使用相机

采用如下方式中的一种为相机供电

❶ PoE（通过以太网供电）

❷ 12V外部电源供电

❸ 2块佳能LP-E6或其他兼容性电池

当有多种电源同时连接相机时，相机会根据以上的优先级顺序去选择供电方式。

插入Micro SD卡

将6张Micro SD卡插入卡槽。为了速度和稳定性，强烈推荐使用 **U3 (USH-I)** 卡。

开启或关闭相机

开机：长按【电源键】3s，相机正常开启后，所有工作指示灯快闪后变为常亮蓝色，【电源指示灯】常亮红色。

关机：长按【电源键】3s，相机所有【工作指示灯】快闪后熄灭。

拍摄视频和照片

视频拍摄

相机开启指示灯变为常亮后，短按【录像键】开始拍摄视频，视频拍摄过程指示灯均匀闪烁，拍摄完成时再短按【录像键】结束拍摄视频。

拍摄照片

相机开启指示灯变为常亮后，短按【拍照键】开始拍摄照片，相机拍摄间隔默认为每10秒一张，(可用遥控器设置，请参考遥控器说明书)，拍摄完成时再短按【拍照键】结束拍摄照片。拍摄间隔可以通过Obsidian遥控器手机应用改变。

主镜头

具有“S”或“R”标签的镜头是相机的主镜头。在默认模式中，每个镜头自动独立地计算各自的曝光参数（ISO和快门速度），所有镜头的白平衡参数都跟随主镜头在自动模式下的白平衡参数。通过Obsidian遥控器手机应用可以改变这些设置。

Safe Handling Precautions

1. Avoid condensation and freeze – When moving the camera from one extreme temperature to another, keep your camera in sealed plastic bags to prevent condensation. Allow time for equipment to adjust to temperature change before removing from the plastic bag.
2. Avoid snow – Be careful that snowflakes can easily scratch the lens. To prevent camera circuits from being damaged by melting snow, please turn off the camera and pull out the battery immediately.
3. Avoid dust – Please use and store the camera in a clean environment. When using the camera outdoors, be careful not to allow dust or sand scratch the camera. Please use blower brush, or lens tissue to remove dust from the lens. Never use alcohol or any volatile liquid to clean the camera.
4. Avoid moisture – Avoid using the camera in high humidity conditions. Remove and store the battery in a dry box when not using the camera.
5. Avoid shake – Do not bang or subject the camera to strong impacts. Do not put the extra objects attached with the camera into the package (for example, forget to remove the quick release plate), which will increase the possibility of lens damage when shaking and vibration.
6. Never place the camera close to magnets, motors or other devices that generate strong electromagnetic fields. Exposure to strong magnetic fields may cause malfunctions or corrupt image data.
7. Memory cards are small, thin and easy to break, so keep them in a special box when not using and make sure the metal contacts are clean and shiny. Avoid storing the cards with data in areas exposed to strong magnetic fields or electromagnetic radiation or high temperature.
8. Don't charge the battery inside the camera for a long time, unplug the external power cable when not using the camera.
9. Do not bump or rub the lens.
10. Do not use camera beyond the normal power supply range.
11. Do not take the camera apart or try to repair any of the electronics yourself.
12. Avoid foreign objects or liquids inside the camera.
