

# BH-1000 Bluetooth Headset of User Manual

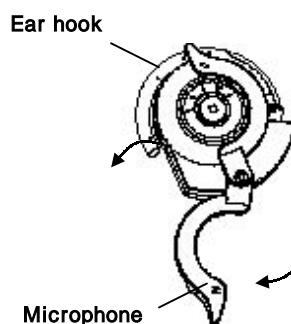

## Overview

Any device that you want to use with the Bluetooth Headset has to be compatible with Bluetooth wireless technology and support the Headset Profile.

To be able to use the Headset together with a mobile phone, you need to have a phone with built-in Bluetooth capability, or another Bluetooth audio gateway connected to it.

## Putting On the Headset.

1. Put on the Headset with the ear hook behind your ear.
2. Make sure the microphone is pointing towards your mouth.

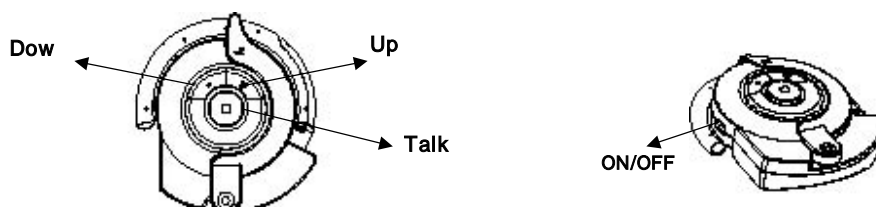

## Pairing the Headset

Before you start using the Headset for the first time, you must pair the Headset with the device you want to use it with, for example a mobile phone.

-Before you start pairing, you must reset the Headset. And then Headset will go to pairing mode.

1. Press the three keys, Volume Up, Down and Talk button simultaneously with the Headset turned on.

To ensure, press the keys (Up, Down and Talk button) in 2 or three times.

2. Wait until hear a short melody tone and then turn the Headset off.
3. After 1 or more seconds, Turn the Headset on.

-Using a mobile phone with built-in *Bluetooth* capability

1. You pair the Headset with your phone by adding it to a list of paired devices in the phone. They then recognize each other when they connect.
2. To pair the Headset with the phone, refer to manual which provided mobile phone provider.

**NOTE:** *The Headset passkey is 1234*

## **Making call and Receiving Calls.**

Once you have paired the Headset with your *Bluetooth* Audio-gateway, you can make and receiving calls using the Headset as long as it is turned on and within range of the phone (up to 10m/ 30ft. with no solid objects in the way)

In connection with making and receiving calls you press the Headset Talk button to

- . Make a call
