## CONTROLS

### REMOTE CONTROL

### VEHICLE

### OPERATION

1. VEHICLE: Move the OFF / ON SWITCH to the ON position.

2. REMOTE CONTROL: Move the OFF / ON SWITCH to the ON position. The INDICATOR LIGHT will blink. When the unit is paired with the VEHICLE, the LIGHT will be solid.  
 Note: If INDICATOR LIGHT keeps flashing for a long time, switch off both VEHICLE and REMOTE CONTROL and repeat the pairing process.  
 Note: Pairing is required every time the VEHICLE/REMOTE CONTROL is turned on.

## OPERATION

3. Place the VEHICLE on ground and point the REMOTE CONTROL directly at the VEHICLE.  
 The LEFT STICK operates the FORWARD/BACKWARD movement

The RIGHT STICK operates the RIGHT and LEFT TURNS

## RECOMMENDED SURFACES

Use on textured surfaces with a small amount of roughness for optimal performance. This allows the vehicle's wheels to grip the surface and perform the rollovers.

## NON RECOMMENDED SURFACES

Not recommended for use on smooth surfaces with no texture. These surfaces don't provide the wheels with the grip needed to perform rollovers.

## OPERATION ADVANCED MOVEMENT

### FLIP RIGHT

- 1.- Gain speed going straight forward, then;
- 2.- Push FORWARD and RIGHT simultaneously

### FLIP LEFT

- 1.- Gain speed going straight forward, then;
- 2.- Push FORWARD and LEFT simultaneously

**NOTE:** When the VEHICLE flips over, the CONTROLS will automatically detect which side is up. Operation of the vehicle is the same on Captain America side and on Iron Man side.

## IMPORTANT SAFETY INFORMATION

- NEVER drive near traffic, buildings, trees, people or other obstructions.
- NEVER operate during storms or other adverse weather conditions.
- ALWAYS point away from face, eyes, people, animals and property when driving.
- ALWAYS use alkaline batteries only.

Note: This vehicle is for indoor & outdoor use. Works best on concrete, low pile carpet, and other hard surfaces with a small amount of roughness. Not recommended for use on grass, loose dirt, wet surfaces or high pile carpet. Never use in water and mud.
