- USB Charging Cable
- User Manual

How to use the H-0002 BT Headphone

Charging the Headphones:

Before you start, charge your **H-0002** unit by connecting the included charging cable into a USB power outlet (such as a USB chargers, computer USB port, etc.) and plug the other end into the headphones' charging port.

The red LED indicator will light up showing that the unit is being charged. When charging is complete, the red LED indicator will turn off.

Turning ON/OFF:

1. Power ON your headphones:
Press and hold the Multifunction Button (MFB) for about 3 seconds until the blue indicator flashes with 3 "beep" sounds to remind.
2. Power OFF your headphones:
Press and hold the MFB for about 3 seconds until the red indicator flashes twice with 3 "beep" sounds to remind.

Pairing your H-0002 :

1. Press and hold MFB for about 5 seconds until the blue and red LED flashes with 2 "beep" sounds to remind. The headphone goes to pairing mode.
2. Using the Bluetooth menu on your device, enable searching of nearby Bluetooth devices.
3. Once the "**BT Headphone**" is found, connect and pair to it. If your device prompts you for a password, please use "0000". For more details, please refer to your device's owner manual.
4. 5 blue LED flashes on the headphone, and also comes with 1 "beep" sound once connection is successful. If the pairing is unsuccessful, please turn off the **H-0002** and repeat Step 1.

Hands-free calling functions:

- Answer/End a call: Press the MFB once.
- Reject a call: Press and hold the MFB for 3 seconds during an incoming call.
- Redial last number: Press the MFB 2 times to redial the last dialed number.

Adjust Volume:

Increase or decrease volume: Press and hold the + or - buttons to set the volume.

Play/Pause Music:

Press the **▶||** one time to play or pause music.

Previous/Next Song:

Turn the **▶▶1** (Forward) button to play next song or the **1◀◀** (Backward) button to play previous song.

Warning and Cautions:

- Do not expose this unit to water, rain or moisture.
- Do not leave the unit exposed to extreme heat for long periods of time.
- Do not use the headset in situations which require special attention (e.g. in traffic or when performing skilled jobs).
- Attention—Your ears are very delicate, prolonged exposure to sound pressure levels above 85dBA can cause damage to hearing. This temporary loss of hearing can become permanent if exposure is done on a regular basis. Please protect your hearing.

Warranty Information:

NoiseHush warrants this product against defects in material and/or workmanship under normal use for a period of ONE (1) YEAR from the date of purchase by the original purchaser.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference,
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmfu

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the

interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
