

Mini Convertible

MOTORIZED WORKING CONVERTIBLE

AGES
4+

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.

BATTERY INSTALLATION

Instruction Sheet

REMOTE CONTROLLER

1. After removing vehicle from package, remove "try me" wire and discard.
2. Adults: Replace the batteries in the vehicle and install the batteries in the remote controller for optimum performance. Unscrew the batteries doors to get access to batteries.

VEHICLE

- Install 2 x "AAA" alkaline(1.5V) batteries with polarity as shown inside battery compartment.

- Replace 3 X "AAA" alkaline(1.5V) batteries with polarity as shown inside battery compartment.
- Push the power switch on vehicle to "ON" position.

CAUTION WHEN WORKING WITH BATTERIES

1. Replace the whole set of batteries at one time, taking care not to mix or use old and new batteries of different types.
2. Do not use non-rechargeable batteries with rechargeable batteries or rechargeable batteries of different capacities.
3. Take care to fit your batteries correctly, observing the + and - marks on the battery and matching the battery compartment markings.
4. Remove all batteries from the Remote Controller and the Vehicle when not in use for extended period of time.
5. Do not dispose batteries in fire. Batteries may explode or leak.

OPERATING THE VEHICLE AND THE REMOTE CONTROLLER

1. Switch Vehicle to ON position.
2. Operate your Vehicle in a dry, clean, flat open area, do not drive in the street. Avoid sand and water.
3. If Vehicle does not respond to Remote Controller, try to operate the Vehicle at a closer range. The maximum range for the Vehicle should be between 16 to 19 feet (5 to 6 meters), when operating outdoors.
4. For best results, hold Transmitter antenna up, not pointed down toward R/C Vehicle.
5. Turn Vehicle switches to OFF position when not in use.

Remote Unit Controls

RADIO INTERFERENCE:

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

When your R/C Vehicle runs erratically or loss of control, the problem is due to being in an area near High Tension Wires, Telephone Poles with High-Voltage Transformers, CB Radios, even certain Building or other R/C Vehicle running close by on the same Frequency as yours, You may have to choose different location.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

WARNING:

FCC Regulations state that changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

If you have any questions or comments, our Customer Service Representatives will be glad to help you.
