# P805/P806 MOUSE USER GUIDE

## (1). Hardware Installation

### Connecting Mouse To Your Computer

*Note: always turn off your computer before you connect or disconnect your mouse.*

1. Connect the mouse to the 6-pin P/S2 port on your computer.
2. Turn on your computer.

*Note: If you use Scroll Mouse on a NoteBook PC PS/2, you must disable the touchpad or J0key function in the BIOS and enable the external PS/2 port.*

## (2). Software Installation

### Installing the Mouse software

#### For Windows 95/98/NT

1. Insert the Mouse software diskette into drive A or B.
2. Open the "Start" menu (Ctrl & Esc), and select "Run".
3. Type A:SETUP (or B:SETUP) in the command line box and select "OK".
4. Follow the instructions on the screen, and when the installation is complete, restart your computer.

#### For Windows 3.X

To use Mouse with Windows 3.X, you need to download the driver from the Genius Homepage [www.geniusnet.com.tw](http://www.geniusnet.com.tw).

## (3). What's New About Mouse

With Scroll's unique ergonomic design, you can surf the Internet or scroll through Windows documents easily. The convenient "Magic Roller" only needs one finger to control it so think of it as the ultimate input controller. It can eliminate 30% of your mouse movements.

### Factory Settings

**Left Button** Provides traditional mouse functions such as click, double click and drag.

**Right Button** You can assign this button frequently used keyboard and mouse function in addition to features like Easy-Jump, Auto-Panning, Zoom, etc.

**Middle Button** You can assign this button frequently used keyboard and mouse functions in addition to features like Easy-Jump, Zoom, etc.

## **Mouse Software Features**

## **FEDERAL COMMUNICATIONS COMMISSION**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### **NOTE**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
