Charger connector Viem   Bottom View   Microphone View   Top View

What your KT-9078 speaker can do
- Listening music from connected bluetooth device
- Answer calls
- End calls
- Reject calls

Package Content
Please ensure the following items are included in the package before your purchase:
1. KT-9078 speaker
2. Product User Guide
3. USB Cable
4. AUX Cable

Getting Started
You should follow three steps before using your speaker
1. Charge your speaker
2. Turn your speaker on
3. Pair your speaker to your Bluetooth devices

Charge your speaker
a. Plug one end of the USB cord to USB 2.0 port of a computer/notebook device and the other end to the Bluetooth speaker
b. While charging , LED is lighted red; when turned blue , the speaker is fully charged.
c. Make sure that your speaker is charged before you start using it.
d. When the LED   ashes with beep, it indicates the battery level is low, please charge it.
e. Charging in a –10 to +40°C temperature range environ ment.
f. Charging time: around 3.5hours.

Turn your speaker on and off
a. Power on your speaker and connect to last ' paired ' devicePress power/answer/end button for 2-3 seconds, blue LED will   ash 3 times with a beep, and then the Blue

LED will ﬂash quickly . After that, the speaker will automatically connect to last paired Bluetooth device (if the device is also on and within 10 meters range). And the Blue LED will be ﬂashing for 2 seconds . Power will be oﬀ if speaker does not connect to any device for 4~5 minutes

b. Power oﬀ your speaker Press power/answer/end button for 5 seconds, RED LED will be on and then oﬀ with 2 beep sound .

Pairing with your Bluetooth device

a. Enter Pairing mode Press power/answer/end button 4~5 seconds , speaker will beep once and Blue / Red LED will alternately ﬂash for 0.5 second each repeatedly

b. Enable bluetooth function on your phone or the other device

c. Search for new Bluetooth device until KT-9078 appears in the ' searched Bluetooth device list '.

d. Select KT-9078 .

e. Enter the passcode 0000 to pair and connect the speaker to your device, the pairing is successful and the Blue LED is ﬂashing every 5 - 6 seconds .

f. If pairing is unsuccessful after some time, the speaker will automatically enter standby mode (blue LED ﬂashes quickly) ,but you will not be able to use the speaker , please follow the above steps for re-pairing .

Call handling

When you receive a call, you hear a ringing tone through the speaker. To answer the call, press the answer key lightly. To reject an incoming call, press and hold the answer key for 2 to 3 seconds until you hear a beep and let go. To end a call, press the answer key lightly, or wait for the other party to hang up.

Volume Control

Care and maintenance
Your speaker is a product of superior design and craftsmanship, should be treated with care , below recommendations will help you protect your warranty coverage.
· Keep all accessories out of the reach of children.
· Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, allow it to dry completely.
· Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
· Do not store the device in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
· Do not store the device in cold areas. When returns to normal temperature, moisture can damage electronic circuit boards.
· Do not attempt to open the device.
· Do not drop, knock, or shake the device. Rough handling may break circuit boards and the mechanism .
· Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
· Do not paint the device. Paint can clog the moving parts and may cause function ine ective .
A warning that batteries (battery pack or batteries installed) shall notbe exposed to excessive heat such as sunshine, re or the like.
All of the above recommendations apply equally to your device, battery, charger. If any device does not work properly,

take it to the nearest authorized service facility for service.
This device complies with Part 15 of the FCC Rules. Operation is
subject to the following two conditions :(1) this device may not
cause harmful interference, and(2) this device must accept any
interference received , including interference that may cause
undesired operation.
Changes or modi cations not expressly approved by the party
responsible for compliance could void the user's authority to
operate the equipment.

Product speci cations
