User Guide

SAFETY AND SECURITY PRECAUTIONS

Welcome to use this Bluetooth headset, in order to have a proper and safe use of the headset, please read this user manual in detail and save it.

•Please be aware of the following guidelines when using your headset:

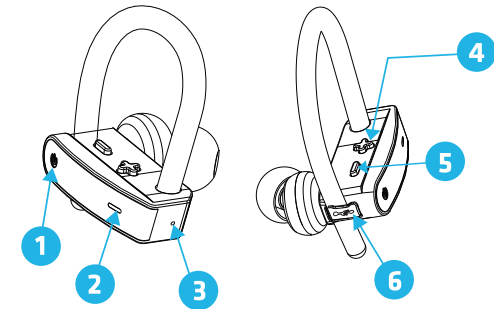

1. Always consider the volume level and listening time when using any headset. Listening to sounds that are too loud for an extended amount of time could be damaging to your hearing.
2. Please stop using the headset in potentially hazardous situations to ensure your safety.
3. Please avoid using headset to listen to music or make or receive calls to avoid any distraction while driving.
4. Store this product and its accessories somewhere out of the reach of children, to avoid a potentially fatal danger caused by inappropriate use.
5. Please keep the headset away from water to avoid electric shock or damage to the unit.
6. Please avoid turning the volume up so high that you can't hear anything around you.
7. Stop using the headset if you feel any discomfort, irritation or have any other adverse reactions.
8. The headset should not be store or used at temperatures below -15 C (5F) or above 55 C (131F) which may shorten headset or battery life.
9. Do not attempt to open or dismantle the unit. There are no replaceable parts.

CHARGING YOUR HEADSET

1. When the battery is low, the headset will emit warnings to remind you to re-charge it.
2. Turn off your headset.
3. Connect the micro-USB end of the USB charging cable with the unit and connect the other end to your PC, power bank or other charging device whose output is DCSV, 0.5A-2A.
4. The red LED light will remain on while charging.
5. The headset will be fully charged in under 2 hours.
6. The blue LED light will remain on after the unit is fully charged.

POWER ON AND PAIRING

1. Keep the distance between the headset and mobile phone within 1 meter or 3 feet. The closer the distance, the easier it will be to connect.
2. Press and hold the Function button for 3 seconds until blue and red lights blink alternatively, entering into pairing mode.
3. Active the Bluetooth function of a mobile phone, to search for the Bluetooth devices. After finishing the search, select "BE1015" in the device list displayed.
4. Select "BE1015" to connect (on some older mobile phone need you to input PIN "0000" as password). After the successful connection, the blue light of the headset will blink.

CONNECTING TO OTHER BLUETOOTH DEVICE

This headset can set up connection with two Bluetooth devices at the same time, and one of the connections is for hands-free profile.

1. In order to connect the other Bluetooth device, you must first close the current Bluetooth connection by turning off the Bluetooth function of your current device or unpairing/deleting the headset from the Bluetooth list of your current device.
2. Follow the above steps (under pairing to BT device) to pair your headset to another Bluetooth device.

4

FAQ

1. Why won't the Bluetooth headset pair with a mobile phone?

Please check whether your headset is in pairing mode or reconnection mode.

Check whether the Bluetooth search function of your mobile phone has been enable.

Check your mobile device's Bluetooth menu and delete the headset, then reconnection the headset following instructions or user manual.

2. Why can't the headset be switch on?

Please check the battery status of your headset.

3. Can I change the battery for the headset?

No, this headset use a built-in Li-Polymer battery, it can't be removed or replaced.

4. Why does the headset disconnect from your mobile phone within 15 meters/ 49 feet?

Please check if there is any metal or other material within a relatively close range that may interfere with the Bluetooth connection. Bluetooth is a radio technology that is sensitive to objects near the headset and the connected device.
