DO NOT PRINT PINK DIELINE PAPER SIZE: A5 (148mm x 210mm)

Instruction Manual

PLEASE READ CAREFULLY BEFORE OPERATING THIS EQUIPTMENT. KEEP IT IN A SAFE PLACE FOR FUTURE REFERENCE.

IMPORTANT SAFETY INSTRUCTIONS

RISK OF ELECTRIC SHOCK

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR BACK). NO USER SERVICEABLE PART INSIDE, REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

DANGEROUS VOLTAGE: The lighting flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

ATTENTION: The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.

WARNING: USE UNDER SUPERVISION OF AN ADULT DUE TO LONG CORD This unit has a long cord that can be easily tripped on or pulled on, causing injury. Please make sure it is arranged so that it will not drape over a tabletop, etc. Where it can be pulled on by children or tripped over accidentally.

FCC NOTICE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1) This device may not cause harmful interference, and

2) This device must accept any interference received, including interference that may cause undesired operation. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

To assure continued operation, follow the attached installation instructions and use only shield cables when connecting to other devices. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

SAFETY INSTRUCTIONS:

Before using the unit, be sure to read all operating instruction carefully, please note that these are general precautions and may not pertain to your unit. For example, this unit may not have the capability to be connected to an outdoor antenna.

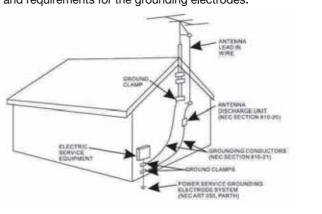

- Read these instructions All the safety and operating instructions should be read before the appliance is
- Keep these instructions
- The safety and operating instructions should be kept for future reference.
- All warnings on the appliance and in the operating instructions should be adhered to. Follow all instructions
- All operation and use instructions should be followed.
- Do not use this apparatus near water The appliance should not be used near water; for example, near a bath tub,
- washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool. Clean only with dry cloth
- he appliance should be cleaned only as recommended by the manufacturer. Do not block any ventilation openings. Install in accordance with the
- manufacturer's instructions. Slots and openings in the cabinet and in the back or bottom are provided for ventilation, to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or similar surface. This product should never be placed near or over a radiator or heat source. This product should not be placed in a built-in installation, such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to. Do not install near any heat sources such as radiators, heat registers, stoves,
- or other apparatus (including amplifiers) that produce heat. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type
- plug has two blades and a third grounding prong. The wide or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10. Product the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 1. Only use attachments / accessories specified by the manufacturer. 12. Use only with a cart, stand, tripod, bracket, or table specified by the
- manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over. An appliance and cart combination should

- be moved with care. Quick stop, excessive force and uneven surfaces may cause the appliance and cart combination to overturn.
- 13. Unplug this apparatus during lightning storms or when unused for long periods of time. To protect your product from a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to
- lightning and power-line surges. 14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15. Power source

This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home. consult your appliance dealer or local power company. For products intended to operate from battery power, or other source, refer to the operation instructions.

- An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be
- taken to keep from touching such power lines or circuits as contact with them might 17. Overloading
- Do not overload wall outlets and extension cords as this can result in a risk of fire or
- Object and liquid entry Never push objects of any kind into the product through openings as they may touch dangerous voltage points or short out parts that could result in fire or electric shock. Never spill or spray any type of liquid on the product.
- 19. Outdoor antenna grounding If an outside antenna is connected to the product, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. Section 810 of the National Electric Code ANSI/ NFPA 70 provides information with respect to proper grounding of the mast and supporting structure. grounding of the lead- in wire to an antenna discharge product, size of grounding conductors, location of antenna- discharge product, connection to grounding electrodes and requirements for the grounding electrodes.

When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer or those that have the same characteristics as the original parts. Unauthorized substitutions may result in fire or electric shock or other hazards.

