Introduction

Thank you for purchasing this product— Bluetooth USB Dongle. This document will introduce you how to install the Bluetooth software and how to use it.

Product Description

J3 Bluetooth USB Dongle is a Bluetooth version 1.1 product , it can use in PC or Notebook , and it can connect with other Bluetooth device via wireless style.

This user guide is assumed that you have basic knowledge for PC 、 Notebook 、 Network 、 Computer noun and so on , and have experience in Windows Operation System.

Product Specification

- USB UHC1/OHC1 spec 1.1 Compliant
- Compliant with Bluetooth 1.1 Specification
- Frequency Range : 2.4 GHz ~ 2.483 GHz / 79 Channel FHSS
- Power Class : Class 2 / 1
- Data Transfer Rate : 723Kbps (Max)
- RX Sensitivity : 0.1 % BER@-80 dBm
- Input Voltage / Current : DC 3.3 V / 100 mA
- Current Consumption : Standby Mode—25 mA ; Transmission Mode—80 mA
- LED Indicator : Power state
- Low Power Consumption
- Weight : 8 g

Profile

General Access 、 Service Discovery Application 、 Personal Area Network 、 Headset 、 Audio Gateway 、 Dial-up Network 、 LAN Access 、 Human Interface Device 、 PIM Item Transfer 、 PIM Synchronization 、 File Transfer 、 Generic Object Exchange 、 Object Push 、 Serial Port 、 Hardcopy Cable Replacement 、 Printer 、 FAX

Required System

Before install the Bluetooth software , please check your system is in the minimum requirements as describe below:

- CPU : Intel Celeron/Pentium III/Pentium 4 ; AMD Duron/Athlon , 200MHz or above
- Memory : at least 32MB
- Operation System : Microsoft Windows XP,2000,ME,98SE

☆Notes☆

Before install the Bluetooth software , please shut down the other application program to avoid the error (If you have already installed the Bluetooth software , and it is older version , please delete this older one before installing the new Bluetooth software) .

Software Installation

Step1 : Please insert the Software CD into CD-ROM drive. Installation program will start automatically if the auto-run function of CD-ROM is enabled.First you have to choose which language that you want to show.

Step2 : Please click [USB Adapter for PC](#) item to start , and if you have any question , you can find the answers in [Live Demo tutorial and User Guide](#) and [Application Note and Troubleshooting](#) this two documents or [Bluetooth Applications](#) and [Bluetooth Profiles](#) this two diagrams.

Step3 : Press click **Install Now ! !** item to continue the software installation.

Step4 : In “License Agreement” window , please select “I accept the terms in the license agreement ” item , and click 「Next」 button to continue.

Statement

1. FCC REGULATORY REQUIREMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Installation and use of this Bluetooth USB Dongle must be in strict accordance with the instructions included in the user documentation provided with the product. Any changes or modifications (including the antennas) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment. The manufacturer is not responsible for any radio or television interference caused by unauthorized modification of this device, or the substitution of the connecting cables and equipment other than manufacturer specified. It is the responsibility of the user to correct any interference caused by such unauthorized modification, substitution or attachment. Manufacturer and its authorized resellers or distributors will assume no liability for any damage or violation of government regulations arising from failing to comply with these guidelines.

FCC RF Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

2. R&TTE (CE) MANUAL REGULATORY REQUIREMENT

CE Declaration of Conformity

For the following equipment: Bluetooth USB Dongle

CE 0984 

Is herewith confirmed to comply with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (89/336/EEC), Low-voltage Directive (73/23/EEC) and the Amendment Directive (93/68/EEC), the procedures given in European Council Directive 99/5/EC and 89/3360EEC.

The equipment was passed. The test was performed according to the following European standards:

- EN 300 328 V.1.4.1 (2003-04)
- EN 301 489-1 V.1.3.1 (2001-09) / EN 301 489-17 V.1.1.1 (2000-09)
- EN 60950: 2000
