FCC Digital Emissions Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the radio of television receiving antenna.
- Increase the separation between the computer equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the radio or television receiver is connected.
- Consult the dealer or an experienced radio television technician for help.

Canadian Digital Apparatus Compliance

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

This device contains radio frequency transmitters approved by the Federal Communications Commission under FCC ID: EHABTM210 and FCC ID: QDS-BRCM1017 .

WARNING: Per the FCC radio frequency (RF) exposure requirements,

- (1) Antennas must be supplied and installed as recommended by Intermec Technologies Corporation to insure compliance to RF exposure requirements. The integral antennas approved for use are not to be serviced by the user.**
- (2) When installing and using Intermec CV60, a 20-cm (8-inch) passing distance must be maintained from any body part of the user or nearby persons and the antennas at the top of the unit. The antenna area must not be touched during transmitter operation.**
- (3) RF safety requirements mandate this device cannot be co-located with other transmitters.**
