

APPENDIX H
: USER'S MANUAL

SOYO

OWNER'S MANUAL

DIGITAL TV

MT-SYKIT32E1AB

**Please read this manual carefully before operating your set.
Retain it for future reference.**

WARNING / CAUTION

WARNING/CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING/CAUTION

TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

NOTE TO CABLE/TV INSTALLER

This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

CAUTION

Do not attempt to modify this product in any way without written authorization from the dealer. Unauthorized modification could void the user’s authority to operate this product.

WARNING / CAUTION

To prevent fire or shock hazards, do not expose this product to rain or moisture.

FCC NOTICE

Class B digital device

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

On Disposal

- a. The fluorescent lamp used in this product contains a small amount of mercury.
- b. Do not dispose of this product with general household waste.
- c. Disposal of this product must be carried out in accordance to the regulations of your local authority.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings.
Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Do not expose this apparatus to dripping or splashing and ensure that no objects filled with liquids, such as vases, are placed on the apparatus.

Important Safety Instructions

16. To completely disconnect this apparatus from the AC Mains, disconnect the mains plug from the AC receptacle.
17. The mains plug of the power supply cord shall remain readily operable.
18. This apparatus shall be connected to a Mains socket outlet with a protective earthing connection.

NOTE

Prolonged use of headphones at a high volume may cause health damage on your ears.

The lightning flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage " within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

Accessories

Supplied Accessories

Ensure that the following accessories are included with your product.

If an accessory is missing, please contact our support department at (866) 280-1998 or contact us through our website located at www.soyo.com/content/Product_Support/147

User must use shielded signal interface cables with ferrite cores to maintain standard compliance for the product.

1. Remote
2. Batteries
3. Power Cord
4. Owner's Manual
5. 6-bolts for stand assembly

Installing Batteries

1

Open the battery cover on the back side.

2

Insert two batteries in correct polarity, match (+ with +), and match (- with -).
Don't mix old batteries with new batteries.

3

Close the battery cover.

Controls And Connectors

Front Panel

- 1. VOL + / VOL -**
Adjusts menu setting.
Adjusts sound level.
- 2. CH + / CH -**
Select a channel.
- 3. TV/AV**
Selects the **TV**, **AV**, **S-Video**, **YPbPr**, **VGA** or **HDMI** mode.
- 4. MENU**
Display on screen menus.
- 5. POWER**
Switches the set on or off.
- 6. Power Indicator**
Illuminates in bright blue when the TV is in standby mode.
Illuminates in dark blue when the TV is switched on.
Remote control sensor
Accepts the IR signal of remote controller.

NOTE

Here shown may be somewhat different from your set.

Controls And Connectors

Rear Panel

1. HDMI/DVI IN

Connect to the HDMI jack for device with HDMI output. (This input can also be used as a DVI connection with an HDMI to DVI adaptor and separate analog audio inputs.)

2. RGB IN (PC)

Connect to the video output jack on your PC.

3. COMPONENT IN

Video/Audio inputs for Component.

4. S-VIDEO IN

Connect the output of an S-VIDEO device to the S-VIDEO input.

5. AV IN

Connect RCA cable to an appropriate external A/V device such as VCR, DVD or Camcorder.

6. AUDIO IN (RGB/DVI)

Connect to the audio output jack on your PC.

7. ANTENNA/CABLE IN

Connect to your antenna or cable box for TV signal.

8. DIGITAL AUDIO OUT(COAXIAL)

Connect digital audio to various types of equipment.

9. AC IN

This TV operates on an AC power.

Controls And Connectors

Remote Control

- All the functions can be controlled with the remote control handset.
- Some functions can also be adjusted with the buttons on the side panel of the set.
- Before using remote control handset, please install the batteries.

1. POWER

Switches the set on or off.

2. SOURCE

Selects the TV, AV, S-Video, YPbPr, VGA or HDMI mode.

3. NUMBER BUTTONS

Selects channel numbers.

4. Hyphen(—)

Press to select DTV channels.

For example, to select channel '10-1', press '10' then press '—' and '1'.

5. ↶

Switch to the previous channel number.

6. VOL+ / VOL-

Adjusts sound level.

7. CH+ / CH-

Select a channel.

8. EXIT

Clear all on-screen menus and return to TV viewing from any menu.

9. Navigational Controls

Adjusts menu settings.

Selects menu item.

Accepts your selection.

Controls And Connectors

10. MENU

Display on screen menus.

11. MUTE

Switches the sound on or off.

12. →|PI←

Recalls your preferred picture setting.

13. →|SI←

Recalls your preferred sound setting.

14. SLEEP

Sets the sleep timer.

15. ZOOM

Selects your desired picture format.

16. CC

Select the Caption menu directly.

17. MTS

Select MTS sound : Mono, Stereo and SAP in Analog Channel.

Change the audio language in DTV Channel.

18. EPG

Displays the program guide.

19. DISPLAY

Shows the present screen information.