- 22. Safety check Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper
- operating condition
- 23. Wall or ceiling mounting The product should be mounted to a wall or ceiling only as recommended by the
- 24. Damage requiring service Unplug this product from the wall outlet and refer service to qualified service
- personnel under the following conditions. a) When the power- supply cord or plug is damaged.
- b) If liquid has been spilled or objects have fallen into the product.
- c) If the product has been exposed to rain or water. d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions, as an adjustment of other controls may result in damage and will require extensive work by a qualified technician to restore the product to its
- e) If the product has been dropped or the cabinet has been damaged. f) When the product exhibits a distinct change in performance- this indicates a
- need for service. 25. Note to CATV system installer
- This reminder is provided to call the CATV system installer's attention to Article 820- 40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

NOTE: Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way such as the following: the power-supply cord or plug has been damaged, liquid has been spilled into unit, the unit has been exposed to rain or moisture, the unit has been dropped or the unit does not operate normally.

OPERATIONS

POWER SOURCE:

Insert the adapter plug into a conveniently located AC outlet with 100-240V~60/50Hz.

WARNING: This unit has a long cord that can easily be tripped on or pulled on, causing injury. Please make sure it is arranged so it will not drape over a tabletop, etc. where it can be pulled on by children or tripped over accidentally.

RADIO MODE:

. Press the STANDBY button to power on the unit. 2. Press the SOURCE button until the SOURCE INDICATOR turns green indicating

"FM Mode"

Automatic Tuning (FM SCAN) Press and hold the TUNE + or TUNE - buttons to search up and down through the autoscan function. The radio will stop automatically when the next station is reached.

Press the TUNE + or TUNE - button until you reach your desired station. Adjust the tuning so that the station plays clearly.

NOTE: If there is background noise when playing, the signal may be weak. Improve the signal strength by adjusting the position of the FM antenna or moving the unit to

To store the preset stations automatically: Press and hold the PLAY / PAUSE / FM SCAN button to scan all the available stations and store them automatically into the memory.

To switch through the preset stations: Press the PLAY / PAUSE / FM SCAN button to switch through the automatically saved stations.

BLUETOOTH MODE:

- 1. Power on the unit and press the SOURCE button until the SOURCE INDICATOR blinks blue, indicating it is in pairing mode.
- 2. Activate Bluetooth function on your external Bluetooth device and select "ITSB-100" from your device's Bluetooth settings menu. 3. Once paired, the unit will sound and audible tone, and the indicator will stop blinking.
- 4. If you want to connect a different Bluetooth device, press the PAIR button to disconnect the currently paired device. Follow the steps above to pair a different device. NOTE: The unit will automatically be connected with the last paired and connected device once both of them are in Bluetooth mode and in Bluetooth range.

Press the PLAY / PAUSE / FM SCAN to play and/or pause your music. Press the TUNE - or TUNE + button to skip to previous or next track.

AUX-IN MODE:

1. Power on the unit and press the SOURCE button until the SOURCE INDICATOR's light turns purple, indicating the unit is now in AUX-IN mode.

2. Securely connect one end of the Aux-In Cable into the AUX-IN JACK, and the other end into your external device's headphone jack. To start playback, play music through

the unit's control panel when using AUX-IN Mode.

IC Caution.

TROUBLESHOOTING GUIDE

If you are having problems with your unit, please review the guide below.

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
No power	Power plug is not plugged into a wall outlet.	Plug into the wall outlet properly.
	The unit is in standby mode.	Press the Standby Button to turn on the unit.
No sound	Volume is set to minimum.	Increase volume level by pressing the VOL + button.
	The connected device is not in playing mode.	Play the music from the connected device.
	Sound output of the connected device is set too low.	Increase the volume level of the connected device.
	Input source is incorrect.	Press the SOURCE button until unit is in the correct mode.
Sound distortion	Volume level is too high.	Reduce the volume level by pressing the VOL - button.
	Volume level of the connected device is set too high.	Reduce the volume level of the connected device.
Weak radio reception		Extend the FM antenna wire on the back of the unit and adjust it to get better reception.
Bluetooth not pairing	The external device is too far from the unit.	Bring the external Bluetooth device closer to the unit.
	Failed pairing and connection.	Turn unit off and on again. Then try to re-pair your device.
