Introducing **KATA**

KATA designs, develops, and manufactures quality, state-of-the-art protection solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fits the case, the case must also fit the user! In 1983, two friends, members of an elite military unit, began exchanging ideas about how backpacks and military equipment cases could be made more modular and ergonomic.

Based on their own field experience, they went on to design a line of combat-ready gear. They named their company **KATA**. In 2005 KATA joined the Vitec Group and under the Photographic Division the company has been expanding and flourishing. **For many years KATA has been creating high-end products for professionals around the world.** KATA Design HQ and part of the manufacturing facilities are based in Jerusalem, Israel.

KATA established its reputation by outfitting Protection and Security Special Forces with auxiliary cases, utility & protective vests and backpacks. Tough, durable, yet remarkably lightweight, KATA products are constructed to withstand rough treatment and harsh conditions over long periods.

Protection and Security

Secretary-General of the UN, Mr. Kofi Annan wearing Kata protective vest.

For the **Professional Video Industry** **KATA** has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported worldwide by a network of dealers and distributors. In over 40 countries, we are there to support you wherever your work may take you.

Pro Video

Michael Schumacher, Formula 1 winner 2002, filmed by a news crew using Kata's professional Camera Glove.

KATA has provided an outsourcing service to **Hi-tech Industries** that manufacture sensitive equipment for field operation. KATA is involved from the research to the development and design stage through production. A prominent example of such an enterprise is the **KATA - MANFROTTO** collaboration which is responsible for the entire line of Manfrotto bags worldwide.

 **Manfrotto**

High Tech Industry

Kata joined forces with Manfrotto to become the sole designer and manufacture of all their Camera Support Carrying Solutions.

In 2004, **KATA** launched the Global Digital Collection (GDC) for the Professional Digital Photographer and Videographer. The collection includes carrying solutions specifically designed for delicate digital equipment incorporating KATA's latest development - the unique TST (Thermo-Shield-Technology).

Five Year Warranty

Kata warrants each product to be free of defects in material and workmanship for a period of 5 years from the date of purchase.

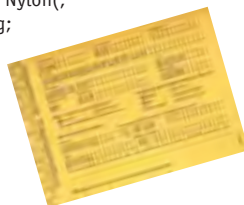

We are able to provide you with this warranty because:

Each of our products is meticulously handcrafted for durability:

Internal bindings cover the fabric-ends and outside seams are double folded to eliminate unraveling. Carrying handles are sewn from the bottom of the bag, for the greatest possible strength. Our silent YKK zippers are double seamed and usually sewn on the inside of the fabric to hold them fast.

We use the highest quality materials:

DuPont(Cordura(;
Water-repellent and Polyurethane coated Super Nylon(;
High tenacity Polypropylene and Nylon webbing;
Cross-linked Polyethylene-foams;
Silent action Auto-Recover YKK(zippers;
ITW(and Duraflex(buckles;

ISO-9000

KATA complies with the rigorous requirements of ISO-9000 for quality management system. The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 90 countries.

GDC

Global Digital Collection

KATA'S GLOBAL DIGITAL COLLECTION (GDC) IS A COLLECTION CREATED FOR THE PROFESSIONAL DIGITAL PHOTOGRAPHER AND DIGITAL VIDEOGRAPHER. IT IS COMPRISED OF PROTECTIVE CARRYING SOLUTIONS DESIGNED FOR THEIR SPECIAL NEEDS AND REQUIREMENTS AND FOR THE SENSITIVE AND EXPENSIVE DIGITAL EQUIPMENT THEY CARRY.

THE GDC INCORPORATES KATA'S LATEST DEVELOPMENT THE UNIQUE TST (THERMO-SHIELD-TECHNOLOGY). IT CONTINUES IN KATA'S TRADITION OF AN ERGONOMIC STRUCTURE, STYLISH DESIGN AND METICULOUS MATERIAL SELECTION.

KATA TST

TST (Thermo-Shield-Technology) is a state-of-the-art solution that provides the perfect protection level for digital equipment while creating an extremely lightweight product.

Thermo Shield Technology

The outer surface **1** of the TST is thermo-formed in a protective “rib-shape” construction (Patent Pend.). It is made of Super Nylon[®] - a Mil-Std, double cord, water and dust proof, high tenacity and abrasion-resistance fabric **2**. Underneath, a cross-linked, closed cell PE+EVA shield **3** is impact and shock protective while providing a comprehensive insulation against cold, heat and moisture. The internal padding **4** provides the necessary cushioning and vibration reduction. The lining is KATA's unique Yelloop material **5** which is fabricated especially for the anti-scratch and anti static requirements while allowing divider attachment for internal partitioning.

Carrying Solutions

KATA designed and patented numerous innovations to allow greater ease and efficiency when carrying and operating cameras, lighting, sound gear, tripods and other equipment.

Insertrolley

NEW Revolutionary Modular Trolley System with extendable wheels to better stabilize large cases (Patent Pend) (see page 39).

