

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- £ Reorient or relocate the receiving antenna.
- £ Increase the separation between the equipment and receiver.
- £ Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- £ Consult the dealer or an experienced radio/TV technician for help.
- £ Do not mix old and new batteries.
- £ Do not mix alkaline, standard (carbon-zinc), or rechargeable (Nickel-cadmium) batteries.

Item no. : 7225

"NOTE: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment."

## RSS-310 WARNING

English version

This radiocommunication device complies with all the requirements of Industry Canada Standard RSS-310.

"Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

French version

"Ce dispositif de radiocommunication rencontre toutes les exigences de la norme CNR-310 d'Industrie Canada."

L'utilisation de ce dispositif est autorisée seulement aux deux conditions suivantes : (1) il ne doit pas produire de brouillage, et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

Carrier frequency and field strength

Frequency Channel: 27MHz

Field Strength: 72.3dBmV/m @ 27.145 MHz @ 3m
