1. Preface

Dear Customers,

Thanks very much for purchasing our product!

This Tablet PC is a built-in high performance Wi-Fi receiver module, supporting an external 3G USB-DONGLE wireless network card, using broadband wireless networks, breaking through the restraint of network cables; it will bring you into the portable media player world and fulfill your entertainment needs. It also supports picture browsing, e-book reading, games, online chat and other functions; various settings will fully show your individuality.

To operate this player easily, first, please read this User Manual included with the player. Then you will have a better understanding of the operations. Before operating this player, please carefully read all data we provide about the player, so that you will have a better understanding of the product and its operations.

The Company will not be responsible for any loss of personal data and damage caused by incorrect operation of the Software/Hardware, artificial damages, replacement of batteries or any other accident. To avoid loss of your data, please backup your data to your computer at all times.

Also, since we can not control any dispute from users' misunderstanding or incorrect operation against the manual, the Company will not take any relevant responsibility for any accidental loss potentially occurring in the process of using this manual.

Due to constant product development, the information in this manual is subject to change without any prior notice.

This manual is protected by copyright and no part is permitted to be copied or reproduced in any way without prior written permission of the Company.

The Company reserves the final explanation right of this manual, warranty as well as its related information.

(Note: When compiling this manual, we are very careful to provide you completely reliable information. However, there is inevitably some error and oversight, please understand, and we welcome your suggestions. If any problem occurs during your use of this product, please immediately contact your local seller)

Thanks for your support and please pay attention to our other products.

2. Safety Notices

- 1) Please keep the Tablet PC away from strong magnetic fields in order to avoid damage to the product.
- 2) Please do not let the Tablet PC fall onto, rub against or knock against hard objects during use, because this may cause surface scratches on the Tablet PC, battery damage, data loss or other damage to the hardware.
- 3) Never let this product be exposed to a humid environment or rain as the water leaking into the Tablet PC could disable it to the extent of being beyond repair.
- 4) Never clean the Tablet PC with any chemicals or detergent, these will damage the product surface and corrode the finish.
- 5) You are recommended not to use the headset with the volume at its highest settings, please adjust the volume to an appropriate safe level and limit the amount of time you spend using headphones to avoid possible damage to your hearing. Excessive volume will cause permanent hearing damage.
- 6) Please do not cut off the power abruptly during software updates or downloading, because this may cause data loss or system errors.
- 7) Over-voltage, power cable strain and bending or squeezing of the power cable by heavy objects must be avoided to prevent the possibility of overheating or fire.
- 8) In order to eliminate the risk of electric shock, do not touch the cable power plug with wet hands.
- 9) Some movies, music and pictures are under the protection of copyright, unauthorized usage is deemed as an infringement to the laws of copyright.
- 10) Please don't turn on the Tablet PC on in locations where wireless equipment is forbidden or when the

usage of the Tablet PC will cause interference and possible danger.

11) All the wireless equipment is subject to external interference and this can affect its performance.

12) Please comply with any related restrictions and rules, wireless equipment can influence the flight of the plane; please consult the relevant airline company if you intend to use the Tablet PC on a plane.

13) Please don't use the Tablet PC in a petrol station, or near to fuel or chemicals.

14) Please comply with any related restrictions and rules; do not use the Tablet PC where blasting operations are in progress.

15) Only qualified maintenance personnel can install or repair the Tablet PC. Opening the Tablet PC in any way will invalidate the warranty.

16) Please use the original accessories and battery provided with the Tablet PC, do not use the incompatible products.

17) The Tablet PC is not waterproof, please keep it dry.

18) For the sake of data safety, please back up any important information on the Tablet PC, or keep a handwritten record.

19) When the Tablet PC is connecting with other devices, please read the user manual for detailed safety instructions. Don't connect the Tablet PC to incompatible products.

20) Please upgrade device with enclosed optical disk when the device is set to operate in a different way.

Note: Android4.2 system using the MTP protocol transfer files, rather than the original MSC agreement (ordinary U disk), currently supports the MTP protocol only Windows Media Player 10 & Windows Media Player 11 and above version. If there are no updates to the above two versions of the Player, the computer will not recognize MID or existing file cannot be copied down, etc., please correct in the computer, which is connected with the MID above installed version of the Player, can be installed to the computer, do not need to run for connection to the mid.