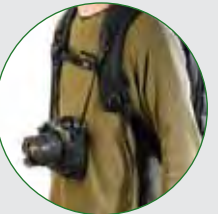

Tripod Holder

Kata's TST Tripod Holder is a modular and versatile sling pouch designed to connect your tripod on the outside of the KATA backpacks.

Camera Straps

Camera Straps are attached to the D-rings on the backpack harnesses to connect to your SLR and take the load off your neck when carrying. Can easily be turned into a regular camera strap.

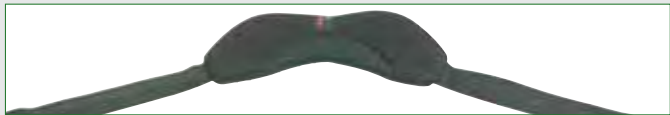

Shoulder Straps

APSS Advanced Padded Shoulder Strap (Patented)(see page 39)

NSS Non-Slip Shoulder Strap (Patented) (see page 39)

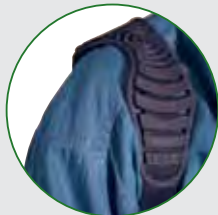

BSS "B" shaped shoulder strap

SPAD Thermoplastic padded shoulder strap

STRP Adjustable shoulder strap

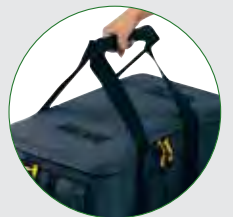

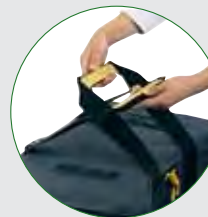

DPB

The shoulder strap attaches to the bag via this rugged yet lightweight buckle, which accepts either a quick-release hook or the strap itself. Either option ensures that the strap will cross the shoulder at the optimal ergonomic angle to provide comfort and stability.

'Click' Interlocking Handles

Our patented CLICK handles have been designed and field-tested for sure grip and optimal comfort. The unique engineering of shape and thermo-rubber pads ergonomically fit your hand. Just 'click' the two parts together and you are ready to go!

EPH

Ergonomic Photo System

A modular system that allows you to attach 1-3 KATA cases together (See Page 20).

Omega

Carrying system concealment compartment

Protection Solutions

Our mission is to offer the maximum protection with the most ergonomic, lightweight design possible. We want our products to be more than just a protective covering. We want our products to work with you to help you do your job better.

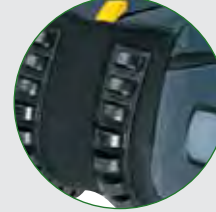

Pinakata Corners

To lessen the wear and tear, Pinakata Corners reinforce and protect these vulnerable areas.

Toablerone

Made from synthetic thermo-rubber, this uniquely designed feature absorbs shocks and protects the case from abrasion, dirt, mud and standing water.

Double sided Elements Cover

An emergency Elements Cover is included in many of our products to protect your case and equipment in inclement weather: black side out in rain or snow, and in sun reverse to silver for heat reflection.

TST

Thermo Shield Technology
KATA's state of the art protection combination for digital equipment. (see page 4-5)

Additional Innovative Solutions

On Board

These bags meet the strict new airline regulations for carry-on luggage size. Due to constantly changing airline regulations, please check with your carrier prior to departure.

Modi-Vers System

Most of our products are constructed with the special 'Yelloop' interior (see page 35). Included dividers enable you to create compartments inside the case that meet your exact requirements. If needed, Additional Modi-Vers kits are available (see page 39).

Filter Sleeve

A designated connector/ compartment allows you to secure as many KATA Filter Sleeves as necessary in your case. (see page 35)

Laptop Compartment

Designated laptop compartments feature in bags and backpacks intended for field work.

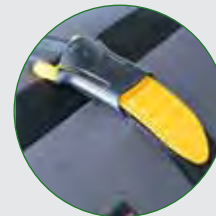

Media Kit

A Digital organizer for memory cards and spare batteries.

Tail Trap Buckle

The TT Buckle is ergonomically designed for comfort and ease of use. When you push the "Tail" into the "Trap" you can adjust the closing of the bag or vest as tight or loose as required. The buckle locks closed no matter how tight you choose to make it. The arched shape conforms to the body and the bag it serves. Simply push back the trap with your thumb to open.

MC-61

GDC MULTI CASE for digital SLR or medium format cameras with laptop and many accessories. The MC-61 Multi-Case is the perfect companion for the genuine field digital photographer. It combines all you'll need in one case: It offers the option of carrying several camera bodies with a variety of additional lenses (mounted or separate), combined with a laptop, professional and personal accessories - holding each piece of equipment and gear in its own designated compartment; Featuring a level of protection you haven't seen before, provided by the TST and the well padded sides of the bag; Multiple and ergonomically perfected carrying possibilities - The B shaped shoulder strap, the Click handle and the Insertrolley option. All this in one compact case that can be carried on board a plane and stored in the overhead compartment.

