Finding your friends with Google Latitude

Google Latitude lets you and your friends view each others' locations on maps and share status messages with each other.

- **Join Latitude**
- While viewing a map touch settings and touch **Join Latitude**.

The first time you join Latitude you're prompted to accept or reject the Google privacy policy.

- **Open Latitude**

After you join Latitude, you can open it to find your friends and view their updates.
While viewing a map, touch settingsand touch **Latitude**

- **Invite friends to share their locations**

After you join Latitude, you can start to share your location with your friends. Only friends whom you have explicitly invited or accepted can see your location.
1. Open Latitude touch settings and touch **Add friends**
2. Touch Select from Contacts or Add via email address in the menu that opens.
   If you touched **Select from Contacts**, a scrolling list of all your contacts opens. Check all of the contacts you want to invite.
   If you touched **Add via email address**, you can enter one or more email addresses, separated by commas, of the friends you want to invite.
3. Touch Add friends at the bottom of the screen.
   If your friends already use Latitude, they receive an email request and a notification on Latitude. If they have not yet joined Latitude, they receive an email inviting them to sign into Latitude with their Google Account.

- **Respond to an invitation**

When a friend invites you to share your location in Latitude, you can respond in the following ways.
Accept and share back You and your friend can see each other's locations.
Accept, but hide my location You can see your friend's location, but they can't see yours.
Don't accept No location information is shared between you and your friend.

- **View your friends locations**

You can view your friends' locations on a map or in a list.

37

Your friends' locations are shown when you open Maps. Each friend is represented by their picture from Contacts with an arrow that points to their approximate location. If a friend has chosen to share city-level locations, their picture doesn't have an arrow and appears in the middle of the city.

- **Manage connections with your friends**

Touch a friend's contact details balloon in Map view or touch a friend in List view to open the friend's profile. In the Profile screen, you can communicate with your friend and set privacy options.

Show on map   Shows the friend's location on the map.

Chat using Google Talk   Open a Google Talk chat window with that friend. Send email Opens Gmail with a message addressed to the friend. Directionsget directions to the friend's location.

Hide from this friend   Stop sharing your location with this friend in Latitude, in a list or on a map. To share your location with this friend again, touch **Unhide from this friend**.

Share only city level location Share only the city you are in, not your street- level location. Your friend sees your picture in the middle of the city you are in. To share more precise locations again, touch **Best available location**.

Remove Remove the friend from your list and stop sharing locations altogether.

- **Control what you share**

You have control over how and when your friendscan find you in Latitude. Only the last location sent to Latitudeis stored with your Google Account. If you turnoff Latitudeorare hiding, no location is stored.

Open Latitude, touch your own name, and touch **Edit privacy settings**. You can set the following privacy options.

Privacy and accounts Some settings associated with your account

27   Wi-Fi

Connecting to Wi-Fi networks

1. Press **Settings -> Wi-Fi**
2. Check **Wi-Fi** item on the top of the screen to turn it on
3. Touch a network to connect to it

   *Note***:**

   - *If the network is open, you are prompted to confirm that you want to connect to that network by touching **Connect**.*

   - *If the network is secured, you're prompted to enter a password or other credentials. (Ask your network administrator for details.)*

Receive notifications when open networks are in range

By default, when Wi-Fi is on, you receive notifications in the Status bar when your device detects an open Wi-Fi network.

1. Turn on Wi-Fi, if it's not already on
2. In the Wi-Fi settings screen, check Network notification.

   You can uncheck this option to stop receiving notification.

Add a Wi-Fi network

1. Turn on Wi-Fi, if it's not already on.
   If you're adding a Wi-Fi network when first setting up your device, Wi-Fi is turned on automatically.
2. In the Wi-Fi settings screen, touch **Add network** (at the topof your screen).
3. Enter the SSID (name) of the network. If the network is secured, touch the Security menu and then touch the type of security deployed on the network.
4. Enter any required security credentials.
5. Touch **Save**.
   The device connects to the wireless network. Any credentials that you enteredare saved, so you are connected automatically the next time you come

43

within range of this network.

Forget a Wi-Fi network

You can make the device forget about the details of a Wi-Fi network that you added—for example, if you don't want the device to connect to it automatically or if it is a network that you no longer use.

1. Turn on Wi-Fi, if it's not already on.
2. In the Wi-Fi settings screen, touch & hold the name of the network.
3. Touch **Forget**in the dialog that opens.

Wi-Fi Settings screen

In addition to the settings described in this section, you can press **Menu**and Advanced Wi-Fi settings as described in "**Advanced Wi-Fi**"

- **Wi-Fi**

Check to turn on Wi-Fi so you can connect to Wi-Fi networks. When connected to a network, displays the network's name.

- **Wi-Fi networks**

Displays a list of Wi-Fi networks you've previously configured and those detected when the device last scanned for Wi-Fi networks.

- **Add Wi-Fi network**

Opens a dialog where you can add a Wi-Fi network by entering its SSID (the name it broadcasts) and security type.

Advanced Wi-Fi settings screen

- **Network notification**

Check to receive a notification when an open Wi-Fi network becomes available.

- **Keep Wi-Fi on during sleep**

Opens a dialog where you can set whether and when the Wi-Fi radio disconnects. Disabling sleep uses more battery power.

- **MAC address**

The Media Access Control (MAC) address of your device when connecting to Wi-Fi networks.

- **IP address**

The Internet Protocol (IP) address assigned to the device by the Wi-Fi network you are connected to (unless you used the IP settings to assign it a static IP address).

28Accounts

Adding and removing accounts

- **Add an account**
1. Open the Accounts & Sync Settings screen:
   Press **Settings -> Accounts**
2. Touch + **Add account** .
3. Touch the kind of account you want to add
4. Follow the steps displayed on the screen to enter the required and optional information about the account.

- **Remove an account**
1. Open the Accounts & Sync Settings screen:
   Press **Settings -> Accounts**
2. Touch the account to delete
3. Touch Settings on the top of the screenand then touch **Remove account** on the dropdown menu.
4. Confirm that you want to remove the account

Configuring account sync and display options

- **Sync information manually**
1. Open the Accounts Settings screen:

45

Press **Settings -> Accounts**
2. Touch the account whose data you want to sync.
3. Touch**Menu**on the top of the screen and touch **Sync now**on the dropdown menu.

●   **Change an account's sync settings**
1. Open the Accounts Settings screen:
    Press **Settings -> Accounts**
2. Touch the account whose sync settings you want to change
3. Check or uncheck the kinds of information you want to sync to the device.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a
Class B digital device,   pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio
frequency energy and, if not installed and used in accordance with the
instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to
try to correct the interference by one or more of the followingmeasures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the
 receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
