# 11 STEPS
# TO GETTING STARTED

## Quick Guide for READy Suite

**READy** is a simple solution that lets you read Kamstrup water meters on your smartphone or tablet. It consists of **READy Manager** software, **READy App** for Android phones or tablets and **READy Converter.**

**At the office**　　　　　　　　　　**On the road**

**READy Manager**
helps you manage and export meter data.

**READy App**
enables you to read meters from your smartphone or tablet.

**READy Converter**
translates the meter signals.

# A. PREPARE PC

## 1. Install READy Manager

- If you bought an installation hosted by Kamstrup: Click the link you received from customer service.
- If you bought a local installation: Download the installation file from www.kamstrup.com/ready.
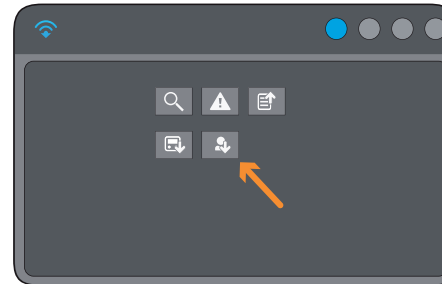

## 2. Import meters

To be able to read meters, you need to import meter data into READy Manager.
- Click **Import meters**.
- Add the files/links you received from customer service when you bought the meters.

## 3. Add customer details

If you use a customer information system, you can add customer data automatically.
- Click **Import customers.**
- Add the file created by your customer information system.

## 4. Organise in groups

You can organise your meters in groups that match the way you carry out readings.
- Click ▦ in the top menu.
- Select meters in the list.
- Click **Add to group**.

# B. PREPARE MOBILE DEVICE

## 5. Install READy App

- Open **Google Play** on your mobile device.
- Enter **Kamstrup READy** in the search field, and install the app.
- Open **Apps** on your mobile and tap 📶.

## 6. Pair with READy Manager

Make sure that PC and mobile have access to the internet and follow the instructions on your mobile.
Find the QR code on the PC: Click on ⚙ and **Pair with mobile.**

## 7. Pair with READy Converter

- Turn on READy Converter with a long press.
- On mobile: Tap ⚙ and **Pair with READy Converter**.
- Select the converter from the list.
- Tap ‹ to return to the main menu.

# C. READ METERS

## 8. Set up equipment

Bring along your mobile device and converter to your car.
Improve the collection range by replacing the converter antenna with a roof antenna (the roof antenna is bought separately).

## 9. Read meters

- Tap **Read meters**.
- Select the group(s) you wish to read.
- Tap **Start**.
  Tap ⊕ / ▤ to switch between map and list view.
  Tap ◁ to pause or finish.

# D. AFTER READING

## 10. Transfer data

You can transfer data when you are on the road. Make sure READy Manager is turned on and that PC and mobile have access to the internet.
- On mobile: Tap **Send/Receive**.
- On PC: Click **Refresh**.

## 11. Export data

- Click 🖹 to export meter data from READy Manager. The exported file can be imported into your customer information system.
