

User's manual

Package Includes

- 1 Bluetooth speaker
- 2 USB to Micro USB cable
- 3 3.5mm Auxiliary Cable

Features

- Durable, shock and weather-resistant silicone wrap
- On-board playback and volume controls
- Auxiliary input to connect speaker with non-Bluetooth devices

Charge it

- Plug the micro USB cable into the micro USB port under the silicone cover on the button right corner of the speaker, and connect the other end of cable to either a computer USB port or to a USB-compatible car or wall charger.
- A solid red LED light will appear through the grill on the back of the speaker to indicate when the KTS-86 is charging, even while speaker is turned off.
- When charging is complete, the red LED light will turn off.
- Charging time is approximately 2 hours

Pair & Connect with a New Device

- Power on the kts-86 speaker(refer to the “Turn it on” section)
- The KTS-86 will emit a tone, and then LED light on the back of the speaker will begin to flash blue as it tries to reconnect with a previous device. If it cannot reconnect, the LED light will begin to quickly flash blue to indicate that the speaker is now ready to be paired with a new device.
- On your Bluetooth enabled smartphone, tablet or media player, navigate to the Bluetooth setting menu, turn on the Bluetooth feature, and search for a new devices.
- After a few seconds you will see “KTS-86” listed
- Tap this model to select it. The LED will turn a solid blue. You are now paired, connected and ready to play.
- Alternatively you can connect any non-Bluetooth device using the included 3.5mm AUX cable together with the AUX input located under the silicone cover the bottom right corner of the speaker. While plugged in via the AUX input, the LED light will slowly flash blue and Bluetooth on the speaker will automatically turn off.

Power On/Off

- Press & hold the power button on the right side of the speaker for 2-3 seconds to turn on the speaker and automatically reconnect with the last Bluetooth device.
- The KTS-86 will emit a tone, and the LED light on the back of the speaker will glow blue to indicate that the speaker is now powering on.
- To turn the KTS-86 speaker off, press & hold the power button again for 2-3 seconds. The

speaker will emit a tone to indicate that the KTS-86 is now powering off.

Reconnect to Bluetooth

- You only need to pair your Bluetooth device with the KTS-86 once.
- With your previously paired device's Bluetooth turned on and in range, power on the KTS-86.
- The speaker will automatically reconnect to the last Bluetooth device it was connected to.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth settings menu on your device, turn on the Bluetooth feature, and select "KTS-86" from your list of paired Bluetooth devices.

Play

- Connect your device to the KTS-86 over Bluetooth or through the AUX input..(refer to the "Pair & Connect" section)
- Open your favorite music app and press play.
- You can control the music ,volume ,and tracks from your device, as well as control the playback and volume from the speaker: Volume on your device and on the speaker are controlled separately.
- Press the play button to play/pause music, or to answer/end phone calls. Press the "+"or "-"buttons to adjust volume.
- Speaker will emit a tone when the maximum or minimum volume on the speaker has been reached. If volume is still too low, you can also adjust the volume on your device.
- All audio, including music, games, videos, and notifications will be routed through the KTS-86.

Important Waterproof /Safety Information

IMPORTANT:DO NOT submerge the KTS-86 in water. This device is not intended to function properly after being under water.

- Before using the KTS-86 in a wet environment, make sure the silicone cover over the AUX and micro USB input ports on the back of the speaker is fully closed and secured. If water gets into either port, the speaker may not function properly
- The speaker is rated IPX4.which means the speaker can be splashed with water or left in the rain (but not submerged in water) for approximately 5 minutes.
- If the KTS-86 gets wet, it is recommended that you dry the speaker completely before using it again.
- All actions done with the KTS-86 are done at your own risk. While the speaker is weather-proof and has a protective silicone case, it is not a guarantee for complete damage protection.

Specification

Output Power:3W

Speaker Driver Size:45mm

Impedence:4 Ω

Frequency Response: 15Hz to 18 KHz

Waterproof Level: IPX4

Battery Information:

Built-in Battery: Lithium –ion

Input: DC 5V/1A

Battery Capacity: 400mAH

Music playing time: Up to 6 hours

Standby time: Up to 24 hours

Charging time: 2hours

Approximate playback time. Battery life depends on individual use and may be slightly more or less than the time specified.

Bluetooth Information

Bluetooth Specification: V2.1+EDR

Operating Distance:10 Meters

System Requirements: Bluetooth –capable device

Additional Connection Sources:

Audio: 3.5mm AUX cable

Power Souce:Bulit-in rechargeable battery or via USB cable.