I	Rear Camera	Static or dynamic camera(optional)
J	Reset	The system reset function

3.4 Features Overview :

Processor/CPU- Adopt Rock chip RK3026 master chip, ARM Cortex A9 the max basic frequency 1.0GHZ, CPU Mail-400MP2, support android 4.2 intelligent operation system

Built-in RAM-Support RAM 512M/1G DDR3 (optional)

Storage Memory-Support built-in ROM Flash memory 4GB/8GB/16GB/32GB (optional)

External TF-Flash card 1GB-32GB

Display -Support 7" TFT screen 800*480, multi-capacitive touch

Video- Support MPEG-1, MPEG-2, MPEG-4, H.263, H.264, AVS, VC-1, RV, etc formats video display. Support 1920*1080 resolutions @60fps.

Picture formats- Support JPG、JPEG、BMP、GIF、PNG、JFIF etc picture formats, support 8000*8000 resolution

Audio- Support MP1、MP2、MP3、WMA、WAV、OGG、OGA、FLAC、M4A、AAC、APE、3GPP etc video formats, many kinds of EQ types. Support the lyrics synchronization and full page display lyrics

E-book -Support TXT、LRC、PDF、Html、Htm、EPUB etc, automatic browsing, zoom, bookmarks, text, etc.

Wi-Fi -Support built-In WIFI Access to broadband wireless Internet, colorful software can operational in the ANDROID system, some commonly used software system: Internet Google browser (IE), video, books, etc

Out put - Support USB-HOST port, support external usb driver, mouse, keyboard, 3G dongle etc

Camera- Support 0.3M/2.0M Front Camera and 0.3M/2.0M Back Cameras (optional).

Other function -Support G-sensor

Support stereo headphone and double speaker output

Language- multi- languages

USB mobile disk- driver can be free installed for WIN_2000 above

4. Quick Guides

4.1 Switch On/Off

●**Switch ON** : When the Tablet PC is in OFF mode, please press and hold the “POWER” key for 3 seconds .First start, the machine will enter the system desktop with boot screen, then it will enter parents using guide interface. Parents can set the requirements (Note: This is the most critical set a password). After completing the above operation, it will enter kid's System Interface. .

(Boot screen)

(kid's System Interface)

- **Unlock:** Please press and move the icon , the display will unlock automatically
- **Power Saving Mode and Locked Mode:** Pressing the “POWER” key when the Tablet PC is in use will result in the system entering SLEEP power save and locked mode. Press the “POWER” key, the Tablet PC will return the system to unlocked mode within 2 second.
- **Switch OFF:** When the Tablet PC is in use, please press and hold the “POWER” key for 3 seconds, the screen will display the power off interface, choose the power off option to confirm your selection and the system will shut down automatically.

4.2 Battery Management and Charging

Note: When power is low, the machine will alarm low electricity, if not charged, the machine will automatically shut down; if you can't boot, please check the battery power. Please make sure the battery has power before you boot.

- A. Charge the battery at least 8-12 hours to make sure the battery is fully charged for the first time.
 - B. Insert the adaptor into the DC slot on the Tablet PC, and connect the other side with the power socket. The desktop icon of the battery  keeps rolling to show it is charging. Note: Please wait until the battery is fully charged and do not disconnect the adaptor when charging.
- Once the battery is fully charged, the Icon on the desktop  will stop rolling.

C. When the battery is exhausted completely; please charge at least 1 minute before starting it up.

Note: In order to keep the battery working to its full potential, please pay attention to the following advice:

- 1) Don't charge the power in excessively high temperatures.
- 2) There is no need to run down the power for this Li-ion battery, you can charge the battery even when there is still power left in the battery without it affecting the lifespan of the battery.
- 3) In order to keep the battery in good condition, Make sure you charge it at least once every two weeks if the Tablet PC hasn't been used for a long time.

4.3 Operation of the Function Icons

◆ Operation of the Function Icons on kids interface

- Select Multimedia icon to enter, display the audio player and video player two application icons

select  icon, show as above squares mode; select  icon, display the extended loop mode; select  icon, return to the main interface.

