JAKKS Pacific® Battery or Electrically-Operated Toy 90 DAY LIMITED WARRANTY

Thanks for purchasing a great JAKKS Pacific® product! Please immediately register your product online at www.jakks.com/warranty. Registration is not required for the effectiveness of this limited warranty.

IMPORTANT NOTICE TO CONSUMER:

This 90 DAY LIMITED WARRANTY applies to the original product purchaser, provided the product: 1) was purchased from an authorized JAKKS™ distributor/retailer, and 2) is returned at your expense, postage pre-paid and insured, along with the original dated sales receipt to the address noted below. Please save a copy of your original sales receipt, as the original receipt will not be returned to you. If you return the product to us without the original dated sales receipt, this warranty coverage will not apply. If the product is determined by JAKKS to be defective and returned to JAKKS within the 90 day warranty period, we will at our option repair or replace it. Return shipment to you may take up to 6 weeks, depending upon your location. If your product is repaired or replaced, it will be warranted for the longer of the original warranty or for 30 days after warranty service.

SCOPE OF LIMITED WARRANTY: The product is warranted to be: a) tested and inspected before shipment, and b) free of defects in material and workmanship for 90 days from date of purchase. If a covered defect occurs within the warranty period, then at our sole option, we will repair or replace the product or provide you with another product of equal value.

WHAT IS NOT COVERED BY LIMITED WARRANTY: THIS WARRANTY IS VOID IF THE PRODUCT HAS BEEN MODIFIED OR REPAIRED BY USER OR OTHERS OR IF IT HAS BEEN DAMAGED AS A RESULT OF ACCIDENT, IMMERSION IN WATER, NEGLIGENCE, ABUSE, MISUSE, BATTERY LEAKAGE, IMPROPER BATTERY INSTALLATION, UNAUTHORIZED SERVICE, LOSS OF PARTS, WEATHER, ACTS OF GOD, ANY ACTION OR OMISSION WHICH CONSTITUTES A DEVIATION FROM THE OPERATING INSTRUCTIONS, OR ANY OTHER CAUSES NOT ARISING OUT OF DEFECTS IN WORKMANSHIP OR MATERIALS.

EXCLUSIONS FROM LIMITED WARRANTY: THIS WARRANTY IS EXCLUSIVE OF AND IN LIEU OF ALL OTHER EXPRESS OR IMPLIED WARRANTIES RELATED TO THIS PRODUCT, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SPECIAL, INCIDENTAL AND CONSEQUENTIAL DAMAGES ARISING FROM POSSESSION, USE, OR MALFUNCTION OF THIS PRODUCT ARE EXCLUDED BOTH FOR PROPERTY DAMAGE AND PERSONAL INJURY TO THE EXTENT LEGALLY PERMITTED.

ADDITIONAL LEGAL RIGHTS: This warranty provides specific legal rights. You may have other or different rights in your state or country. **QUESTIONS OR COMMENTS:** If you experience product difficulties or have questions or comments, you may contact our Consumer Relations department as follows: Phone: 877-875-2557 (toll-free, North America only) or 909-594-7771 x560 (Monday-Friday, 7:30AM-4:30PM Pacific/GMT -8). Mail: JAKKS Consumer Relations, 21749 Baker Parkway, Walnut, California USA 91789. Email: consumers@jakks.com

WHEN WRITING TO US: Please include: 1) product name; 2) item number; 3) purchase date; 4) description of the problem being experienced; and 5) your name, address and phone number. Additionally, if eligible under the warranty and so advised by JAKKS Consumer Relations, also include the defective product and the ORIGINAL dated sales receipt evidencing product purchase. Please retain a copy of your receipt.

BATTERY SAFETY INFORMATION

Requires 8 AA (LR6) alkaline batteries. 4 in Headset (included), 4 in Car (Not Included).

WARNING! Battery acid leakage can cause personal injury and cause damage to the product and surrounding property. If battery leakage occurs, thoroughly wash any affected skin, making sure to keep battery acid away from eyes, ears, nose and mouth. Immediately wash any clothing or other surface that comes in contact with leaked battery acid. Leaking batteries may make "popping" sounds.

- NEVER mix old and new batteries or different brands of batteries.
- NEVER attempt to charge non-rechargeable batteries.
- NEVER mix alkaline, non-standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- ALWAYS remove exhausted batteries from toy.
- NEVER dispose of batteries in fire, as they may leak and explode.
- ALWAYS have an adult install batteries consistent with installation instructions.
- NEVER use rechargeable batteries with this product.
- ONLY use batteries specified by manufacturer.

Ages 5+

INSTRUCTIONS

INSTALLING BATTERIES

1 Screw antenna onto top of right earhole as shown below.

2 Loosen screw in battery door with a philips screwdriver. Take out battery door. Replace batteries in headphones with 4 fresh AA alkaline batteries. Replace door and tighten screw.

3 Loosen screw in battery door underneath race car chassis with a philips screwdriver. Take out battery door. Replace batteries with 4 fresh AA alkaline batteries. Replace door and tighten screw.

GETTING STARTED

1 Adjust headphone fit by moving each earpiece up or down along the frame, according to the comfort / size of your head.

2 Adjust microphone to where it is approximately 1-2 inches from mouth.

3 Slide switch underneath the chassis from the "OFF" to the "ON" position.

4 While wearing the headset, turn on the volume dial underneath earphone and adjust volume to a comfortable audio level, as Dale Earnhardt Jr.® is talking inside your earphones.

PLAYING WITH YOUR R/C VEHICLE

Now you're ready to race! As mentioned previously, Junior will tell you he's also ready. Once you hear him, you can give the car one of nine (9) different race movements, via voice commands.

1 Press the button on the side of the headphone that also has the microphone.

2 Say the command!

IMPORTANT!
It is important to use the correct command and to speak clearly at all times. Otherwise the car will perform a different command or nothing at all.

VOICE COMMANDS

Below are the available commands. If command is spoken clearly, the car will perform the maneuver and you will hear responses from the car.

1 "Let's go!"

Illustration

2 "Pit stop."

Illustration

3 "Pace lap."

Illustration

4 "Turn left."

Illustration

5 "Turn right."

Illustration

6 "Victory lap."

Illustration

7 "Back left."

Illustration

8 "Back right."

Illustration

9 "Finish Line!"

Illustration

TROUBLESHOOTING

1 After each voice command is spoken, wait 1 second before you give the next command.

2 Make sure you are playing with your R/C headset and car in a fairly quiet environment.

3 Make sure your microphone is about 1-2 inches from mouth. The microphone can pick up unnecessary noises and deem them part of a voice command, thus the car thinks it is a bad command and does not respond.

4 Speak clearly and distinctly. **Don't shout!**

5 If the car doesn't respond in the way you expect, try giving the command again.

6 Play with your R/C car in a very open area without obstacles like stairs or water puddles, or foot traffic.

7 Do not play with R/C car on any uneven surface such as sand or carpet, as it will decrease the performance. Always play on asphalt, or any other smooth surface.

8 If the car is acting erratically, such as slow movement, not responding quickly, wide turns, etc. or if the audio in the headphones doesn't sound clear, try turning the car and/or earphones OFF and ON again. If problems still persist, change the batteries.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