Installation

Stand Installation

1. Carefully place the product screen side down on a cushioned surface that will protect the product and screen from damage.

2. Assemble the product stand with the product as shown.

3. Install the 5 bolts securely, in the back of the product in the holes provided.

Installation

Wall mount Installation

The set can be installed on a wall as shown above. For proper ventilation, allow a clearance of 4 inches on all four sides from the wall. Detailed instructions are available from your dealer, refer to the optional Wall Mounting Bracket Installation and Setup Guide. (Wall Mount Sold Separately)

Desktop Pedestal Installation

The set can be mounted on a desk as shown above. For proper ventilation, allow a clearance of 4 inches on each side from the wall. Detailed instructions are available from your dealer, refer to the optional Desktop Stand Installation and Setup Guide.

Connections

Antenna Connection

Multi-family Dwellings/ Apartments
(Connect to wall antenna socket)

Wall Antenna Socket

RF Coaxial Wire (75 ohm)

Turn clockwise to tighten.

Outdoor Antenna

Single-family Dwellings /Houses
(Connect to wall jack for outdoor antenna)

Be careful not to bend the bronze wire when connecting to an antenna port.

* Separately purchase a RF Coaxial Wire(75 ohm)

NOTE

- To improve the picture quality in a poor signal area, please purchase a signal amplifier and install properly.
- If the antenna is not installed properly, contact your dealer for assistance.

Connections

VCR Connection

- To avoid picture noise (interference), leave an adequate distance between the TV and the VCR.

■ When connecting with an antenna

1. Connect the Antenna out socket of the VCR to the Antenna input socket on the TV.
2. Press the **Power** button on the VCR and match the appropriate input selection between the TV and VCR for viewing.

■ When connecting with a RCA cable

1. Connect the AUDIO/VIDEO jacks between TV and VCR. Match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red)
2. Insert a video tape into the VCR and press **PLAY** on the VCR.
3. Select the **AV** input source with using the **SOURCE** button on the remote control.
4. Refer to the VCR manual for operating instructions.

Connections

■ When connecting with a S-Video cable

1. Connect the **S-VIDEO** output of the VCR to the **S-VIDEO** input on the set. The picture quality is improved; compared to normal composite (RCA cable) input.
2. Connect the audio outputs of the VCR to the **AV AUDIO L, R** input jacks on the set.
3. Insert a video tape into the VCR and press **PLAY** on the VCR.
4. Select the **S-Video** input source with using the **SOURCE** button on the remote control.
5. Refer to the VCR manual for operating instructions.

Connections

DVD Connection

■ When connecting with a S-Video cable

1. Connect the **S-VIDEO** output of the DVD to the **S-VIDEO** input on the set.
2. Connect the audio outputs of the DVD to the **AV AUDIO L, R** input jacks on the set.
3. Turn on the DVD player, insert a DVD.
4. Select **S-Video** input source with using the **SOURCE** button on the remote control.
5. Refer to the DVD player's manual for operating instructions.

■ When connecting with a Component cable

1. Connect the video outputs (Y, PB, PR) of the DVD to the **COMPONENT VIDEO(Y, Pb, Pr)** jacks on the set.
2. Connect the audio outputs of the DVD to the **COMPONENT AUDIO L, R** jacks on the set.
3. Turn on the DVD player, insert a DVD.
4. Select **YPbPr** source with using the **SOURCE** button on the remote control.
5. Refer to the DVD player's manual for operating instructions.

Connections

■ When connecting with a HDMI cable

Back panel of the set

1. Connect the **HDMI** output of the DVD to the **HDMI/DVI IN** jack on the set.
2. Select **HDMI** input source with using the **SOURCE** button on the remote control.
3. Refer to the DVD player's manual for operating instructions.

Connections

HDSTB Connection

- This TV can receive Digital Over-the-air/Cable signals without an external digital set-top box. However, if you do receive Digital signals from a digital set-top box or other digital external device, refer to the figure as shown below.

■ When connecting with a D-Sub 15 pin cable

1. Connect the **RGB** output of the digital set-top box to the **RGB IN (PC)** jack on the set.
2. Connect the audio outputs of the set-top box to the **AUDIO IN (RGB/DVI)** jack on the set.
3. Turn on the digital set-top box.
4. Select **VGA** input source with using the **SOURCE** button on the remote control.
5. Refer to the digital set-top box manual for operating instructions.

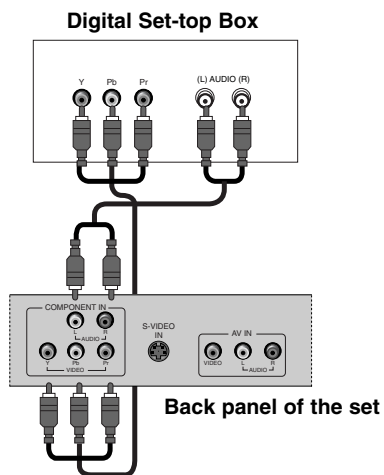

■ When connecting with a HDMI cable

1. Connect the **HDMI** output of the digital set-top box to the **HDMI/DVI IN** jack on the set.
2. Turn on the digital set-top box.
3. Select **HDMI** input source with using the **SOURCE** button on the remote control.
4. Refer to the digital set-top box manual for operating instructions.

