B. The Screen Cursor Does not Track Well

If your Tabletop is highly reflective surface, such as glass or mirrors, please try to use normal mouse pad or different tabletop surface.

## 5. Dear Customer

Thank you for purchasing the KTEC product which has been designed and manufactured to the world-leading level of quality.

If something should go wrong with this product, KTEC guarantees free of charge labor and replacement parts irrespective of the country where it is repaired during a period of 12 months from the date of purchase. This international KTEC Guarantee complements the existing national guarantee obligations to you of dealers and KTEC in the country of purchase and does not affect your statutory rights as customer.

The KTEC guarantee applies provided the product is handled properly for its intended use, in accordance with its operating instructions and upon presentation of the original invoice or cash receipt, including the date of purchase, dealer's name and model and production number of the product.

The KTEC Guarantee may not apply if:

- the documents have been altered in anyway or made illegible;
- the model or production number on the product has been altered, deleted, removed or made illegible;
- repairs or product modifications and alterations have been executed by unauthorized service organizations or persons;
- damage is caused by accidents including but not limited to lighting, water or fire, misuse or neglect.

Please note that the product is not defective under this guarantee in the case where modifications become necessary in order for the product to comply with local or national technical standards which apply in countries for which the product was not originally designed and/or manufactured. Therefore always check whether a product can be used in a specific country.

In case your KTEC product is not working correctly or is defective, please contact your KTEC dealer. In the event you require service which in another country a dealer address can be given to you by the closest business branch of KTEC Electro-Mechanics, the telephone and fax

number of which can be found in the relevant part of this booklet.

In order to avoid unnecessary inconvenience, we advise you to read the operating instructions carefully before contacting your dealer. If you have questions your dealer cannot answer or any related questions please contact us by e-mail through [www.iktec.co.kr](http://www.iktec.co.kr).

## **CE**

This device complies with CE rule

## **FCC Information to the user**

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, with can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Warning**

Changes or modifications not expressly approved by the KTEC Co., Ltd. for compliance could void the user's authority to operate the equipment.
