Lee Technology makes certain limited warranties with respect to defective diskettes, documentation and electronic circuitry. Please see the associated information contained on this page.

LIMITED WARRANTY

With respect to the physical documentation and physical electronic circuitry enclosed herein, Lee Technology warrants the same to be free of defects in materials and workmanship for a period of one year from the date of purchase. In the event of notification within the warranty period of defects in material or workmanship, Lee Technology will replace the defective diskettes, documentation and electronic circuitry. The remedy for breach of this warranty shall be limited to replacement and shall not encompass any other damages including but not limited to loss of profit and special incidental, consequential, or other similar claims.

Lee Technology Korea specifically disclaims all other warranties, expressed or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose with respect to defects in the documentation and electronic circuitry and the program license granted herein, in particular, and without limiting operation of the program license with respect to any particular application, use or purpose.

IMPORTANT SAFETY INFORMATION

Caution : Any changes or modifications (including the antenna) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

1. PRODUCT INTRODUCTION

1) SUMMARY

LEETEK's Handheld Transmitter (new 10 key) was designed to help restaurants manage incoming customers efficiently and distinctively with portability and convenience. With simple operation of this product, a restaurant can provide instant notification to customer when customer's table is ready, making them feel special and welcome. Freed from long lines, your restaurant looks more inviting to people walking in, customers are encouraged to wait without fears of missing their table, resulting in higher traffic, while overall restaurant traffic flows more smoothly, leading to faster table turns. By offering perfect customer service the instant a customer appears, you will enjoy greater competitiveness, revenues and profits.