Connections

■ When connecting with a Component cable

1. Connect the video outputs (Y, PB, PR) of the digital set-top box to the **COMPONENT VIDEO(Y, Pb, Pr)** jacks on the set.
2. Connect the audio outputs of the digital set-top box to the **COMPONENT AUDIO L, R** jacks on the set.
3. Turn on the digital set-top box.
4. Select **YPbPr** source with using the **SOURCE** button on the remote control.
5. Refer to the digital set-top box manual for operating instructions.

■ When connecting with a HDMI to DVI cable

1. Connect the DVI output of the digital set-top box to the **HDMI/DVI IN** jack on the set.
2. Connect the audio outputs of the set-top box to the **AUDIO IN (RGB/DVI)** jack on the set.
3. Turn on the digital set-top box.
4. Select **HDMI** input source with using the **SOURCE** button on the remote control.
5. Refer to the digital set-top box manual for operating instructions.

Connections

External A/V Source

1. Connect the AUDIO/VIDEO jacks between TV and external equipment. Match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red)
2. Select the **AV** input source with using the **SOURCE** button on the remote control.
3. Operate the corresponding external equipment.
4. Refer to the external equipment manual for operating instructions.

Digital Audio Out

1. Connect one end of the coaxial cable to the TV's DIGITAL AUDIO OUT(COAXIAL) port.
2. Connect the other end of the coaxial cable to the digital audio input on the audio equipment.
3. Refer to the external audio equipment manual for operation.

Connections

PC Connection

■ When connecting with a D-Sub 15 pin cable

1. Connect the **RGB** output of the PC to the **RGB IN(PC)** jack on the set.
2. Connect the PC audio outputs to the **AUDIO IN (RGB/DVI)** jack on the set.
3. Turn on the PC and the set.
4. Select **VGA** input source with using the **SOURCE** button on the remote control.

■ When connecting with a HDMI to DVI cable

1. Connect the DVI output of the PC to the **HDMI/DVI IN** jack on the set.
2. Connect the PC audio outputs to the **AUDIO IN (RGB/DVI)** jack on the set.
3. Turn on the PC and the set.
4. Select **HDMI** input source with using the **SOURCE** button on the remote control.

Connections

Resolution

Resolution	Horizontal Frequency (kHz)	Vertical Frequency (Hz)
640 x 480	31.47	59.94
800 x 600	35.16	56.25
	37.88	60.32
1024 x 768	48.36	60.00

NOTE -----

- a. The synchronization input form is separate.
 - b. If the resolution is not supported, 'Not Support!' message will be displayed.
-

Basic Operation

Turning On or Off

Standby Setup: The AC power cord must be connected to have the TV in standby mode and ready to be turned on. Press the **ON/OFF** button on the side panel of the TV to go into standby mode.

1. If the TV is in standby mode, press the **POWER** button on the remote or the TV itself to turn the TV on.
2. Press the **POWER** button again on the remote controller or the TV itself to turn the TV off.

Channel Selection

You can select a channel number with the **CH+** / **CH-** button or **NUMBER** buttons.

Volume Adjustment

Press the **VOL+** / **VOL-** button to adjust the sound level.

Sound Mute

Press the **MUTE** button. The sound is switched off and the mute display appears. To cancel mute mode, press the **MUTE** or **VOL+** / **VOL-** button again.

Quick View

Press the **↔** button to view the last channel you were watching.

Basic Operation

Input Selection

1. Press the **SOURCE** button to change the input mode.
2. Press the **Down** or **Up** button to select your desired mode.
3. Press the **OK** button to change your selected mode.