MC-61 with Insertrolley

Full opening for easy access to large camera configurations

Length	20"	51 cm	19.3"	49 cm
Width	12.2"	31 cm	8.3"	21 cm
Height	12.6"	32 cm	10.6"	27 cm
Weight		5.5 lbs	2.5 kg	

OC-82/84

The OC bags are designed to withstand hard use in any environment. Kata's TST technology on the front of the bag and the honeycomb reinforced circumference provide ultimate protection for the gear within.

The OC bag has two full sized compartments. The first is a shallow compartment for laptop or paperwork. The second deep compartment is for the photographic equipment. Both compartments will allow for a custom fit to meet your exact requirements. The cases are supplied with ample modular dividers and if additional division is necessary Kata's Modi-Vers Kit is included.

A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions. Both cases come with strong padded handles, a BSS shoulder strap and are Insertrolley compatible. The OC-84 is supplied with a laptop case that can be used individually, features two carrying handles for top and side carrying and also a connection system for tripod or lighting stands.

OC-82 will fit 1-2 D/SLR bodies 3-4 lenses & accessories. Can also be used for matbbox + filters, or as a Lighting Bag for a small lighting kit.

OC-84 will fit 2-4 D/SLR bodies with 6-8 lenses & accessories, or a Medium Format Kit. Can also be used as a Lighting Bag for a small lighting kit.

SB-902 SB-907 SB-904

SB-902 open

SB-907
with Insertrolley

SB-904
half open

SB-902/904/907

The SB Reporter Shoulder Bags all come with the internal padding kits, dividers, and removable reinforced bottom flooring (provided with the bags), so that you can choose whether to use some, all or none, thus defining the rigidity and flexibility levels of the case (if additional division is necessary Kata's Modi-Vers Kits are available). A special top securing strap will allow for volume reduction when the bag is not packed to the maximum. Semi-rigid TST front pockets and large external side pockets ensure ample storage solutions for any additional professional or personal equipment, and the larger SB-907 even features a designated laptop case which can also be used individually.

A triple opening system has been engineered to allow for any working eventuality:

1. The main double buckle closing flap allows full access to all the equipment at once and is most convenient when loading and unloading the bag.
2. Quick "One Pull" top zippered flap allows for quick access to the working camera at all times.
3. Two side zipper openings enable the quick draw of lenses, flash unit or other accessories, without having to open the bag.

Carrying options include reinforced rigid handle, shoulder strap and an Insertrolley (not included) can be attached using the waist belt.

The SB-902 & SB-904 are padded on the side that nestles against your body and both feature a detachable waist belt for additional support that can also be used to attach the bag to the Insertrolley. The zippers and openings are all rain protected and an Elements Cover for the entire case is supplied for extreme climatic conditions.

SB-902 fits 1-2 D/SLR bodies + 2-3 lenses + accessories, or Mini DV camcorders such as the Sony HC1.

The SB-904 fits 2 D/SLR bodies + 4-6 lenses (up to 300mm) + accessories, or small DV camcorder such as the Panasonic DVC30 and similar.

The SB-907 fits 2-3 D/SLR bodies + 6-8 lenses (up to 300mm) + accessories + laptop, or DV camcorder up to the Sony FX1, Panasonic HVX200 and JVC DV300 and similar.

WS-604/606

Kata's Waist Shoulder Bags are sturdy and TST safeguarded cases that provide rugged protection for the Digital professional photographer / videographer on the go or when working in harsh conditions.

Ergonomically designed to allow you to "shoot from the hip" without taking the case off your shoulder: Contoured shape for a closer to the body center of gravity; 2 DP Buckles ensure correct Case-Strap-Carrier angle; ergonomic Non-Slip Shoulder strap; opening away from the body by a quick release buckle; 3D hip pad with a removable concealed hip belt for additional support and weight distribution can also be used as a connection point to Kata's Insertrolley.

The cases are supplied with Kata Modi-Vers dividers which allow the freedom of setting up the large main compartment to suit each user's individual needs. 3 large pockets, 4 flat pockets and the tying loops, provide additional storage solutions. If additional division is necessary Kata's Modi-Vers Kits are available.

WS-604 will fit 2 digital SLR bodies, 2-4 lenses + accessories, or a Mini-DV camcorder such as Canon GL2/XM2, Panasonic DVC30, Sony PDX10 and similar.

WS-606 will fit 2-4 Digital /SLR bodies, 6-10 lenses + accessories, or DV cam up to the Sony FX1, Panasonic HVX200 and JVC DV300 and similar.

EXO-7/12

EXO-7 and EXO-12 are small shoulder bags which fit a variety of digital equipment from a medium sized SLR with many accessories up to a Large SLR with the essentials. The EXO-7 is the smaller version of the same case which accommodates a digital SLR with mounted lens up to a 80 x 200 and accessories.

In both, a back "service door" opens to a lower compartment that can hold charger, batteries, and cables. If needed, the lower divider can be removed to create a larger and deeper main compartment.

Specially designed pouches are included and can be attached or removed from both ends of the bag.

The EXO cases come with an attachment system for a table top tripod. The interior can be customized with Modi-Vers and Filter Sleeves. KATA's BSS Shoulder Strap and a belt loop are included.

