

Important PB42 Information!

For Users in the United States and Canada

Place this supplement in your manual.

Federal Communications Commission Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that can cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. It generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instruction manual, it may cause interference to radio communications. If this equipment causes interference, the user will be required to correct the interference at the user's own expense.

Note: In order to maintain compliance with FCC Rules, the input/output (I/O) cables that interconnect between the device and any peripheral must be as specified by Intermec.

Caution

Changes or modifications not expressly approved by Intermec could void the user's authority to operate this equipment.

Industry Canada Compliance

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Safety Agency Approvals

This device is UL and cUL Listed (UL 60950/C22.2#60950) and UL GS Licensed (EN 60950) for safety.

Battery Recycling Information

This product uses lithium ion (Li-ion) main batteries. When the batteries reach the end of their useful life, the spent batteries should be disposed of by a qualified recycler or hazardous materials handler. Do not mix these batteries with the solid waste stream. Contact your Intermec Technologies Service Center for recycling or disposal information.

Note: In the U.S.A., the EPA does not consider spent Li-ion batteries as hazardous waste.
