Hole 1 **TruVision IP S3 VF dome**
TVD-5303, TVD-5304, TVD-5305, TVD-5306, TVD-5307

Hole 2	TruVision HD-TVI VF dome with back box
	NTSC: TVD-4402, TVD-4404, TVD-4405, TVD-4406
	PAL: TVD-2402, TVD-2404, TVD-2405, TVD-2406
	TruVision 960H analog VF dome with back box
	NTSC: TVD-4202
	PAL: TVD-2202
	TruVision IP S4 VF dome
	TVD-5401, TVD-5402, TVD-5403
	TruVision IP S4 VF dome
	TVD-5404, TVD-5405, TVD-5406, TVD-5407, TVD-5408

Installation

To attach a dome that uses **Hole 1** (see the *Supported cameras list*) to a TVD-LWB-2 bracket:

1. Attach the bracket to the wall by using the four C screws and drywall anchors, if required.

2. Remove the bubble assembly from the housing and attach the dome to the bracket by inserting three A screws into holes 1 (see *Dimensions*).

3. Finish cabling and lens adjustment, then attach the bubble assembly to the camera.

To attach a dome that includes an adapter mounting plate that uses **Hole 2** (see the *Supported cameras list*) to a TVD-LWB-2 bracket:

1. Attach the bracket to the wall by using the four C screws and drywall anchors, if required.

2. Attach the adaptor plate to the TVD-LWB-2 bracket using the four A screws into holes 2 (see *Dimensions*).

3. Attach the camera by rotating it to lock the camera to the adapter.

4. Finish cabling and lens adjustment.

To attach an analog VF dome that uses Hole 2 (see the *Supported cameras list*) to a TVD-LWB-2 bracket:

1. Attach the bracket to the wall by using the four C screws and drywall anchors, if required.

2. Optional. Drill holes in the black rubber circular liner A to line up with the holes in the back box.
3. Remove the housing from the back box.
4. Attach the black rubber circular liner A to the bottom of the back box.

5. Attached the back box to the TVD-LWB-2 bracket by inserting the four A or B (depending on your preference) screws into holes 2 (see *Dimensions*).

6. Install the camera to back box with the screws included in the camera package (refer to the dome installation instructions).

7. Finish cabling and lens adjustment, then attach the bubble assembly to the camera.

To attach a motorized VF dome that uses Hole 2 (see the *Supported cameras list*) to a TVD-LWB-2 bracket:

1. Attach the bracket to the wall by using the four C screws and drywall anchors, if required.

2. Optional. Drill holes in the black rubber circular liner B to line up with the holes in the back box.
3. Remove the housing from the back box.
4. Attach the black rubber circular liner B to the bottom of the back box.

5. Attached the back box to the TVD-LWB-2 bracket by inserting the four A or B (depending on your preference) screws into holes 2 (see *Dimensions*).

6. Remove the bubble assembly and install the camera to the back box with the screws included in camera package (refer to the dome installation instructions).

7. Finish cabling and lens adjustment, and reinstall the bubble assembly to the camera.