Language Selection

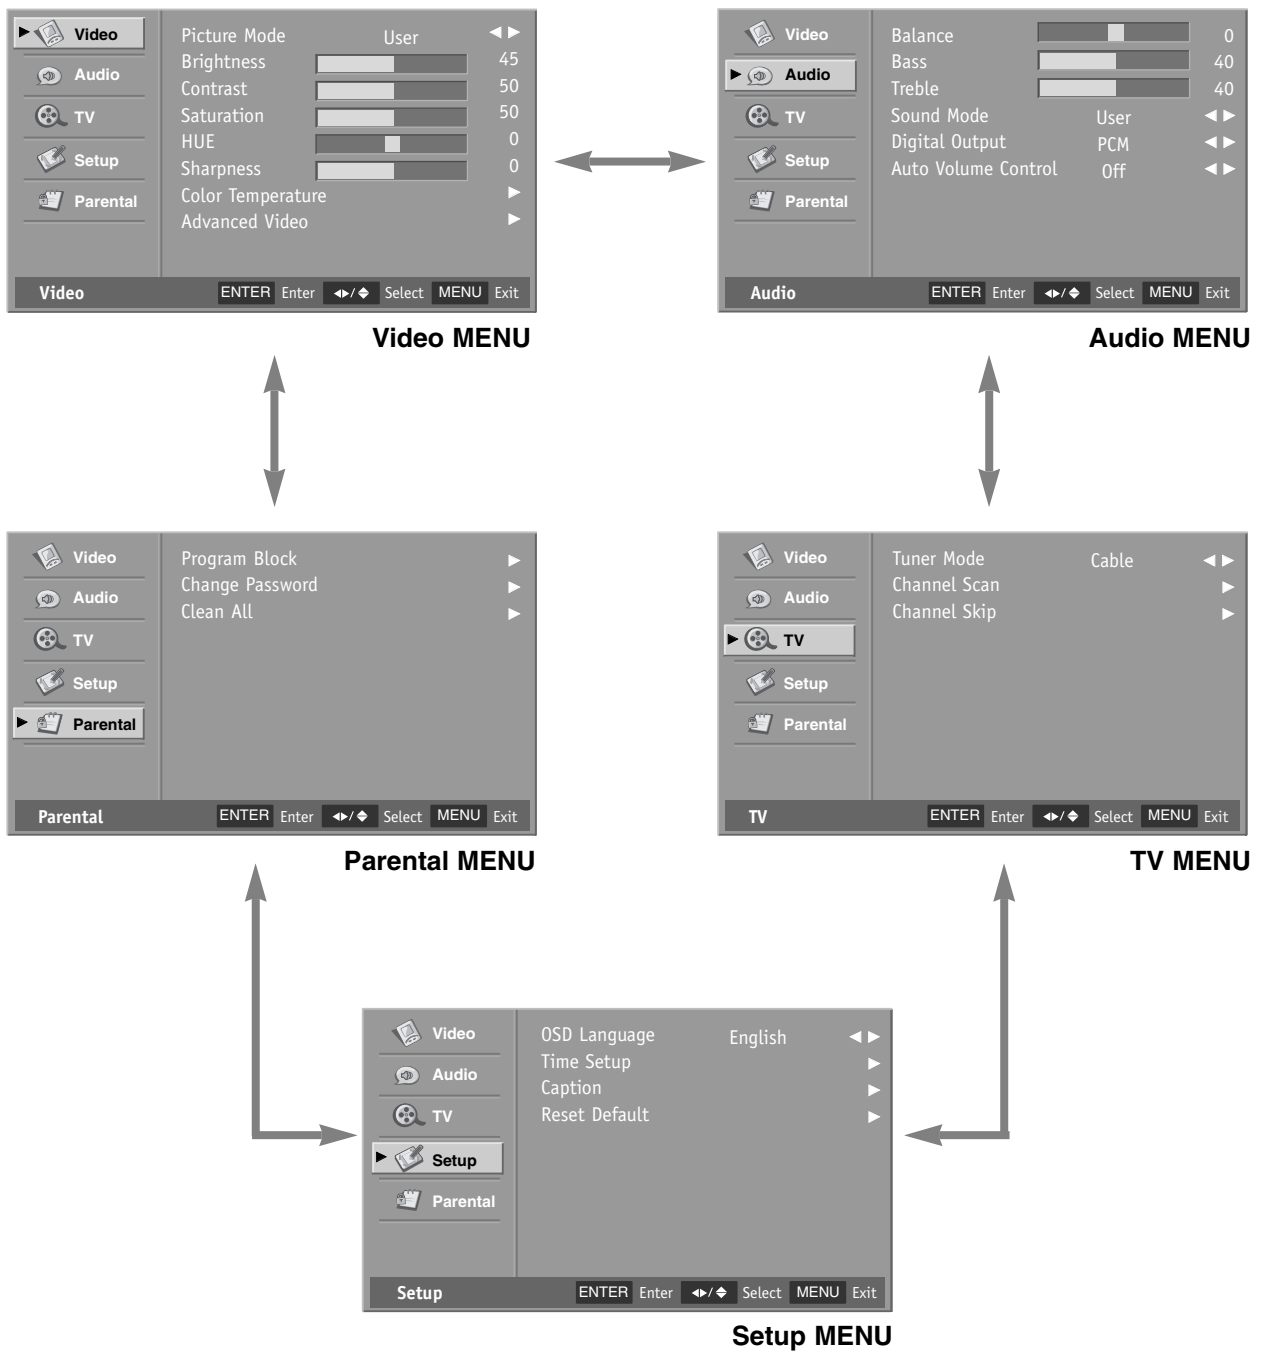

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Setup**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **OSD Language**.
3. Press the **Left** or **Right** button to select your desired language.
4. The on screen menu will then appear in the selected language.

On Screen Menus

Your TV's OSD(On Screen Display) may differ slightly from what is shown in this manual.

1. Press the **MENU** button and then use **Down** or **Up** button to select each menu.
2. Press the **OK** button and then **Down, Up, Left** and **Right** buttons to navigate to the available menus.