7. Firmware upgrade

Press the POWER button to turn off the device before updating (NOTE: Press and hold the POWER button for at least 6 seconds if the device can not be turned on normally).

Insert the Driver CD and copy the file named "RK3026 Android Upgrade Tool" to your computer desktop (NOTE: The device can not be updated directly from CD), Then Open file "RKBatchTool.exe" in Folder "RK3026 Android Upgrade", click the button  next Image and choose "update.img" from the popup

window, click open, as shown in the picture below:

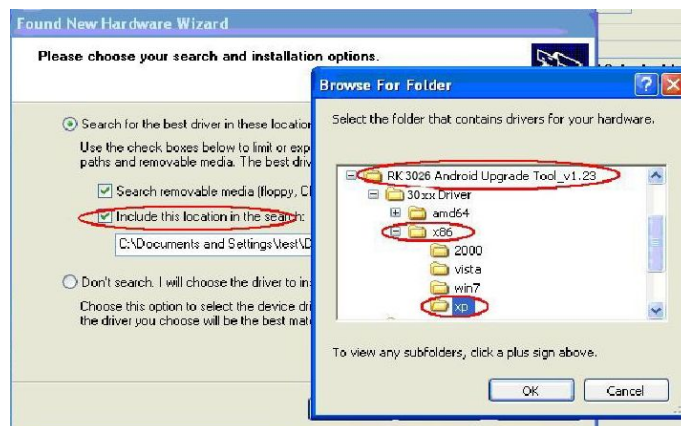

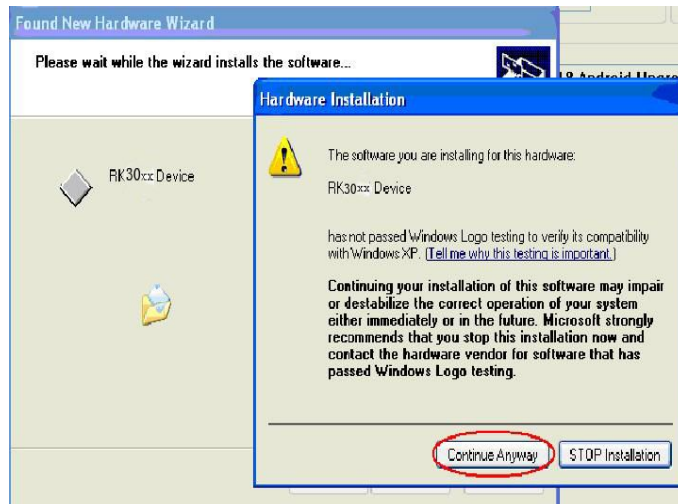

Hold down the VOL+ button on the device and without releasing it after device has been turned off; connect the device to the PC by the USB cable supplied with the device.

The "Found New Hardware Wizard" window will pop up on the bottom right corner as shown below. Choose "Install from a list or specific location (Advanced)", and then click "Next" to install the USB driver, see the picture below:

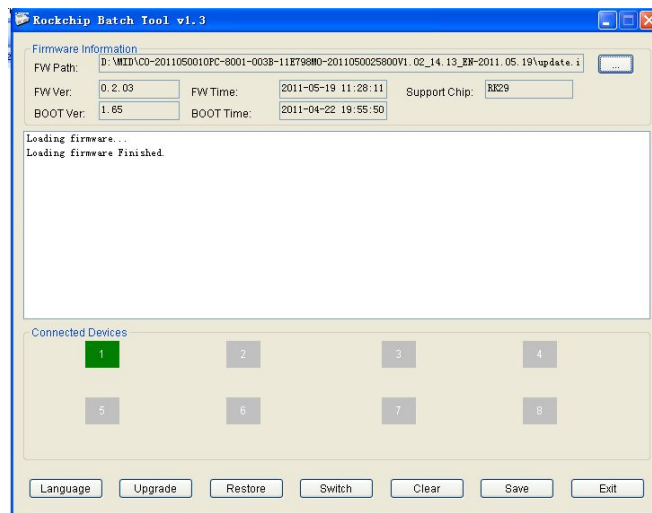

NOTE: The USB port of the PC must be USB2.0, or it cannot be used to update the device.