PB-44/46/48

The PB-44, PB-46 and PB-48 are a family of comprehensive camera bags in 3 different sizes. They are designed with style, ergonomically engineered and TST protected. The main compartment holds a D / SLR in top grip position while on the two sides you can store and protect lenses, flash or other accessories. Padded internal and external pockets will accommodate additional equipment. Carrying options include:

Sturdy padded grip handle / Shoulder strap / Back loops for a waist belt. The bags can also be connected to the KATA S-308 sling platform for an alternative carrying mode, and additional storage space. When caught in the rain, use the elements cover.

KATA Microclimate

Sun, rain, dust, heat and extreme cold don't stop you from going out and shooting but they might harm your equipment. KATA creates the perfect microclimate allowing you to shoot with confidence knowing that your sensitive gear is safe. Kata's waterproof materials, zipper covers, internal zipper wall and double sided Elements Cover all make sure that your camera will work properly, even in the harshest climatic conditions.

C-52/54

The stylish C-52 and C-54 are unique, TST protected, mini camera cases. The main compartment can accommodate a Digital camera, 4 spare batteries and 2 memory cards (in the elastic pop-out media kit).

In the C-54, back and top 3D Air-Mesh pockets will store accessories like filters, cleaning kit and more. Carried on the belt or with the adjustable shoulder strap, the C-52 and C-54 will make sure you have it all close at hand. The cases provide double protection from moisture and dust by the folded zipper and unique "internal wall". In rain, use the elements cover, black side out, and in sun reverse to silver for heat reflection.

Height	6.3"	16 cm	5.1"	13 cm
Weight	0.30 lbs 0.135 kg			

C-54

C-52

C-56/58/59

The C-56, C-58 and C-59 are identical in all, but size.

They are designed with style, ergonomically engineered and TST protected. By using the dividers, the main compartment can accommodate a Digital / SLR camera with zoom lens or a camcorder, with additional lenses, flash unit, charger and other equipment. 5 Padded internal and external pockets and a separate media kit will hold extra gear. Carrying options include:

Elasto-Rubber handle / BSS shoulder strap / Back loops for a waist belt
The cases' folded zipper and unique "internal wall" provides double protection from moisture and dust. In rain, use the elements cover, black side out, and in sun reverse to silver for heat reflection.

P-32/34

The P-32 and P-34 provide complete TST protection and can be carried either on your belt, in your satchel or as a part of a transporting organizing system. These Mini Cases feature multipurpose configuration options: In the P-32 you can store a miniature digital camera; 4 media memory cards + 4 AA batteries and many more options.

The P-34 will hold 4 Mini DV tapes; a small digital camera; Pocket camcorder; charger and cables; a PDA and much more. The pull-out Media-Kits in both can be cut away if needed. Elastic bands will help hold contents in place while the two adjustable side connectors allow you to set the opening size according to carrying method and equipment.

P-36/38

The multipurpose P-36 & P-38 feature peripheral TST protection and 2 opening methods: top auto-flip-back lid and full peripheral zipper access. This double compartment cases can hold a variety of equipment: P-36 can hold 2 pro-digital battery packs, a small digital camera, light meter, or an assortment of accessories like cables and charger.

The P-38 fits a digital Pro SLR body, a digital camera, or a Mini DV camcorder. Two separate compartments share volume according to content and allow for additional equipment in mesh pockets and elastic loops and sleeves. The P-36 can be carried conveniently either as an individual pouch on your belt or threaded through your shoulder bag strap. And the P-38 can be carried by its handle, adjustable shoulder strap, or as a rigid pouch for storing sensitive equipment in transport.

EC-01/02

The EC-01 and EC-02 are uniquely designed cases that offer full TST protection for digital cameras as well as for pocket video camcorders. The TST shell houses a soft egg-crate foam interior to protect your camera. An internal Media Kit holds extra batteries and smart media cards and the detachable elastic sides allow you to set the opening of the case. Carrying options include an adjustable shoulder strap and hip belt connector, which can be used without having to take your belt on and off.

H-10/12/14

These revolutionary holsters provide TST protection while allowing for quick access to the Digital / SLR and zoom lens set. The camera can be held in place by looping the divider around the lens vertically or positioning it horizontally and creating a bottom compartment for additional lens or flash-unit. The media kit will hold batteries and memory cards. 5 padded accessory pockets (inside and outside) will store filters, cleaning kit, light meter, cell-phone, PDA and many more. A handle, a BSS shoulder strap and a 3D-mesh loop for waist belt, allow for comfortable carrying options of the holsters. The bags can also be connected to the KATA S-308 sling platform for an alternative carrying mode, and additional storage space. The holsters feature double closure system - a 2-slider zipper and a one-hand operating buckle. In addition to the rain-protected lid the holsters are equipped with KATA's unique elements cover: black side out in rain, and in sun reverse to silver for heat reflection.

S-308

The S-308 is a multifunctional, shooting-gear carrier. It can be used individually, with its own expandable pocket, or as a platform for one of KATA's cases. Part of the main compartment features a connecting system to the additional case (See pictures).

