About volume operation (Only for countries/areas complying with European Directives)

An alarm (beep)* and warning [Check the volume level] are meant to protect your ears when you raise the volume setting beyond a specific level for the first time. You can cancel the alarm and warning by tapping [OK] on the alert dialog.

* The alarm (beep) does not sound when connecting a Bluetooth audio device.

> **Note**
> ● You can turn up the volume beyond the specific level after canceling the alarm and warning.
> ● After the initial warning, the alarm and warning repeat for every 20 cumulative hours that the volume is set beyond the specific level; when this happens, the volume is changed to the initial setting automatically.
> ● If the volume is set beyond the specific level and you turn off your Walkman, the volume returns to the specific level automatically.

Initial Settings

1 Use the supplied USB cable to connect your Walkman to a running computer and charge the Walkman.

Your Walkman turns on.

> **Note**
> ● If a large battery symbol is displayed while you are charging your Walkman, the remaining charge is still too low for the Walkman to operate. The Walkman will start automatically after being charged for about 10 minutes.

2 If the USB connected screen appears, tap ↰ to quit the screen, and then proceed to the initial settings.
The language selection screen* appears.

* Depending on where you purchased your Walkman, the language selection screen may not appear.

3 Select the desired language to be used to display the End User License Agreement.

**4** Make sure that you understand the terms of the license agreement then tap [Agree].

The initial setup screen appears.

5 Tap 1 .

6 Select the desired language.

**7** Tap 2 to begin using your Walkman.

8 Set the Wi-Fi connection, Google™ account and date/time, etc., following the instructions shown on the screen.

> **☼ Hint**
> ● Wi-Fi connection and Google account can also be set afterwards.
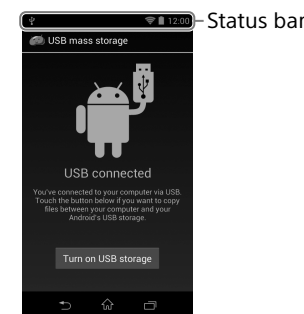

How to Install the WALKMAN Guide and Media Go (for Windows)

1 Connect your Walkman to a running computer using the supplied USB cable. Plug in the USB cable with ᴡ facing upward, making sure the connection is secure.

> **☼ Hint**
> ● If [USB connected] appears on the screen, tap [Turn on USB storage] to connect your Walkman.
> ● If the following screen does not appear, swipe the status bar on the top of the screen and tap [Turn on USB storage] on the notification panel.

— Status bar

> ● You can access your Walkman from the computer.

2 Select the following order with the computer.
● Windows 7 or earlier: Select [Start] – [Computer] or [My Computer] – [WALKMAN] – [FOR_WINDOWS].
● Windows 8: Select [Desktop] from [Start screen] to open [File Explorer]. In the [Computer] list, select [WALKMAN] – [FOR_WINDOWS].

3 Double-click [Setup.exe].
The install wizard appears.

> **☼ Hint**
> ● When you execute [Setup.exe], the [Setup.exe] file stored in the [FOR_WINDOWS] folder of your Walkman is copied to your computer for backup, and WALKMAN Guide and Media Go are installed to your computer.
> ● If you changed the type of USB connection to a setting other than MSC mode, change mode back to MSC mode again by tapping [Connected as USB Storage] on the notification panel.
> ● If [Setup.exe] does not start, copy the [Setup.exe] file to your desktop, then double-click it.

4 Follow the on-screen instructions.
After the install wizard finishes, the WALKMAN Guide and Media Go shortcuts appear on the desktop of your computer.
The Help Guide is included in the WALKMAN Guide.

How to Install the Help Guide and Content Transfer (for Mac)

1 Connect your Walkman to a running computer using the USB cable (supplied).

2 On the computer, select [WALKMAN] in the sidebar of Finder, then open the [FOR_MAC] folder.

3 Double-click the installer icon of the desired software:
To install the Help Guide: [Help_Guide_Installer_for_Mac]
To install the Content Transfer software: [ContentTransfer.pkg]

**4** Follow the on-screen instructions.
After the installer finishes, the alias (shortcut) of the installed software (Help Guide or the Content Transfer software) appears on the desktop of your computer.

> **☼ Hint**
> ● Before you attempt to delete the software from your Walkman, copy the [FOR_MAC] folder to your Mac computer as a backup if necessary.

4 **Check information on the issue in the Help of software you are using.**

5 **Look up information on the issue on one of the customer support websites.**
For customer support websites, see "For the latest information."

6 **If the approaches listed above fail to resolve the issue, consult your nearest Sony dealer.**

Symptom	Cause/Remedy
The computer does not recognize your Walkman.	• If the remaining battery power is low, charge the battery. • When you use your Walkman for the first time, or if you have not used the Walkman for a long time, it may take a few minutes to be recognized by the computer. Check that the computer recognizes the Walkman after you have connected it to the computer for about 10 minutes. • Make sure that the USB cable is connected to the computer properly and securely. • Use the supplied USB cable. • Connecting your Walkman via a USB hub may not work. Connect the Walkman directly to the USB connector on your computer. • Make sure that the USB connection is not turned off. If your Walkman is in MSC mode, drag the status bar, then tap [Turn on USB storage] on the notification panel followed by [Turn on USB storage] then [ON]. • Some devices or software may not recognize your Walkman when USB debugging is enabled. Tap 🖳, then tap 🔧 [Settings] – [🔧 Developer options] – [USB debugging] and uncheck the box. • If the approaches listed above fail to resolve the issue, press and hold the ⏻ button for about 8 seconds or press the RESET button with a pen or a paper clip, etc. to reset your Walkman then try the USB connection again.
Your Walkman becomes unstable while it is connected to the computer.	• Your Walkman may be unstable if using a USB hub or USB extension cable. Connect the Walkman directly to the computer's USB port.
Your Walkman gets warm.	• Your Walkman may become warm when the battery is being charged and just after charging. The Walkman also may get warm temporarily when a large amount of data is transferred. Set the Walkman aside for a while to allow it to cool down.

About the headphones
- Avoid playing the unit at so loud a volume that extended play might affect your hearing.
- At a high volume outside sounds may become inaudible. Avoid listening to the unit in situations where hearing must not be impaired, for example, while driving or cycling.
- As the supplied headphones are of open-air design, sounds go out through the headphones. Remember not to disturb those close to you.

About the in-ear headphones
The earbuds seal your ears. Therefore, be aware that there is a risk of damage to your ears or eardrums if strong pressure is applied to the earbuds, or the earbuds are suddenly removed from your ears. After use, be sure to take the earbuds off your ears gently.
