

## NIKE+ FUEL TRAINER

### The ultimate measure of your athletic activity

La solution par excellence pour mesurer ton activité sportive.

#### STEP 1:

Download the free Nike+ Training Club app from the App store or Google Play. Once you have the app, you'll have to quickly set up a Nike+ account if you don't already have one.

#### ÉTAPE 1 :

Translated FRC text.

#### STEP 2:

Once you're inside the app, tap on the upper right tab that says "Fuel Trainer" to set yours up. Then you'll be ready to go!

#### ÉTAPE 2 :

Translated FRC text.

## Compliance Information

### United States:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

FCC WARNING: any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment under FCC regulations.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

—Exposure to Radio Frequency Radiation: The radiated output power of this device is below the FCC and Industry Canada radio frequency exposure limits.

Note: The Transmitters within this device must not be co-located or operating in conjunction with any other antenna or transmitter.

Equipment certified for  
FCC Part 15 Subpart C, Section 15.247  
Industry Canada RSS-210

FCC Part 15, Subpart B; Industry Canada ICES-003  
Class: B  
Model: **848766**

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This device complies with Health Canada's Safety Code 6 / IC RSS-102. Information can be obtained at:  
[http://www.hc-sc.gc.ca/ewh-semt/pubs/radiation/radio\\_guidelines\\_direct-eng.php](http://www.hc-sc.gc.ca/ewh-semt/pubs/radiation/radio_guidelines_direct-eng.php)

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil est conforme avec Industrie Canada RSS standard exempts de licence (s). Son utilisation est soumise à Les deux conditions suivantes: (1) cet appareil ne peut pas provoquer d'interférences et (2) cet appareil doit accepter Toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement du dispositif.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.  
Industry Canada ICES-003 Compliance Label: CAN ICES-3 (B)/NMB-3(B)

Cet appareil est conforme avec Santé Canada Code de sécurité 6 / IC RSS-210.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

EU (European Union): Declaration of Conformity with  
Regard to the EU Directive 1999/5/EC

Hereby, Nike, declares that this Nike+ FuelBand SE is in compliance with the essential requirements and other relevant provisions of the following directives and standards:

Low Voltage Directive 2006/95/EC

For safety device is approved for IEC 60950-1:2005 (Second Edition) + Am 1:2009 the standard for Information technology equipment – Safety –Part 1: General requirements and IEC 62471:2006 (First Edition) – standard for Photobiological safety of lamps and lamp systems.

For R&TTE directive 1999/5/EC equipment is certified for ETSI EN 300 328 and ETSI EN 301 489-17

For EMC Directive 2004/108/EC (Electromagnetic Compatibility) the Equipment is certified for EN 55022 and EN 55024

The device is in compliance with RoHS Directive 2011/65/EU (Restriction of Hazardous Substances) and WEEE Directive 2012/19/EU (Waste Electrical and Electronic Equipment)

This product contains a lithium battery that is not user accessible. This battery is approved for the standard IEC 62133: "Secondary cells and batteries containing alkaline or other non-acid electrolytes – Safety requirements for portable sealed secondary cells, and for batteries made from them, for use in portable applications". Do not attempt to open the case, otherwise data may be lost and performance compromised. Substances contained in this product and/or its battery may damage the environment and/or human health if disposed of improperly. The wheeled bin on this product indicates that it should not be disposed of together with household waste. Please be responsible and take it to your nearest recycling collection point to ensure it is recycled. To locate your nearest collection point, contact the retailer where you made your purchase or your local municipality.

Do not use other batteries not certified for IEC 62133.

Battery replacement:

Do not attempt to replace the rechargeable battery in the Nike+ FuelBand yourself. The battery should be replaced only by Nike or a Nike Authorized Service Provider.

Do not disassemble or remove batteries from device. Do not expose to fire or dispose of in fire.

Do not use any charger other than that specified for use with the equipment. Refer to User Manual for proper charging instructions.

Do not leave battery on prolonged charge when not in use.

Do not crush or modify.

Dispose of properly.

## The Weee Directive

This symbol on the product or its packaging indicates that this product must not be disposed of with other waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city recycling office or the dealer from whom you originally purchased the product.
