representa aproximadamente 8,3%).



Battery level 66.63%

Charging External Devices

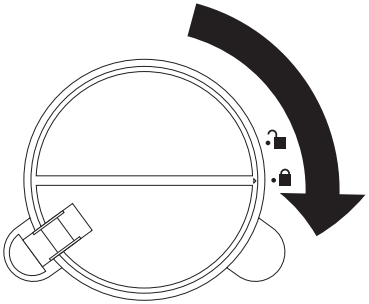
The Xpedition can charge your phone or other portable device.
La Bocina puede cargar otro dispositivo portátil.
• Using an approved USB charging cable for your device, connect to the USB type A port on the back of the Xpedition. Connect the smaller end to your portable device.
• Con el cable de carga USB correcto para su dispositivo, conéctelo al puerto USB tipo A en la parte posterior de la Bocina. Conecte el extremo más pequeño a su dispositivo portátil.



• Once connected, you should see the charging indicator activate on your portable device.
• Una vez conectado, debe ver que el indicador de carga de su dispositivo portátil indica que está recibiendo una carga.
Note: **Charging and power ports are located behind the waterproof cover on the back of the Xpedition.**
Los puertos de carga y de alimentación se encuentran detrás de la cubierta impermeable en la parte posterior de la bocina.

Weather Resistance (IP67 Rating)

The Altec Lansing Xpedition is IP67 rated, meaning it is dust resistant and capable of being submerged for up to 30 minutes at a depth of 1 meter. However, that doesn't mean your new speaker is indestructible. Other factors – like the corrosiveness of the liquid due to it containing salt or chlorine – can affect the overall integrity of the enclosure. If your Xpedition is exposed to any substance other than clean water, it's a good idea to clean the unit with a clean, soft cloth. Give the unit time to dry completely before connecting it back to mains power.
La bocina tiene una clasificación IP67, lo que significa que es resistente al polvo y puede sumergirse durante 30 minutos a una profundidad de 1 metro. Sin embargo, eso no significa que su nueva bocina sea indestructible. Otros factores, como la corrosividad del líquido debido a que contienen sal o cloro, pueden afectar la integridad general del recinto. Si su Xpedition está expuesta a cualquier sustancia que no sea agua limpia, es una buena idea limpiar la unidad con un paño limpio y suave. Dele tiempo a la unidad para que se seque completamente antes de volver a conectarla a la red eléctrica.
Note: **The unit is only protected when the rear plastic port cover is properly in place, if not, the unit is not sealed from damage and care should be taken to protect it from any exposure to liquids or dust.**
La bocina solo está protegida cuando la tapa del puerto de plástico trasero está colocada correctamente, de lo contrario, la unidad no está sellada contra daños y se debe tener cuidado de protegerla de cualquier exposición a líquidos o polvo.



Warranty and Repair:

All Altec Lansing products are designed and manufactured to the highest standards in the industry. With proper care and maintenance, your product will provide years of reliable service.

Limited Warranty

A. Altec Lansing guarantees its products to be free from defects in materials and workmanship for one (1) year from the original purchase date.
B. This limited warranty does not cover damage or failure caused by abuse, misuse, abnormal use, faulty installation, improper maintenance or any repairs other than those provided by Altec Lansing.
C. There are no obligations of liability on the part of Altec Lansing for consequential damages arising out of or in connection with the use or performance of the product or other indirect damages with respect to loss of property, revenues, of profit, or costs of removal, installation, or reinstallation. All implied warranties for Altec Lansing, including implied warranties for fitness, are limited in duration to one (1) year from the original date of purchase, unless otherwise mandated by local statutes.

Return/Repair

A. In the U.S.A., please call our helpful Customer Service Representatives at (888) 703-2307, and they will be happy to give you a Return Authorization Number (RA#) and the address of an authorized service center closest to you.
B. After receiving an RA#, include a copy of the original sales receipt, with defective product and a description of the defect. Send by insured freight to: Altec Lansing and use the address provided by your customer service representative. Your RA# must be written on the outside of the package, or processing will be delayed indefinitely!
C. Service covered under warranty will be paid for by Altec Lansing and returned to you. For non-warrantied products, Altec Lansing will repair your unit after payment is received. Repair charges do not include return freight. Freight charges will be added to the repair charges.
D. On warranty service, you pay for shipping to Altec Lansing, we pay for return shipping within the continental United States. Alaska, Hawaii, Puerto Rico, Canada, Bahamas, and the Virgin Islands will be charged for freight.
E. Please allow 2-3 weeks for return of your product. Under normal circumstances your product will spend no more than 10 working days at Altec Lansing. We are not responsible for shipping times.