The S-308 enables you to change the carrying position by shifting and turning it: camera case in front, for quick access, on the side as a usual shoulder bag or on your back for optimal weight distribution. A well-cushioned adjustable shoulder pad makes sure the S-308 is comfortable in all positions and fits sizes S to XL. Additional pockets allow you to keep valuables close to your body, in the concealed compartment, and accessories like a cell phone, PDA and wallet in the designated pouches.

KATA's EPH System

GDC - Global Digital Collection

KKATA's Ergonomic Photo (EPH) System is modular and versatile. The EPH System allows you to set the configuration required for the mission. You can attach 2 or 3 products that are "EPH System Compatible" into a set: The W-92/94 (waist-packs) together with the R-101/102/103 (rucksacks) will create a big backpack. The T-212/214 (torso-packs) and the HB-205/207 (backpacks) will give a combination that has high storage volume and optimal weight distribution. These are only two of more than 15 different possible combinations.

Torso-Packs

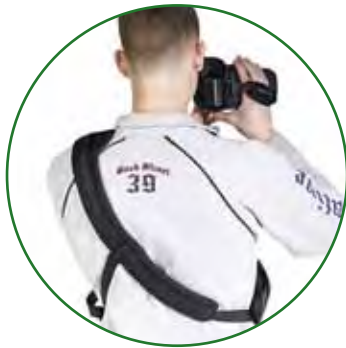

KATA's Torso Packs are uniquely designed to keep your D / SLR or Camcorder in quick-draw position, while TST protected. They enable frontal carrying and quick draw without weighing on your neck. The Torso Packs are the central element of KATA's EPH System. They can be used on their own or attached to the W-92/94 Waist Packs as well as one of the backpacks.

The T-214 fits up to a large D/SLR with lens attached or a DV Camcorder up to a Panasonic DVX100 & similar.

T-212 fits a medium D/SLR with lens attached or a Mini DV Camcorder up to the Sony HC-1, Canon GL2/XM2 & similar.

T-212

T-214

Back Support

Back Position

Front to Back

Front Position

The unique design of the T-214 allows you to carry the bag up front or on your back, and change the position even while on the go. The lid is secured by a wide "hook & loop" fastener and a side release buckle, and one pull allows for a quick full opening of the parallel zipper set, this means that at all times you have frontal top access to your camera.

The large main compartment is divided in a way that allows you to store your camera in top grip position while on the two sides you can store and protect lenses or accessories. Additional external pockets will hold your personal effects.

W-92/94

KATA's innovative waist-packs incorporates TST protection and are designed for all Digital / SLR systems or mini DV sets. They are comfortably shaped to fit numerous operating scenarios:

- Frontal carrying for quick access while opening the cover away from your body;
- Rear carrying for best weight distribution;
- Carried by the thermo-rubber handle;
- Carrying as a shoulder bag with the SPAD strap hooked to the 2 D-rings (the waist belt can be tucked away or buckled for extra stability);
- The main compartment can be arranged to fit your gear by using the divider system (if necessary extra Modi-Vers Kit is available).

A Pro digital SLR with 2-4 lenses and additional gear like flash-unit, hood, charger, power supply, etc. will fit in this roomy pack. The front divider enables internal and external approach to the TST pocket. 2 padded expandable pouches on both sides accommodate lenses or any other item you would like to have close at hand. Additional pockets in the lid and front will store all required accessories. Full protection on the main zipper and KATA's unique cover makes sure your sensitive equipment is well protected from the elements.

R-103

HB-207
Hiker
Backpack

BP-502

The BP-502 GDC backpack is designed for proD/SLR cameras with zoom or tele lenses, laptop and many accessories.

Thermo Shield Technology (TST) combined with reinforced plastic boards and thick closed cell padding create this lightweight, ultra-protective case. The main compartment features a unique internal dividing system, which allows for a diversity of equipment setups, while ensuring it is easily accessible. And using the Modi-Vers divider system, you can customize the interior to meet your exact requirements.

The camera is placed in the center for easy access via the small top opening flap. Related equipment is stored around the main piece, and secured in place by flap doors that can be folded away when needed.

Additional internal and external pockets provide a variety of storage options for both large and small objects.

Peripheral zipper opening enables full access to all equipment at once when packing or unpacking and when working in the field.

A flat rear compartment is designed to securely hold and protect a laptop in a padded sling and store all the related accessories.

Carrying options offer an advanced adjustable and ergonomically designed harness system, which can be concealed, Insertrolley connection sleeve, and injected grip handle.

The BP-502 includes a double-sided elements cover, a tripod sling, securing straps, and camera straps which are connected to the harness.

BP-502 with Insertrolley

HB-205/207

KATA's HB Hiker Backpack's deep main compartments are set up with modular dividers, and if additional division is necessary, KATA's Modi-Vers Kits can be purchased. Two soft TST open pockets for water bottles, small tripod etc., and an assortment of pockets all work together to provide the ultimate carrying and protecting solution for outdoor photographers and videographers. A tripod can be carried while attached to the backpack by using KATA's included tripod holder either on the front or the side of the backpack. The advanced harness system is designed to allow for ultimate adjustment of all features; shoulder straps, 6 point adjustable waist belt, and lumbar pad, ensuring the perfect ergonomic fit for each individual carrier. When not in use, the harness can be neatly folded out of the way to allow for easy storage and to allow the addition of KATA's Insertrolley.