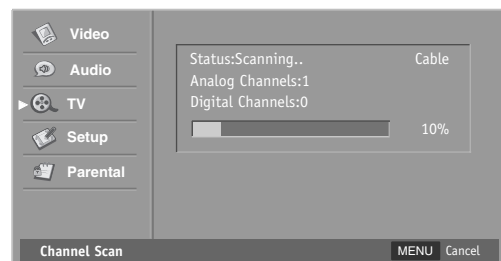

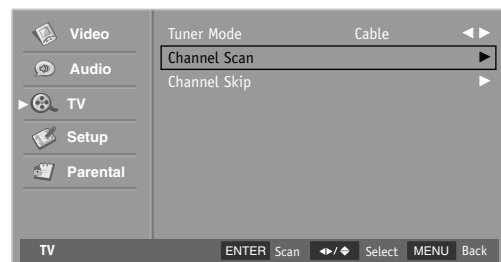

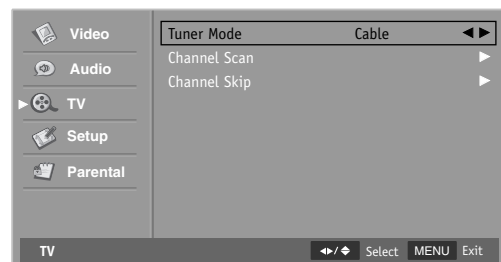

Setting up TV Channel

Auto Scan

Automatically finds all channels available through the Antenna or Cable and stores them in memory on the channel list.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **TV**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Tuner Mode**.
3. Press the **Left** or **Right** button to select **Antenna** or **Cable**.
4. Press the **Down** or **Up** button to select **Channel Scan**.
5. Press the **OK** button to start auto search.
The TV will begin memorizing all of the available channels.
6. Press the **MENU** button at any time to interrupt the memorization process.

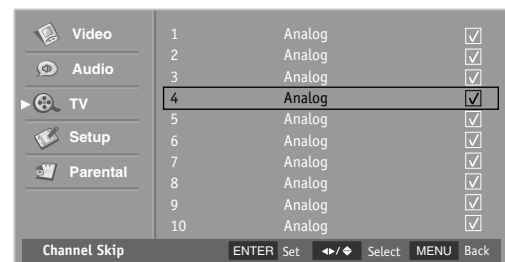

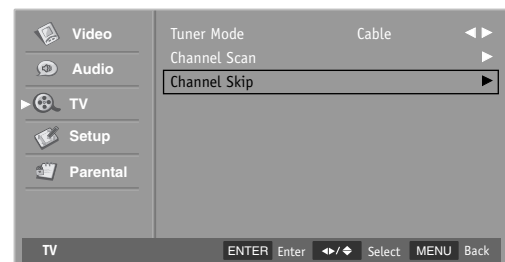

Setting up TV Channel

Add/Delete Channel

You can manually store or remove channels in whatever order you desire.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **TV**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Channel Skip**.
3. Press the **OK** button and then press the **Down** or **Up** button to select channel you want to add or delete.
If you want to skip the selected channel, press the **OK** button.
4. Save the other channels in the same method.
5. Press the **MENU** button to return to the previous menu.

Setting up TV Channel

EPG(Electronic Program Guide)

Displays Broadcasting guide of received channel.

1. Press the **EPG** button to display the Electronic Program Guide.
2. Press the **Left** or **Right** button to change channel and display the broadcasting guide at the bottom of the screen.

Picture Controls

Auto Picture Controls

Picture Mode adjusts the set for the best picture appearance. Select the preset value in the Picture Mode menu.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Picture Mode**.
3. Press the **Left** or **Right** button to select **Soft**, **Standard**, **Vivid** or **User**.
4. Press the **MENU** button to return to the previous menu.

Soft

Select this option to display with a soft image.

Standard

The most general and natural screen display status.

Vivid

Select this option to display with a sharp image.

User

Select this option to use the user-defined setting.

NOTE

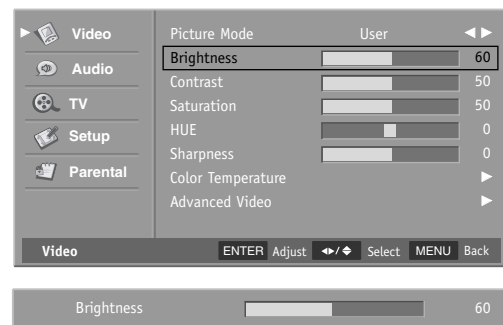

- If you want to select **Picture Mode** directly, press the **PI** button.
- Every time you press the button, it will switch between **Soft**, **Standard**, **Vivid** or **User**.
- When you adjust **Brightness**, **Contrast**, **Saturation**, **HUE** or **Sharpness**, **Picture Mode** changes to **User**.

