Using the Bluetooth device

Warning

Stop the car before operating the unit.

Caution

Operations may be different according to the connected device.

Registration of the Bluetooth device

Register (pair) a Bluetooth device

- 1 [Hold this button for 5 seconds.]
A play/pause button flashes on and off.

2 Search the KS-BTA100 from your device.

- 3 If a PIN code is required, enter "0000".
(It is not necessary for some mobile phones.)
When registration is completed, a play/pause button lights up.

Using the Bluetooth mobile phone

- Receiving a call
When a call comes in...
- Making a call (Redial)
Making a call to the last connected number from your phone.
- Switching between handsfree and phone
While talking...

Adjusting the microphone volume
Volume level: High/ Normal (initial)/ Low

- Ends/rejects call
- Voice dialing
Voice dialing is available only when the connected mobile phone has the voice recognition system.

- Delete all registered devices from the list.
[Hold the two buttons at the same time for about 10 seconds.]

Using the Bluetooth audio system

- [Press] Selects track.
- [Hold] Fast-forwards or reverses the track.

- [Press] Play/Pause
- [Hold] Stop

Using the Bluetooth device