In the HB-207 there is also a large rear laptop compartment, and a separately accessed top compartment which will hold a still camera with lens installed for quick removal, or a variety of accessories.

HB-205 fits 2-3 D/SLR bodies with up to 8 lenses (up to 400 mm) or a DV camcorder up to the Sony FX1, Panasonic DVX100 and similar + accessories.

HB-207 fits 2-3 Digital / SLR bodies with up to 8 lenses (up to 400 mm f 2.8) or a DV camcorder such as the Sony HDR Z1, Panasonic HVX200 and similar , while a rear compartment will hold up to a 17" laptop.

R-101/102/103

The special design of the KATA Rucksacks gives quick, separate access to the camera + lens setup in the central compartment, while the rest of the equipment surrounding it remains secure. Additional accessories, like flash-unit, filters, charger, cables and personal essentials can be stored in the spacious arched lid compartment, the 2 outside pockets and the central mesh/vinyl pocket. The ergonomic harness includes a unique cushioning and shock absorbing system, which allows for optimal ventilation, weight distribution and 5-point adjustment mechanism. The Rucksacks include a well-padded dividing set, which allows you to organize it to fit your requirements, if needed KATA's extra Modi-Vers Kits are available. In addition a TST tripod holder with its connecting V shape device and an upper adjustable strap is included (the tripod can be carried on the central part of the Rucksack or on one of the sides). Especially designed Camera Straps can be attached to the D rings on the harness and will take the camera load off your neck, and in order to provide stability when on the go, two 25 mm wide waist straps are provided and can be connected to the base of the harness.

Full protection on the main zipper and KATA's unique cover make sure your sensitive equipment is well protected from the elements.

R-102/ R-103 are designed to hold a Pro D/ SLR body with up to 300mm lens attached, an extra body, 4-5 lenses, or a DV camcorder. The R-103 also features a rear laptop compartment that will hold 15" laptops and even a 17" Powerbook.

R-101 is designed to hold a medium or small D/ SLR body with up to 200mm lens attached, 2-4 lenses and accessories, or a mini DV camcorder, and the rear compartment can fit a small laptop up to 12".

KATA Elements Protection

KATA's elements covers ensure equipment protection in all conditions. When shooting outdoors you are exposed to many natural challenges which can slow you down or even prevent you from doing your job. With Kata's element covers you can keep on shooting no matter what rain or dust storm is raging around you!

E-690

The E-690 is a practical cover for small SLR and digital cameras such as the Nikon D70, the Canon Rebel series, Sony Mavica series, similar and smaller cameras. When suddenly caught by a rain shower the E-690 slips quickly over your camera and allows you to keep on shooting.

Access to all camera and lens controls via two side sleeves. A clear view through the transparent TPU enables easy monitoring all the time. Full-length double zipper provides bottom closure when hand held or on a tripod. Once used you will not understand how you managed without this item!

OC-84/86/88/97

The Organizer Cases are designed to withstand hard use in any environment. Kata's TST technology on the front of the bags and the honeycomb reinforced circumference provide ultimate protection for the gear within. Two full sized compartments; The first deep for the lighting equipment can be customized with the provided dividers and Modi-Vers. And the second shallow top compartment will hold flat accessories such as gels, cables etc. A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions. All cases come with Insertrolley included and have well padded grip handles for easy transportation.

The OC-84 is designed to fit a small lighting kit in the main compartment, while the stands can be attached outside using the designated straps. Individual laptop case included.

The OC-86 can hold a variety of photo lighting kits from 2 lights with 1 power supply up to 3 lights, the Modi-Vers dividers allow ultimate freedom of set-up.

The OC-88 main compartment will fit small/ medium lighting kits: 3 to 4 heads + 3 stands. 3 modular internal pouches are included for loose accessories.

The OC-97 fits large lighting kits. The bag includes 3 modular internal pouches for loose accessories such as spare bulbs, connectors, batteries, small cables etc.

PALMS

PALMS are a functional breakthrough in the design of soft, reinforced cases. They are available in three sizes to permit the carrying of a large variety of accessories and sensitive equipment primarily used for lighting kits: Lights and power supply in the main compartment, 4 stands in the side pockets. Their smooth and low outside profile facilitates storage and shipping. A reinforced plate forms the base, on which are mounted the two halves of the case, each shaped like the palm of a hand. Based on the architectural principle of the arch, the PALMS provide the equipment with complete protection. An aluminum pole handle allows for balanced carrying even when the center of gravity changes.

The PALMS are supplied with the Insertrolley and APSS or NSS shoulder straps can be added to the PALMS-1/2. The interiors can be customized with Modi-Vers.