Picture Controls

Manual Picture Controls

You can adjust picture **Brightness**, **Contrast**, **Saturation**, **HUE** and **Sharpness** to the levels you prefer.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select desired picture option. (**Brightness**, **Contrast**, **Saturation**, **HUE**, **Sharpness**)
3. Press the **OK** button and then press the **Left** or **Right** button to make appropriate adjustments.
4. Press the **MENU** button to return to the previous menu.

Brightness

Increases or decreases amount of white in the your picture.

Contrast

Adjusts the difference between the light and dark levels in the picture.

Saturation

Adjusts intensity of all colors.

HUE

Adjusts the balance between red and green levels.

Sharpness

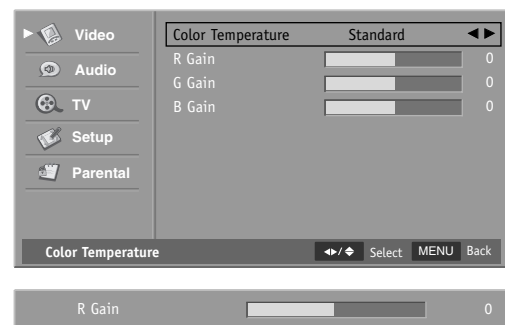

Adjusts the level of sharpness in the edges between the light and dark areas of the picture. The lower the level, the softer the image.

Picture Controls

Color Temperature

You can adjust to color temperature you prefer.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Color Temperature**.
3. Press the **OK** button and then press the **Left** or **Right** button to select **Cool**, **Standard**, **Warm** or **User**.
4. Press the **Down** or **Up** button to select desired color item.
5. Press the **OK** button and then press the **Left** or **Right** button to make appropriate adjustments.
6. Press the **MENU** button to return to the previous menu.

NOTE

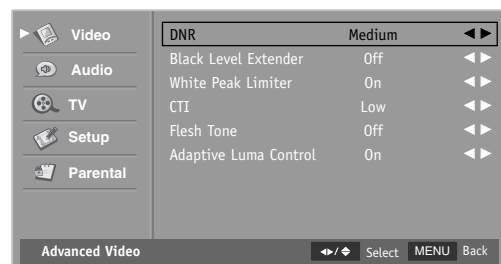

- To you adjust **R Gain**, **G Gain**, **B Gain**, or **Color Temperature** change to **Picture Mode** to **User**.

Advanced Video

Dynamic Noise Reduce

Use this feature to reduce picture artifacts caused by the digitizing of image motion content that may be present in the picture.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **DNR**.
4. Press the **Left** or **Right** button to select **Off**, **Low**, **Medium**, **Strong** or **Auto**.
5. Press the **MENU** button to return to the previous menu.

Off

Turns the screen noise reduction function off.

Low

Reduces screen noise at a low level.

Medium

Reduces screen noise at a medium level.

Strong

Reduces screen noise at a high level.

Auto

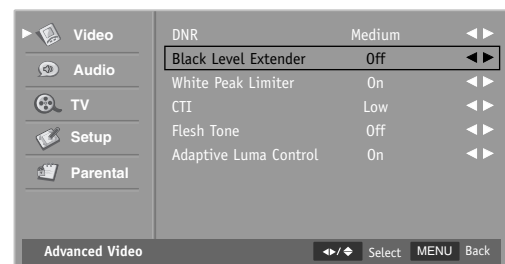

Adjusts automatically screen noise according to received signal.

Advanced Video

Black Level Extender

Use this feature to increase the picture reproduction performance in the dark areas of the picture.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **Black Level Extender**.
4. Press the **Left** or **Right** button to select **On** or **Off**.
5. Press the **MENU** button to return to the previous menu.

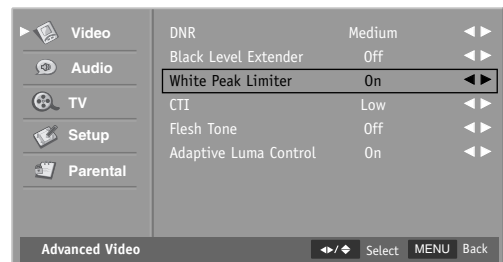

Advanced Video

White Peak Limiter

Use this feature to limit excessive amounts of white in bright areas of the picture, this is caused by a lower sync level from a channel being received from the antenna or cable.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **White Peak Limiter**.
4. Press the **Left** or **Right** button to select **On** or **Off**.
5. Press the **MENU** button to return to the previous menu.

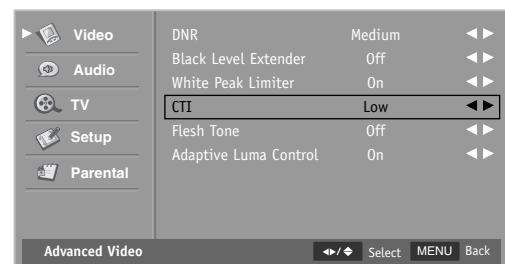

Advanced Video

CTI(Color Transient Intensity)

This feature can be used to reduce the time taken to transition from one color to another. The effect will be seen as sharpening the border between colors.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **CTI**.
4. Press the **Left** or **Right** button to select **Off**, **Low**, **Medium** or **Strong**.
5. Press the **MENU** button to return to the previous menu.

