FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for and radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

INSTALLING BATTERIES:

To properly install batteries into your Mouse, please follow the instructions below:

1. Pull the Battery Compartment Release Latch at the bottom of your Mouse and remove the Battery Compartment Cover from your Mouse.

Note: Remove the Battery Compartment Cover from your Mouse gently, otherwise the Nano Receiver stowed inside the battery bay will pop out.

2. Install two AAA Batteries into your Mouse following the battery orientation guide in the battery bay, make sure the guide is under the batteries so that you can remove the batteries out of the battery bay easily, then replace the Battery Compartment Cover back onto your Mouse until it securely locks.

Note: The LED at the bottom of your mouse will flash one time after Batteries have been installed into your Mouse properly, the LED will remain on when the Nano Receiver is connected to your computer.

Note: To save power, please press the button at the bottom of your mouse for three seconds, the LED will turn off and your mouse will be put into sleep mode. To restart your mouse, press the button at the bottom of your mouse again.

INSTALLATION:

For All Operating Systems

- 1. Make sure you have successfully installed the Batteries into your Mouse, refer to the **Installing Batteries** section in this manual if necessary.
- 2. Turn on your computer, plug the enclosed Nano Receiver into an available USB port on your computer. (**TIP**: If you are not able to find an available USB port on your computer, please refer to the user's manual of your computer for more detail.

3. Your wireless optical mouse is now ready to be used.

CHANGING THE SPEED OF YOUR MOUSE:

To adjust the speed of the cursor or the scroll button features on your computer, please follow the instructions below:

NOTE: The screenshots show in this section are for demonstration only and your screen may look slightly different but with similar options.

For Windows[®]

Open the "**Control Panel**", and double-click the "**Mouse**" icon to open the mouse properties screen, and then select the "**Pointer Options**". After you have made your changes; select "**Apply**", and then "**OK**".

For Mac[®]

Open the **"System Preferences**". At the **System Preferences** screen, click the **"Keyboard & Mouse**" icon to open the **Keyboard & Mouse** screen, and then select the **"Mouse**" tab and make your changes.
