These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses and can radiate radio frequency energy and, if not used properly, can cause interference with the reception, use and operation of other electronic equipment.</p> <p>However, there is no guarantee that interference will not occur in a particular installation. If interference should occur, you should try to correct the problem by one or more of the following measures:</p> <ul style="list-style-type: none"> • Reorient or relocate the receiving antenna. • Increase the distance between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help. <p>Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.</p> <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause occasional operation.</p> <p>FCC ID: A2428UBEN7</p> <p>CE, RoHS, Recycle symbols</p>
