

I. To Set Program:
Insert ON and OFF trippers into dial slots at desired ON and OFF times.

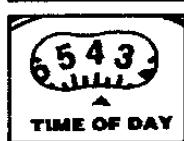

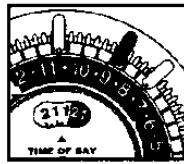

**Do not insert trippers next to each other.
Trippers must be pushed down firmly against dial surface.**

2. To set time of day: turn dial clockwise with the arrow head pointed to the correct time.

The dark area denotes PM and the white area denotes AM.

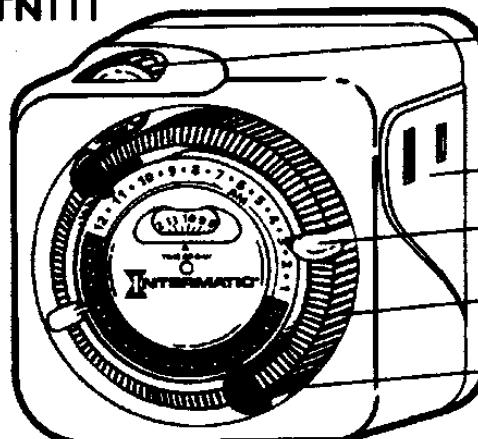

3. Automatic Override Wheel:
Use the ON - OFF wheel at the top of the timer - turn wheel counter clockwise only in the direction of the arrows.

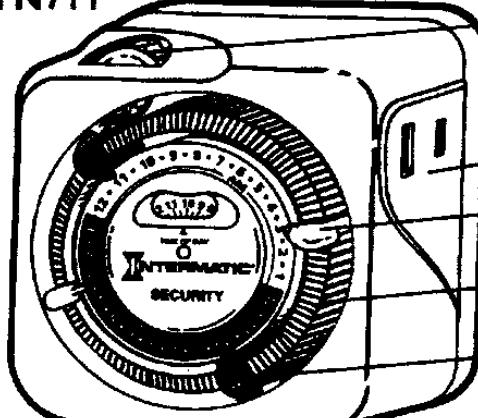

I. Pour régler le programme:
Insérer les curseurs de programmation MARCHE et ARRÊT dans les fentes du cadran aux heures choisies pour mettre en marche et arrêter.

Ne pas mettre les curseurs côté à côté. Les pousser fermement sur le cadran.
