Charge

Charging Mode

Connect the USB charging plug (b) to a USB port of a notebook or PC to recharge the battery. The LED will be red during charging.

Listen Music

**Portable
Bluetooth Speaker**

LED Display

Power On	Blue LED on with sound
Pairing	Blue LED blinking slowly
Paired	Blue LED blinking
AUX IN, BT standby	Blue LED blinking
Power Off	Switch to turn off
Charging	Red LED on, then turns off when fully-charged
Battery Low	Red LED flashes slowly (see battery recharging)

Bluetooth Pairing

1. Turn on the SP-905BT. The device will automatic appear on your device (smart phone, tablet, etc.).
2. When you activate your device Bluetooth function, it will begin to search for SP-905BT. You will see "SP-905BT" appear on your device. Press  button on SP-905BT to sync with your smart device.

Note 1: Most devices do not require you to key in a pin code. In case you have to, key in "0000".

Note 2: The SP-905BT can memorize up to five devices. For future use, just turn on the speaker and your device. Pairing will automatically sync. If the pairing does not function properly, repeat Steps 1 and 2.

ENGLISH

Play Music

1. After Bluetooth pairing is successful, turn on the music player software on your device and you are ready to enjoy your music.
2. Or, use the 3.5mm to 3.5mm cable to connect the LINE IN port with other audio sources.

Note: You can connect to a second speaker using LINE OUT to link with another AUX-IN port

3. In addition, the Bluetooth function will be interrupted if the speaker is plugged into Line In. Once you remove the cable, the Bluetooth function will automatically return.

Find music

You can use your device or "SP-905BT" to track your favorite songs.

Hands-free Call Answering

1. After pairing the SP-905BT successfully, there will be a tone when there is an incoming call. Press the button  when you hear the tone. You are ready to use the microphone on the SP-905BT.
2. When your call has ended, you can press the  button and you will be disconnected. The SP-905BT will return to its previous status automatically.

Battery recharging

If the lithium battery is low and requires charging, just attach the USB cable to the speaker and connect to any power source.

Remark:

To extend battery life, we recommend you charge the speaker at least once a month.

FCC ID: FSUGG000U

FCC Compliance and Advisory Statement This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, according to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures: 1.Reorient the receiving antenna. 2.Increase the separation between the equipment and receiver. 3.Connect the equipment into and outlet on a circuit different from that to which the receiver is connected. 4.Consult the dealer or an experienced radio/TV technician for help. Any special accessories needed for compliance must be specified in the instruction manual. Warning: A shielded-type power cord is required in order to meet FCC emission limits and also to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord be used. Use only shielded cables to connect I/O devices to this equipment. CAUTION: Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
