USER'S MANUAL

# U802 USB MOUSE USER GUIDE

## (1). Introduce

With Scroll's unique ergonomic design, you can surf the Internet or scroll through Windows documents easily. The convenient "Magic-Knob" only needs one finger to control it so think of it as the ultimate input controller. It can eliminate 30% of your mouse movements.

## (2). System requirement:

- IBM compatible computer
- Windows 98 operating system
- USB port
- No driver needed

## (3). Installing the mouse:

Connect the Genius USB Mouse to an available USB port, you will find a Mouse ID "Found Genius USB Mouse" on screen then the installation is completely.

*KYE have applied to Microsoft for mouse ID in Windows 98. When you connect Genius USB mouse it will be detected automatically.*

## (4). Using the Scroll Mouse with Windows 98:

- The U802 Mouse is compatible with Microsoft Intellimouse. Scroll Mouse supports Microsoft Office 97 along with some new applications. Features include scrolling and Auto-scrolling features.
- Button and Magic-Knob function
  - Magic-Knob Press the "Magic-Knob" to surf the Internet and Windows documents.
  - Left Button Provides traditional mouse functions such as click, double click and drag.
  - Right Button Provides standard right button functions in application that utilize the right button.
  - Side Button Special function for Internet and Microsoft Office 97, it provides Auto-panning by pressing Side Button.

## (4). Cleaning your mouse:

You can protect your mouse by keeping your work area clean and free from dust.

*Note: Make sure the system is off before you attempt to clean it.*

- Remove the ball by turning the ball retainer counter-clockwise until it become loose.
- Use a soft or non-abrasive cleaner to clean the ball and rollers. You can also use a cotton swab to clean the ball container.
- Reinstall the ball and the ball retainer.

**FEDERAL COMMUNICATIONS COMMISSION**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