Hexabag-1/2/3

The sturdy, protective Hexabag unfurls to reveal six deep cylindrical pockets for packing and organizing light stands, gel rolls, microphone stands or other long accessories. Its innovative design makes it possible to retrieve items by simply opening the padded lid. Hexabag handles have comfortable, extra-long handgrips that provide ideal balance for carrying loads of varying weight distribution. The shoulder strap helps you carry it golf bag style, and Hexabag-3 comes with the KATA Insertrolley.

Multilong

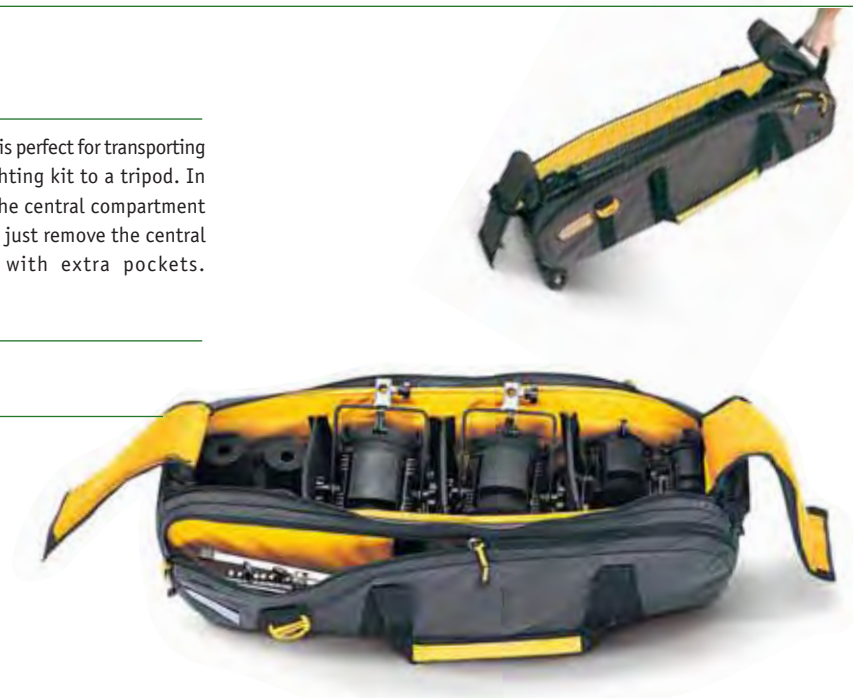

The Multilong is a roomy, multipurpose, padded case that is perfect for transporting a wide range of photo or video equipment from a lighting kit to a tripod. In lighting set up, you can store three or four lights in the central compartment and place the stands in the side pockets. For a tripod, just remove the central Modi-Vers and you have a rigid tripod case with extra pockets. The Multilong includes the Insertrolley.

Pro Collection

KATA Product Performance

KATA's product is more than just a protective carrying case, it's an operating tool. Ergonomics doesn't end at the shape, weight, handle, shoulder strap or padding. It is also a quick draw for your camera, a sun hood on LCD screens, rain covering while shooting and when needed; the case sets up as a field working post.

RL-302

The RL-302 laptop rucksack is designed for the professionals / executives on the go. The RL-302 will organize, store and protect all your equipment as well as your traveling gear.

To meet your ever changing day to day and travel routines 2 storage options are available:

1) A padded laptop shoulder bag is integrated in the TST protected mid section of the rucksack allowing for quick & immediate removal when necessary (for instance airport security checks). This bag can be used as an independent laptop case. When removed from the rucksack the width can be easily reduced using the buckle and strap adjustment system.

2) A laptop slot is available inside the rear compartment. Large front and rear padded compartments with organizer panels will hold folders, paperwork, laptop accessories and much more. Numerous designated pockets throughout will hold all your personal effects such as mobile phone, PDA, PM3/4 player etc.

Specifically designed features include a quick access pocket for Wallet and passport, and a zip-up mesh water bottle pouch. The harness system will ensure ultimate weight distribution, and when not in use will fold out of the way and allow the connection of the Insertrolley for easy roll along transportation.

F-417

The F-417 laptop case is designed for fieldwork, a fully protective TST carrying solution and a perfect workstation wherever you may be. Adjustable detachable hood will shade the LCD screen and elevation pads underneath the laptop provide extra cushioning and ventilation.

A removable partition allows you to divide the main compartment to store a mouse, a charger or an extra drive. Numerous padded pockets and organizers will store CDs, floppy discs, PDA, cell phone, folders, papers and much more equipment. The F-417 features 3 carrying options: By hand with the patented Click handle, on your shoulder or using the Insertrolley feature.

ADB-2 (Sub Bag-2)

KATA's revolutionary design for the 100 year old Duffel Bag. The ADB-2 (Advanced Duffel Bag) is the perfect solution for carrying whatever is needed for field production. Grasp your stuff, throw it in the bag... and go! The innovative diagonal zipper facilitates quick opening and closing while creating a 180° approach to the interior. The 2 Delrin-rod reinforced arcs maintain the shape of the ADB-2. The bottom and sides are padded and reinforced. Four roomy external pockets will carry more items.