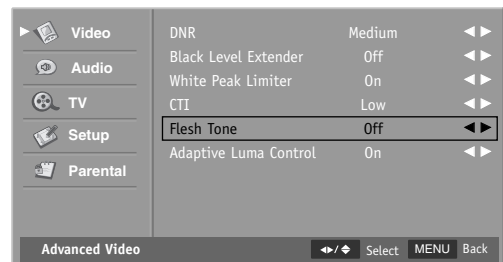

Advanced Video

Flesh Tone

In some cases, activation of this feature can result in a more pleasing production of sky and flesh color.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **Flesh Tone**.
4. Press the **Left** or **Right** button to select **On** or **Off**.
5. Press the **MENU** button to return to the previous menu.

NOTE

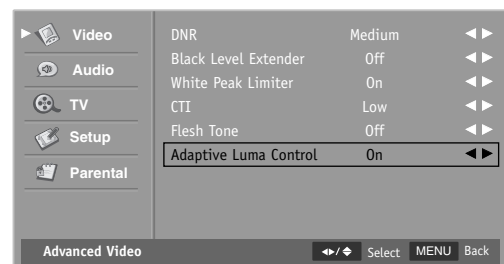

- **Flesh Tone** can not be adjusted in PC mode.

Advanced Video

Adaptive Luma Control

Large areas of darkness in a picture will result in a lower Average Picture Level (APL) and the overall picture will look too dark; activation of this feature will raise the APL to counteract this effect.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Video**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Advanced Video**.
3. Press the **OK** button and then press the **Down** or **Up** button to select **Adaptive Luma Control**.
4. Press the **Left** or **Right** button to select **On** or **Off**.
5. Press the **MENU** button to return to the previous menu.

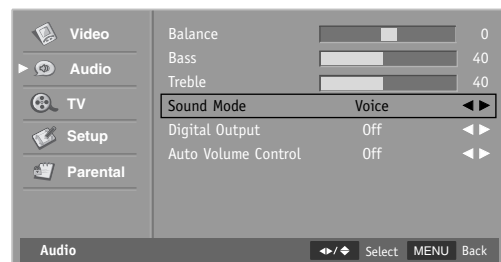

Sound Controls

Auto Sound Controls

This Sound Mode automatically adjusts the sound controls to the recommended settings.

1. Press the **MENU** button and then press the **Down** or **Up** button to select the **Audio**.
2. Press the **OK** button and then press the **Down** or **Up** button to select **Sound Mode**.
3. Press the **Left** or **Right** button to select **Voice**, **Concert**, **Jazz** or **User**.
4. Press the **MENU** button to return to the previous menu.

Voice

Select this option while watching a show that is mostly dialog.

Concert

Select this option to when listening to music to enjoy the original sound.

Jazz

Unusual sound from inside the set.	<ul style="list-style-type: none"> ● A change in ambient humidity or temperature may result in an unusual noise at the time of switching off or on of the set and does not indicate a fault with the set.

MEMO

SOYO End-User One Year Limited Warranty

SOYO, Inc. warrants all SOYO brand products you have purchased from SOYO or from a SOYO authorized reseller / retailer to be free from defects in materials and workmanship under normal use during the warranty period and subject to the terms and conditions set forth below, in the continental United States, Hawaii, Alaska and Canada. If the Product becomes defective during the warranty period SOYO will, at its option, repair or replace the product. SOYO may use new or reconditioned components or parts to repair the Product, or replace the Product with new or reconditioned Product of the same or functionally equivalent model.

SOYO FPD (Flat Panel Display) TV Standard Limited Warranty: Subject to the exclusions set forth below:

One year from the purchase date by the original retail purchaser (the "Customer") (expect for refurbished or Demo Products which have a separate warranty policy) parts and labor only.

Return Merchandise Authorization Shipping: The customer will pay shipping to SOYO and SOYO will pay shipping to the customer during the standard warranty period.

Dead on Arrival (DOA): Customer must contact SOYO within fifteen (15) days of purchase of any Product which is DOA. SOYO will issue a Return Merchandise Authorization (RMA) number to process the replacement. SOYO will replace the DOA unit with a brand new replacement, once the DOA unit has been received at SOYO. SOYO will cover the shipping cost both ways.

Shipping Damages: All shipping damages must be reported to SOYO within five (5) business days upon receipt of the Products. SOYO is not responsible for any shipping damages reported after such period.

Repaired or Replaced Products: All repaired or replaced parts or Products shall be warranted only for the remainder of the original warranty period.

Obtaining Warranty Service:

If you purchased a SOYO Product in the continental United States, Hawaii, Alaska or Canada, you are entitled to warranty service during the warranty period, subject to the terms and conditions set forth within.

