Safety Precautions

- · Follow this manual regarding setup! - Connect only to a 110-240 V, 50/60Hz AC outlet.
- · Make enough room for inserting and removing the power
- Place the TV as close to the outlet as possible!
- The main power supply for this TV is controlled by inserting or removing the power plug.
- Never cut or damage the power cord! - If the AC plug is not the right shape, or the power cord is not long
- enough, use an appropriate plug adapter or extension cable. (Consult your retailer
- Unplug the power cord when going out! The power buttons on the remote control and the TV unit cannot completely turn off the TV. (Make appropriate
- arrangements for bedridden people.) Do not allow the TV to fall! - Do not rest your elbows on, or allow children to hang from the TV
- There is a risk that the TV will fall and cause injuries - Make use of the hole on the back of the stand to prevent the TV from
- If the TV is damaged or behaving strangely, stop using it at once! - Unplug the power cord and contact your retailer.
- Never place anything on the TV! - Placing liquid, naked flames, cloths, paper, etc.
- on the TV may cause a fire. Never expose to rain or moisture! - To prevent fire or electric shock, never allow
- liquids to enter the unit. Never insert objects into the cabinet openings!
- It may cause a fatal electric shock. - Take care when children are near.
- For more details on installation, usage and safety → Consult your

GGT0335-001B-H 0510SCT-NF-MT

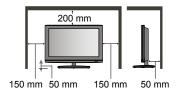

ENGLISH **EXECUTE**

Thank you for buying this JVC LCD panel television.

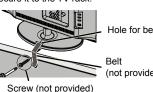

- To make sure you understand how to use your new TV, please read this manual thoroughly before you begin. · Hold the TV so as not to scratch the screen!
 - Do not touch the screen when carrying the TV. Never dismantle the rear panel!
 - It may cause an electric shock.
 - Never obstruct the ventilation holes! - It may cause overheating or a fire.
 - Handle LCD panel with care! - Use a soft, dry cloth when cleaning
 - Never try repair the TV yourself!
 - If the problem cannot be solved in "Troubleshooting" unplug the power
 - cord and contact your retailer. Never insert the power cord by wet hand!
 - It may cause a fatal electric shock. Keep the TV set away from direct sunlight!
 - Place the TV set in a neat and dry place. Do not place the
 - product close to source of steam, heat, moisture or oil. Because it may cause a fire hazard or electric shock hazard! Don't touch an external metal part of the TV set! - It may cause an electrocuted.
 - If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking
 - simple precautions such as: - Using cabinets or stands recommended by the manufacturer of the television
 - Only using furniture that can safely support the television. - Ensuring the television is not overhanging the edge of the supporting furniture.
 - Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a
 - Not standing the television on cloth or other materials placed between the television and supporting furniture
 - Educating children about the dangers of climbing on furniture to reach the television or its controls.

Care when setting

- Power requirements Connect the power cord only to a 110-240V.
- 50/60Hz AC outlet.
- Installation requirements
- · To avoid overheating, ensure the unit has ample room.

 To prevent the TV from falling thread the belt through the hole on the back of the stand and secure it to the TV rack.

Return: Return to the previously viewed channel "AAA/R03" Insert the batteries WARNING Batteries Use two "AAA/R03" dry cell batteries. Insert the batteries from the

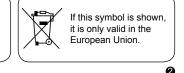

end,

Return Plus Canceled by press and hold

Batteries shall not be exposed to excessive heat such as direct sunshine, fire or the like.

Return Plus Programmed by select the frequently viewed channel then press and hold

Troubleshooting

If a problem occurs when you are using the TV, check the below troubleshooting guide before calling for repair

Check the aerial cable and TV connections

Check the direction of the aerial. Check the aerial or its cable damaged or not.

Patterns, stripes or noise

Interference caused by devices such as an amplifier, personal computer, or a hair drier, Move it away from TV.

Ghosting (Doubling of images)

Interference occurs caused by signal reflection from mountains or building. Try to adjust the aerial's direction or use another antenna.

Cannot turn it on Ensure the power cord is connected to the AC outlet correctly.

The batteries may be exhausted. Replace with new batteries. Ensure that you are operation the remote control at less than 7 meters

from the front of your TV.

Remote control stops working Unplug TV, several minutes later plug it in again.

Aspect ratio changed unintentionally Press "O" button to return to your settings. PC screen alignment is off Adjust the "PC Position" in "PC Setting" of Set Up menu.

Blue screen appears on the screen Switch "Blue Back" to "Off" Strange picture when using an external device

If the top of the image is distorted, check the video signal quality itself. If movement appears unnatural when receiving a signal from a DVD player, etc. with 625p (progressive-scanning), change the output setting of the external device to 625i (interlace-scanning).

Unnatural colour >> Adjust "Colour" and "Backlight". Check "Colour System". If "Auto" is selected. Select the specific colour system manually.

Poor sound Adjust the "Bass" and "Treble".

If receiving a poor signal in "Stereo/I=II" switch to "Mono". Adjust the channel reception using "Manual".

For HDMI signal, wrong screen size. Switch "Size" in "HDMI Setting" to "1" or "2". For HDMI signal, green and distorted screen

Wait a little for the signal to stabilize when switching the signal format for an "HDMI" device. For HDMI signal, No picture / No sound

Use the cable marked with HDMI logo. Check if the device is compliant with HDMI. Switch "Audio" in "HDMI Setting" to "Digital" or "Auto" for HDMI devices, or

"Analogue" or "Auto" for DVI devices Some functions do not work.

It is not a malfunction. Some functions (dark background) in the menu do not work depending on the situation. Black or white dots appear on the screen.

LCD panels use fine dots ("pixels") to display images. While more than 99.99% of these pixels function properly, a very small number of pixels may not light, or may light all the time. It is not a malfunction.
