Bluetooth Connection

Use Bluetooth mode to stream music from a Bluetooth enabled player (e.g., smartphone, or tablet device). A device must be paired with the unit before using them together for the first time.

- Make sure Bluetooth is enabled on your device and that it's next to the unit before attempting to pair it.
- Turn on the unit and set it to Bluetooth mode (press the mode button). The unit will automatically enter pairing mode.
- Use your device to search for nearby Bluetooth devices. The speaker will be listed as "LK1545"
- Select "LK1545" from the list of found/available devices.

TWS Connection

- TWS connection: TWS connection is only for two active speakers of same model, cannot support quantity over 2 PCS.
- Turn on two same speakers, press the MODE button to switch to BLUETOOTH mode for both speakers.
- Long press the MODE (TWS) button on one speaker. Then two speakers will automatically connect together.
- Pair your Bluetooth: use your device to search and connect for nearby Bluetooth devices. The pairing name is "LK1545".

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