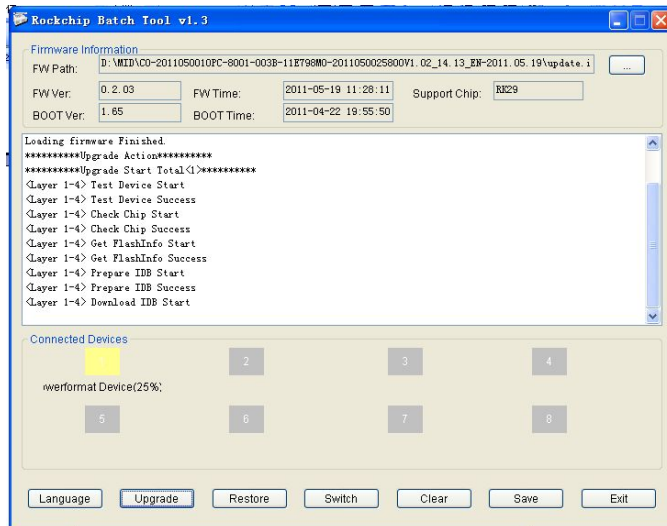

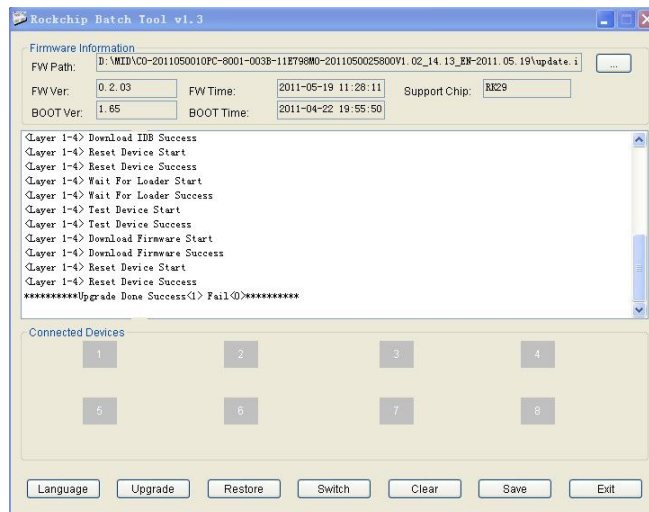

After the driver is installed successfully, “1” will turn green, see the picture as below:

Click “Upgrade” and begin to upgrade, during this process lots of information will be shown in the update status bar. No operation should be done at this time:

When waiting status bar shows: “*****Upgrade Done Success<1> Fail<0>***** ”it means the upgrading is successfully. Device will come to the main interface after run system. (Notes: Please don't disconnect the USB cable during the updating process because this will cause update failure or possible system failure of the device.)

8. Troubleshooting and FAQ

1. Device doesn't turn on

- 1) You cannot turn on the device when the battery charge is below the critical level, please charge the battery.
- 2) Press the RESET button on the top of the device and check if it is restarting normally or not.
- 3) Check if the charger is connected correctly.

2. The stand-by time of the device is too short

- 1) The duration of the lithium battery varies with environmental temperature changes and the service conditions. If the environment temperature is too low or too high, the duration of the battery will be affected. It is recommended to use this device at normal temperature.
- 2) Battery life is dependent on usage. High volume, WIFI, and the frequent use may cause the battery to be drained at a higher rate.

3. No sound via earphone

- 1) Please check if the volume setting is 0.
- 2) Please check if audio file is broken, and try to play another audio file to confirm. If the audio file is broken, it

may cause severe noise or static.

4. Cannot copy files

- 1) Please check if the device is connected to the computer correctly.
- 2) Please check if the memory space is full.
- 3) Please check if the USB cable is broken.

FCC statement

This device complies with Part 15 of the FCC Rules: Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference that is received, including any interference that may cause undesired operation.

*RF warning for Portable device: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device is acting as slave and operating in the 2.4 GHz (2412 ~2462 MHz) band.

Ad Hoc function is supported but not able to operate on non-US frequencies. Do not use the device with the environment which below minimum -10°C or maximum over 50°C .

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