Banana 3

Banana 2

Banana 2

Kata is a world leader in producing protective equipment for law enforcement personnel in hazardous zones. Anti-terror SWAT teams, soldiers as well as reporters owe their lives to Kata's bullet-proof vests. To complete the peripheral protection, ballistic helmets, gas masks and overalls, are among our standard items. Since Kata always uses the most advanced materials and technology, contacting us is recommended before making a decision - after all IT IS a matter of life and death!

ABBA-5

This armored vest was designed to protect the media reporter when on location in high-risk situations. Optimal weight distribution and flexibility allow free movement without compromising maximum protection. The ABBA-5 offers protection against shrapnel & knives, as well as pistol, sub-machine gun, and in the areas of the Ceramic Plates it also provides protection against high-velocity bullets. Unlike other anti-bullet vests, KATA's Body Armor offers protection for the sides of the torso as well as chest and back. (* Available in four sizes: S, M, L, XL)

ABBA-5 with front ceramic plate (25 cm x 30 cm) Order Code: KT VF-980-1-FP

ABBA-5 with front & rear ceramic plate (25 cm x 30 cm) Order Code: KT VF-980-1-FRP

ABBA-1

ABBA-1 provides the same protection levels as the ABBA-5. It is designed to be worn close to the body under normal clothing, thus allowing free movement without compromising maximum protection, while providing optimal weight distribution.

The ABBA-1 also features full-protection areas for the chest and back and for the sides of the torso, covering those weak points often left unprotected. If worn externally the "Press" sign can be added.

(* Available in four sizes: S, M, L, XL)

Insertrolley

The simple yet ingenious Insertrolley System can be used with many Kata cases. It allows you to either use the trolley separately or with more than one case. Simply slide the trolley through the “sleeve” on the cases for secure and easy mobility. You can detach the trolley when you want to store it and easily replace it if damaged. Patented extendable wheel system helps to better stabilize larger cases.

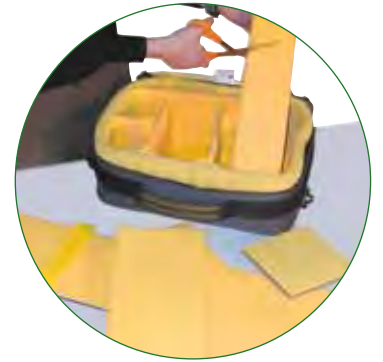

Name: Insertrolley Order Code: KT VG-DTS

Insertrolley	External Max. Size		Internal Main Compartment	
	Length	11.8"	30 cm	17.3"
Width	3.9"	10 cm	14.2"	36 cm
Height	18.9"	48 cm	41.3"	105 cm
Weight	4 lbs		1.8 kg	

Modi-Vers-10 /20/S10/S20

With the Modular Versatile Divider System you can create compartments inside the case to meet your exact requirements. The dividers can be cut with scissors to any desired size. You can then attach the newly cut divider either to another divider or the walls of the bag with special Hook & Loop connectors. KATA's Modi-Vers Kits match the bright “Yelloop” interior of our cases and is available in 4 variations: Modi-Vers Kit 10 is 10cm/4” wide; Modi-Vers Kit 20 is 20cm/8” wide; both kits are 100cm/40” long and are semi rigid divider strip. Modi-Vers Kit 10 Soft is 10cm/4” wide; Modi-Vers Kit 20 Soft is 20cm/8” wide; both kits are 50cm/20” long and are soft divider strips.

Name: Modi-Vers Kit 10 Order Code: VG-MDK-10

Name: Modi-Vers Kit 20 Order Code: VG-MDK-20

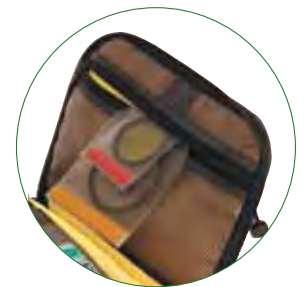

Name: Modi-Vers Kit 10 Soft Order Code: VG-MDK-S10

Name: Modi-Vers Kit 20 Soft Order Code: VG-MDK-S20

Filter Sleeve

The Filter Sleeves are flat translucent pouches designed to hold round filters. They come in three sizes: Up to - 43mm, Up to - 62mm, Up to - 82mm Many KATA cases come with a Filter Sleeve connector, which is a designated strap-connector that allows you to secure as many KATA Filter Sleeves as necessary.

Name: Filter Sleeve 43 Order Code: VG-FL-43

Name: Filter Sleeve 62 Order Code: VG-FL-62

Name: Filter Sleeve 82 Order Code: VG-FL-82

APSS-DH-N NSS-DH

APSS (Advanced Padded Shoulder Strap), KATA's first Patented Shoulder strap is constructed from 5 layers, thermo molded to the desired shape and softness. The special dot fabric stabilizes the strap on the shoulder.

The Patented NSS (Non-Slip Shoulder strap) is shaped by injecting a specially composed thermal rubber on the strap mold. On one shoulder or across the chest, the double-sided APSS & NSS have a unique curved shape that prevents them from digging into the wearer's neck while offering optimal weight distribution. The shoulder straps come with 2 snap-hooks, which can easily be connected to any case.