Service is available for all SOYO Products purchased and located in the continental United States, Hawaii, Alaska or Canada.

You must contact SOYO Technical Support Department at (909) 292-2545

A SOYO Technician will attempt to resolve the issue over the telephone. If the issue cannot be resolved over the telephone, a Return Merchandise Authorization (RMA) number will be issued for the return of the Product. The RMA number will only be valid for a period of thirty (30) days from date of issue.

When you return your product, you must prepay any shipping charges, export taxes, customs duties, and taxes or any other charges associated with the return of the product to SOYO. Additionally you may want to purchase insurance to cover the replacement value of the Product being shipped should in become lost or stolen. When Shipping a Product for service we recommend selecting a service which you can track the delivery of the Product.

All returned Products must be accompanied by the following items: (i) the original shipping and packaging materials, (ii) a brief description of the problem, and (iii) proof of purchase including a copy of the invoice or receipt which shows the date of purchase, model number of the SOYO product and name and address of reseller or retailer.

SOYO reserves the right to refuse and return, freight collect, Product(s) that are not covered by SOYO warranty; or products delivered to SOYO with an expired RMA number.

SOYO will use its best efforts to service Products within thirty (30) days after receipt of the RMA. Once the service is completed, SOYO at its expense will ship via ground carrier and will retain all risk of loss until delivery to the customer's location as evidenced by signature collected by carrier. The customer may designate only one location within the continental United States, Hawaii, Alaska or Canada for return shipment. SOYO is not responsible for shipping or other delays beyond their control.

EXCLUSIONS TO WARRANTY – This limited warranty does not extend to any product not purchased from SOYO or SOYO authorized resellers.

This limited warranty also does not extend to any Product that has been damaged or rendered defective (1) due to normal wear and tear; (2) as a result of use of the Product other than for normal intended use, or other misuse, abuse or negligence to the Product; (3) by the use of parts not manufactured or sold by SOYO; (4) by modification of the Product; (5) as a result of service by anyone other than SOYO or a SOYO authorized service provider; (6) improper transportation or packaging when shipping the product (7) improper installation of third-party products; (8) improper operating environment (including improper temperature and humidity); (9) unusual physical or electrical stress or interference, failure or fluctuation of electrical power, lightning, static electricity, fire, or acts of god.

Other Limitations

EXCEPT FOR THE WARRANTIES SET FORTH HEREIN, SOYO DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY APPLICABLE LAW ARE LIMITED TO THE TERMS OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SOYO BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO LOSS OF BUSINESS, REVENUE, PROFITS, INFORMATION, DATA OR USE, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, ARISING OUT OF OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE PRODUCT, EVEN IF SOYO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. YOU AGREE THAT REPAIR OR REPLACEMENT, AS APPLICABLE, UNDER THE WARRANTY SERVICE DESCRIBED HEREIN IS YOUR SOLE AND EXCLUSIVE REMEDY WITH RESPECT TO ANY BREACH OF THE SOYO LIMITED WARRANTY SET FORTH HEREIN. IF, DESPITE THE FORGOING LIMITATIONS, FOR ANY REASON SOYO BECOMES LIABLE TO YOU FOR DAMAGES INCURRED BY YOU IN CONNECTION WITH THIS AGREEMENT, THEN THE LIABILITY OF SOYO WILL BE LIMITED TO THE AMOUNT EQUAL TO THE INVOICE AMOUNT PAID BY YOU TO SOYO OR AN AUTHORIZED SOYO RESELLER FOR THE PRODUCT.

The terms and conditions are subject to change without notice. Some states or provinces / jurisdictions do not allow the exclusion or limitation of incidental or consequential damages for consumer Products, and some states or provinces / jurisdictions do not allow limitations on how long an implied warranty last. In such states or provinces / jurisdictions, the exclusions or limitations of this limited warranty may not apply. This limited warranty gives you specific legal rights. You may also have other rights that vary from state to state provinces / jurisdictions. You are advised to consult applicable state and provincial laws for a determination of your rights.

For more detail information and tips please check http://www.soyo.com/content/Warranty_Policy/42

For information regarding purchasing an **Extended Warranty**, visit http://www.soyo.com/content/Extended_Warranty_Order_Form/44

PRODUCT REGISTRATION

IMPORTANT! Please fill out and return within the next 10 days.

This is your SOYO Product Registration Card. Proper registration can serve as proof of purchase in the event your original receipt becomes misplaced or lost. Returning this card will not affect warranty coverage, but may expedite the processing of warranty claims. The additional information will also help us to develop new products that best meet your needs and desires.

Thanks for taking the time to fill out this questionnaire. Your answers will be used for market research studies and reports. They will also allow you to receive important mailings and special offers from a number of fine companies whose products and services relate directly to the specific interests, hobbies, and other information indicated above. Through this selective program, you will be able to obtain more information about activities in which you are involved and less about those in which you are not. Please check here if, for some reason, you would prefer not to participate in this opportunity. Failure to return this card will not diminish your warranty rights.
